## SETUP AND INSTALLATION

The Delta Woodhurst faucet is designed for easy DIY installation, featuring a wrench-free, quick-connect hose system that audibly clicks when water lines are properly connected, helping to prevent leaks. This widespread bathroom faucet is suitable for 3-hole, 4-16 inch widespread installations.

### Installation Steps:

- 1. Prepare the Sink:** Ensure the sink area is clean and free of debris. Confirm your sink has three holes for widespread faucet installation.
- 2. Feed Supply Lines:** Feed the supply lines through the base gaskets and then through the outside holes of the sink.
- 3. Feed Spout Inlet:** Feed the spout inlet through the base gasket and then through the center hole of the sink.
- 4. Secure Bracket:** Secure the mounting bracket to the mounting stud using the pre-installed nut and included wrench.
- 5. Connect Spout to Valve Outlets:** Connect the spout inlet to the valve outlets using the supplied hose.
- 6. Connect Supply Lines:** Connect the hot and cold supply lines (not included) to the hot and cold stops and tighten with an adjustable wrench.
