CC KITS 0050

CC KITS Full-Size Conversion Kit #0050 Instruction Manual

For Delta Children Canton Deluxe Convertible Crib

INTRODUCTION

This instruction manual provides comprehensive guidance for converting your Delta Children Canton Deluxe Convertible Crib into a full-size bed using the CC KITS Full-Size Conversion Kit #0050. Please read all instructions carefully before assembly to ensure proper setup and safety.

PRODUCT FEATURES

- **Crib Compatibility:** Specifically designed for Canton Deluxe 6-in-1 (W100330) Convertible Cribs by Delta Children. *Not compatible with Canton 4-in-1 (7888).*
- **Durable Construction:** Crafted from 100% solid wood rails, ensuring superior strength and longevity.
- **High Weight Capacity:** Supports up to 600 pounds when used with additional slats (sold separately).
- **Easy Installation:** Quick and straightforward assembly, typically taking 20-30 minutes.
- **Safety Assured:** Features water-based, non-toxic finishes, free from lead and phthalates.
- **Lifetime Warranty:** Enjoy peace of mind with a lifetime warranty on the conversion kit.

PARTS LIST

Ensure all parts are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 2 Wooden Bed Rails with Brackets on the Ends
- 4 Slats
- 8 Washers

- 8 Screws
- 8 Allen Bolts
- 1 Allen Key/Wrench
- 1 Screwdriver (optional; not included)

INSTALLATION INSTRUCTIONS

Follow these steps to convert your crib into a full-size bed. Refer to the video for visual guidance.

Installation Video Guide

Your browser does not support the video tag.

Video: This official video from Grow-with-Me Crib Conversion Kits demonstrates the complete process of converting a crib to a full-size bed, including disassembly, attaching bed rails, installing slats, and optional add-ons. It also highlights important notes regarding compatibility and support.

Step 1: Disassemble the Crib

Completely disassemble the crib using its original instruction sheet. Keep all bolts and the mattress support for future use. If converting from a toddler bed/daybed, retrieve your footboard from storage. If your footboard has legs from side rails, remove them and attach them to the footboard as shown in the video (0:36-0:55).

CANTON 4-IN-1 CRIB

Figure 2: Disassembled crib components, ready for conversion.

Step 2: Attach Bed Rails to Headboard

Attach each bed rail to the headboard using 2 bolts with washers. Ensure a secure connection. Refer to the video from 0:55-1:04 for visual guidance.

Figure 3: Attaching the bed rail to the headboard.

Step 3: Attach Bed Rails to Footboard

Attach the other end of the bed rails to the footboard in the same manner as the headboard, using 2 bolts

with washers for each rail. Refer to the video from 1:04-1:11 for visual guidance.

Figure 4: Bed frame assembled with headboard, footboard, and bed rails.

Step 4: Attach Support Slats

Attach the 4 support slats using the 8 screws provided with a screwdriver. Recommended placement: Place one slat near the headboard, one near the footboard, and space the others evenly in between. Refer to the video from 1:11-1:25 for visual guidance.

Figure 5: Installing the support slats onto the bed frame.

Step 5: Mattress Placement and Optional Add-ons

Place your full-size mattress onto the support slats. Mattress support is required for the conversion kit. Additional slats (sold separately) can be purchased to forgo a box spring and keep the mattress lower, providing adequate support. A safety rail (sold separately) can also be added to allow your child to climb in and out of bed while preventing falls. Refer to the video from 1:25-1:58 for details on mattress support and optional accessories.

MAINTENANCE

To maintain the quality and appearance of your conversion kit, wipe surfaces with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

- **Screws not fitting:** If the provided screws do not fit the pre-drilled holes, try using the original screws from your crib. Some users have reported issues with the provided screws being too large due to their finish.
- **Brackets not aligning:** This conversion kit is made to work with your crib. However, due to different models and production runs, it's possible the brackets may not fit your crib perfectly. If this occurs, please contact CC KITS customer support for assistance and potential alternate brackets at no extra charge. (Refer to video 1:58-2:03)
- **Slats not securing:** If you wish to screw the slats into the bed rails for added security and there are no pre-drilled holes, an electric drill/screwdriver will be required to create pilot holes.

SPECIFICATIONS

Attribute	Detail
Brand	CC KITS
Model Number	#0050
