HMVPL TCP181

HMVPL TCP181 Ceramic Plug-in Pendant Light Instruction Manual

Model: TCP181

1. Important Safety Instructions

Please read and understand all instructions before assembling, installing, or operating this product. Failure to do so may lead to electric shock, fire, or other injuries.

- Always disconnect power before cleaning, replacing the bulb, or performing any maintenance.
- Use only bulbs of the specified type and wattage (E26 base, maximum 60 Watts). Exceeding the maximum wattage may cause overheating.
- Ensure the light fixture is securely mounted before plugging it into an electrical outlet.
- This product is designed for indoor use or covered outdoor areas. Do not expose to direct water spray or extreme weather conditions.
- Keep flammable materials away from the light fixture when in use.
- Do not modify the fixture or its components. Any modifications may void the warranty and create safety hazards.
- If you have any doubts about installation or operation, consult a qualified electrician.

2. Package Contents

Verify that all components are present and undamaged before proceeding with installation.

- 1 x HMVPL Ceramic Pendant Light with Dimmable Switch and Cord
- 1 x Set of Mounting Hardware (includes ceiling hooks and cable clips)
- 1 x User Manual

3. Product Features

The HMVPL TCP181 Pendant Light offers a blend of functionality and design.

- **Ceramic Shade:** Durable and easy to clean, featuring an intricate pattern.
- **Integrated Dimmable Switch:** Conveniently adjust light brightness directly from the cord.
- **E26 Medium Base Socket:** Compatible with various E26 bulbs (bulb not included).
- **Long Cord:** Approximately 16.4 feet (5 meters) for flexible placement.
- **Plug-in Design:** Simple installation without the need for complex wiring.

4. Setup and Installation

4.1. Before You Begin

- Ensure you have a suitable E26 base bulb (max 60W). If you plan to use the dimming feature, ensure your bulb is dimmable.
- Choose a location where the light can hang freely and the cord can reach a power outlet without being a tripping hazard.
- Gather basic tools if needed (e.g., pencil for marking, screwdriver for hooks).

4.2. Installation Steps

1. **Unpack:** Carefully remove the pendant light and all accessories from the packaging. Inspect for any damage.
2. **Install Bulb:** Gently screw your E26 base bulb into the lamp socket. Do not overtighten.

3. **Determine Hanging Position:** Hold the pendant light at your desired hanging height and mark the ceiling or wall where the cord will be secured.
4. **Mount Hooks:** Screw the provided ceiling hooks into the marked positions. Ensure they are securely fastened to support the weight of the light.
5. **Route Cord:** Drape the cord over the ceiling hooks to achieve the desired hanging height and position. Use the provided cable clips to secure the cord neatly along the wall or ceiling, leading it towards your power outlet.
6. **Plug In:** Once the light is securely hung and the cord is routed safely, plug the power cord into a standard 120V electrical outlet.

5. Operating Instructions

5.1. Turning On/Off and Dimming

The pendant light features an inline dimmer switch on its cord for easy control.

- To turn the light **ON** or **OFF**, rotate the dial on the dimmer switch.
- To **adjust brightness**, continue rotating the dial. Turn clockwise for brighter light and counter-clockwise for dimmer light.
- For optimal dimming performance, ensure a dimmable E26 bulb is installed.

5.2. Bulb Replacement

To replace the bulb:

1. **Disconnect Power:** Unplug the light fixture from the electrical outlet.
2. **Allow to Cool:** If the light was recently on, allow the bulb to cool completely before touching it.
3. **Remove Old Bulb:** Carefully unscrew the old bulb from the E26 socket.
4. **Install New Bulb:** Screw in a new E26 base bulb (max 60W, dimmable if desired).
5. **Reconnect Power:** Plug the light fixture back into the electrical outlet.

6. Maintenance

Regular cleaning will help maintain the appearance and performance of your pendant light.

- **Cleaning the Shade:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the ceramic shade. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or harsh chemicals.
- **Cord and Switch:** Wipe the cord and dimmer switch with a dry cloth. Ensure no moisture enters the switch mechanism.

7. Troubleshooting

If you encounter issues with your pendant light, refer to the following common problems and solutions:

Problem	Solution
Light does not turn on after powering.	Ensure the power plug is fully inserted into the electrical outlet. Check that the dimmer switch on the cord is turned to the 'On' position. Verify the bulb is securely screwed into the socket. Gently pull out the copper contact piece in the bulb socket slightly to ensure good contact. Test the electrical outlet with another device to confirm it is functional. Replace the bulb with a known working bulb to rule out a faulty bulb.
Light flickers when turned on or dimmed.	Ensure you are using a dimmable bulb, especially if it is an LED bulb. Non-dimmable bulbs may flicker when connected to a dimmer switch. Check the bulb for damage or a loose connection in the socket.

8. Specifications

Detailed technical specifications for the HMVPL TCP181 Pendant Light.

Feature	Detail
Model Number	TCP181
Brand	HMVPL
Material	Ceramic
Shade Color	White
Item Dimensions (L x W x H)	6.9" x 6.9" x 6.9"
Power Source	Corded Electric (Plug-in)
Voltage	120 Volts
Wattage	Max 60 Watts
