HuskyTools H4CH1R

61 in. 10-Drawer 1-Door 24 in. D Mobile Workbench with Pegboard and Shelf

Brand: HuskyTools | Model: H4CH1R

1. Introduction

This instruction manual provides essential information for the safe and efficient use of your HuskyTools 61-inch Mobile Workbench. Please read this manual thoroughly before assembly and operation to ensure proper functionality and longevity of the product.

1.1 Safety Information

- Always ensure the workbench casters are locked when the unit is stationary to prevent accidental movement.
- Do not exceed the stated load capacities for drawers, shelves, or the workbench top.
- Keep all keys in a secure location away from the workbench to prevent unauthorized access.
- Ensure the workbench is placed on a level, stable surface.
- Use appropriate personal protective equipment (PPE) when working with tools on the workbench.

2. Features Overview

The HuskyTools 61-inch Mobile Workbench is designed for heavy-duty use, offering extensive storage and a robust work surface. Key features include:

- **Spacious Storage:** 26,551 cubic inches of storage space across 10 drawers and a 1-door cabinet.
- **High Load Capacity:** Supports up to 2200 lbs.
- **Durable Construction:** Features heavier 19-Gauge steel and a 1.2-inch thick solid wood top coated with polyurethane.
- **Integrated Pegboard:** Adjustable-height 22-inch H steel pegboard back wall, supporting up to 200 lbs.
- **Power Center:** Built-in 6-outlet and 2 USB sockets for convenient power access.
- **Smooth Operation:** 100 lb. rated, soft-close ball bearing drawer slides.
- **Mobility:** Six 5-inch x 2-inch industrial-grade polypropylene casters (4 locking, 2 non-locking).
- **Security:** Barrel key and lock system for both chest and cabinet.

3. Setup and Assembly

This workbench requires assembly. Please follow these general steps. Refer to the separate assembly guide for detailed, step-by-step instructions and diagrams.

1. **Unpacking:** Carefully unpack all components and verify against the parts list provided in the assembly guide. Ensure all packaging materials are removed.
2. **Caster Installation:** Attach the six 5-inch x 2-inch industrial-grade polypropylene casters to the base of the workbench. Ensure the 4 locking casters are positioned as indicated in the assembly guide for optimal stability.
3. **Pegboard Assembly:** Secure the adjustable-height steel pegboard back wall to the workbench frame. The pegboard can be raised or lowered into two different positions to suit your needs.
4. **Shelf Attachment:** Attach the 48-inch shelf to the pegboard. This shelf can hold up to 40 lbs.

5. **Drawer Liners:** Place the included drawer liners into each drawer to help keep tools in place and protect the drawer surfaces.
6. **Power Center Connection:** The 6-outlet and 2 USB sockets power center is built into the side wall. Connect the power cord to a suitable electrical outlet.

3.1 Initial Inspection

Upon receipt, inspect the unit for any shipping damage. If keys are found to be locked inside the drawers, contact customer support for assistance. Do not attempt to force open locked drawers as this may damage the unit or locking mechanism.

4. Operating Instructions

4.1 Drawer Operation

The workbench features 10 drawers with 100 lb. rated, soft-close ball bearing drawer slides for smooth operation. The top full-width drawer measures 55.65 in. L x 21.85 in. W x 3.88 in. H. The two deep bottom drawers have double 100 lb. drawer glides for heavier items.

- To open a drawer, gently pull the black, anodized aluminum drawer pull.
- To close a drawer, push it firmly until the soft-close mechanism engages, ensuring it is fully closed.
- The barrel key and lock system secures all drawers. Insert the key into the lock located on the top drawer and turn to lock or unlock.

4.2 Cabinet Storage

The 1-door storage locker provides additional storage space, measuring 13.64 in. W x 20.4 in. H. It includes an adjustable-height shelf that can handle a 100 lb. load and a side shelf for bottle and can storage inside the door.

- To open the cabinet door, pull the handle. The door features a magnetic latch.
- Adjust the shelf height by repositioning the shelf supports within the cabinet.
- The cabinet door is also secured by the main barrel key and lock system.

4.3 Pegboard and Shelf Usage

The integrated pegboard allows for customizable tool organization. Use standard pegboard hooks and accessories (not included) to arrange your tools as desired. The 48-inch shelf attached to the pegboard provides additional surface area for frequently used items.

4.4 Power Center

The built-in power center on the side wall includes 6 standard outlets and 2 USB sockets. This allows for convenient charging of power tools and other electronic devices directly at your workstation.

4.5 Mobility and Stability

The workbench is equipped with six 5-inch x 2-inch industrial-grade casters. Four of these casters are locking, and two are non-locking, providing both mobility and stability.

- To move the workbench, ensure all caster locks are disengaged.
- To secure the workbench in place, engage the locks on the four locking casters by pressing down on the pedals.

5. Maintenance

- **Cleaning:** Wipe down the steel surfaces with a damp cloth and mild detergent as needed. For the wood top, use a wood-safe cleaner. Avoid abrasive cleaners that may damage the finish.
- **Drawer Slides:** Periodically inspect the ball bearing drawer slides for smooth operation. If they become stiff, apply a small amount of silicone lubricant.
- **Casters:** Check casters regularly for debris or wear. Clean as necessary to ensure smooth rolling. Lubricate swivel points if movement becomes restricted.
- **Wood Top:** The polyurethane coating provides durability. Avoid prolonged exposure to moisture or harsh chemicals.

6. Troubleshooting

- **Drawers not opening/closing smoothly:** Check for obstructions in the drawer slides. Ensure the workbench is on a level surface. Lubricate drawer slides if necessary.
- **Keys locked inside:** If the keys are inadvertently locked inside the workbench upon delivery or after use, do not attempt to force the lock. Contact HuskyTools customer support for assistance.
- **Workbench not rolling smoothly:** Check casters for debris (e.g., tangled hair, string). Ensure caster locks are fully disengaged. Lubricate swivel points if needed.
- **Power outlets not working:** Ensure the power cord is securely plugged into a functional wall outlet. Check for tripped circuit breakers.

7. Specifications

Attribute	Detail
Brand	HuskyTools
Model Number	H4CH1R
Product Dimensions	24"D x 61"W x 24"H
Material	Polyurethane, Steel, Wood
Color	Black
Finish Type	Matte
Base Type	Casters
Load Capacity	2200 lbs
Assembly Required	Yes
Item Weight	455 pounds
