Zerodis Portable Mini USB Rose Shape Humidifier Instruction Manual

Model: B07DCSN43Y

INTRODUCTION

Thank you for choosing the Zerodis Portable Mini USB Rose Shape Humidifier. This device is designed to provide a fine mist to humidify your personal space, offering a comfortable environment. It can also function as an aroma diffuser when essential oils are added. Please read this manual carefully before use to ensure proper operation and maintenance.

SAFETY INFORMATION

- Use only clean tap water or distilled water. Do not use purified water or water with high mineral content, as this may affect mist output.
- Do not immerse the device in water or any other liquid.
- Keep out of reach of children and pets.
- Ensure the USB power source is compatible with the device's voltage requirements.
- Do not block the mist outlet during operation.
- Unplug the device when not in use or before cleaning.
- Avoid adding corrosive liquids or chemicals to the water tank.

PRODUCT OVERVIEW

The Zerodis Rose Shape Humidifier is a compact and portable device designed for personal use. It features a unique rose-shaped head and a long stem that acts as a water absorption filter.

Rose MINI HUMIDIFIER

Components:

- Rose-shaped humidifier head with mist outlet and power button.
- USB power input port.
- Water absorption filter stick (inside the stem).
- USB power cable.

SETUP

1. **Prepare the Water Absorption Filter:** Before first use, or if the humidifier has been stored dry, remove the filter stick from the stem. Soak the entire filter stick in water for 5-10 minutes until it is fully saturated.
2. **Insert the Filter:** Reinsert the saturated filter stick firmly into the stem of the humidifier head. Ensure it is properly seated.
3. **Place in Water:** Place the stem of the humidifier into a container filled with clean tap water or distilled water. Ensure the water level is sufficient for the filter stick to be fully submerged.
4. **Connect Power:** Connect the provided USB cable to the USB port on the humidifier head. Plug the other end into a compatible USB power source (e.g., computer, power bank, USB wall adapter).

OPERATING INSTRUCTIONS

1. **Power On:** After setup, press the power button located on the top of the rose-shaped head. The humidifier will begin to emit mist.
2. **Aroma Diffusion (Optional):** To use as an aroma diffuser, add 1-2 drops of water-soluble essential oil directly into the water container. Do not add oil directly to the humidifier head or filter stick.
3. **Power Off:** Press the power button again to turn off the humidifier.
4. **Automatic Shut-off:** The humidifier may feature an automatic shut-off function after a certain period (e.g., 4-6 hours) or when the water level is too low to prevent dry burning.

MAINTENANCE

Regular cleaning and maintenance will prolong the life of your humidifier and ensure optimal performance.

1. **Daily Cleaning:**

- Unplug the humidifier.
- Empty any remaining water from the container.
- Wipe the humidifier head and stem with a soft, damp cloth.
- Allow all parts to air dry completely before storage or next use.

2. **Filter Stick Replacement:**

- The water absorption filter stick should be replaced every 1-3 months, or sooner if you notice reduced mist output or discoloration.
- To replace, gently pull out the old filter stick from the stem and insert a new, pre-soaked filter stick.

3. **Deep Cleaning (Weekly/Bi-weekly):**

- For mineral buildup, mix a solution of equal parts white vinegar and water.
- Soak the filter stick in this solution for 30 minutes, then rinse thoroughly.
- Wipe the mist outlet area with a cotton swab dipped in the vinegar solution, then wipe with clean water.
- Do not use harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or very little mist	Filter stick not fully saturated.	Soak filter stick for 5-10 minutes.
	Filter stick clogged or needs replacement.	Replace filter stick.
	Insufficient water in the container.	Add more water to the container.
	Mist outlet blocked.	Clean the mist outlet.
	Power not connected or faulty.	Check USB connection and power source.
Unpleasant odor	Stagnant water.	Change water daily.
	Dirty filter stick or humidifier.	Clean the humidifier and replace the filter stick.
Humidifier not turning on	No power. Faulty USB cable or power source.	Ensure USB cable is securely connected. Try a different USB port or power adapter.
