Setup

1. **Unpacking:** Carefully remove the sewing machine and all accessories from the packaging. Retain the original packaging for future storage or transport.
2. **Placement:** Place the machine on a stable, flat surface with adequate lighting. Ensure there is enough space around the machine for fabric handling.
3. **Power Connection:** Connect the foot controller plug to the machine's receptacle and the power cord to a suitable electrical outlet.
4. **Threading:** Follow the threading guides indicated on the machine for both the upper thread and the bobbin. Refer to the included quick-start guide for visual instructions.
5. **Needle Installation:** Ensure the needle is correctly inserted with the flat side facing the back, and tightened securely.

Operating Instructions

1. **Turning On:** Plug in the machine and turn on the power switch, usually located on the side or back.
2. **Stitch Selection:** Use the control panel to select your desired stitch. The display will show the selected stitch number.
3. **Adjusting Settings:** Modify stitch length, width, and tension as needed for your fabric and project. Refer to the fabric and stitch guide for recommendations.

- 4. **Lowering Presser Foot:** Always lower the presser foot before beginning to sew.
- 5. **Starting to Sew:** Gently press the foot controller to start sewing. Control your speed by varying the pressure on the foot controller.
- 6. **Reverse Stitching:** Use the reverse lever or button to reinforce seams at the beginning and end of your stitching.
- 7. **Finishing a Seam:** When finished, raise the needle to its highest position, lift the presser foot, and pull the fabric away from the machine. Cut the threads using the built-in thread cutter.

Maintenance

- **Cleaning:** Regularly clean lint and dust from the bobbin case area and feed dogs using the brush provided. Always unplug the machine before cleaning.
- **Needle Replacement:** Replace the needle frequently, especially after every 8-10 hours of sewing or when it becomes dull or bent. Use the correct needle type and size for your fabric.
- **Oiling:** Refer to your full instruction manual for specific oiling points and frequency. Not all modern machines require user oiling.
- **Storage:** When not in use, cover the machine with its protective case to prevent dust accumulation. Store in a dry, cool place.

Troubleshooting

Problem	Possible Cause	Solution
Skipped Stitches	Incorrect needle, bent needle, improper threading, wrong needle size for fabric.	Replace needle, re-thread machine, use correct needle type/size.
Thread Breaking	Improper threading, tension too tight, poor quality thread, bent needle, burr on needle plate.	Re-thread machine, adjust tension, use good quality thread, replace needle, check for burrs.
Fabric Puckering	Tension too tight, stitch length too long for fabric, dull needle.	Loosen tension, shorten stitch length, replace needle.
Machine Not Starting	Not plugged in, power switch off, foot controller not connected.	Check power connections, ensure switch is on, verify foot controller connection.
