KOIOS HB-2046

KOIOS 5-in-1 Hand Immersion Blender Instruction Manual

Model: HB-2046 | Brand: KOIOS

INTRODUCTION

The KOIOS 5-in-1 Hand Immersion Blender is a versatile kitchen appliance designed to simplify various food preparation tasks. Equipped with a powerful 1000-watt copper motor and 12 adjustable speeds, it offers efficient blending, chopping, whisking, and frothing. This manual provides detailed instructions for safe and effective use of your new appliance.

PRODUCT COMPONENTS

Your KOIOS 5-in-1 Hand Immersion Blender set includes the following components:

- Main Motor Unit (Hand Blender Body)
- Immersion Blender Attachment (Stainless Steel Blade)
- 600ml Mixing Beaker
- 500ml Food Processor Bowl with Chopping Blade
- Whisk Attachment
- Milk Frother Attachment

Visual Overview of Components

Image showing the complete KOIOS 5-in-1 Hand Immersion Blender set with all its attachments laid out.

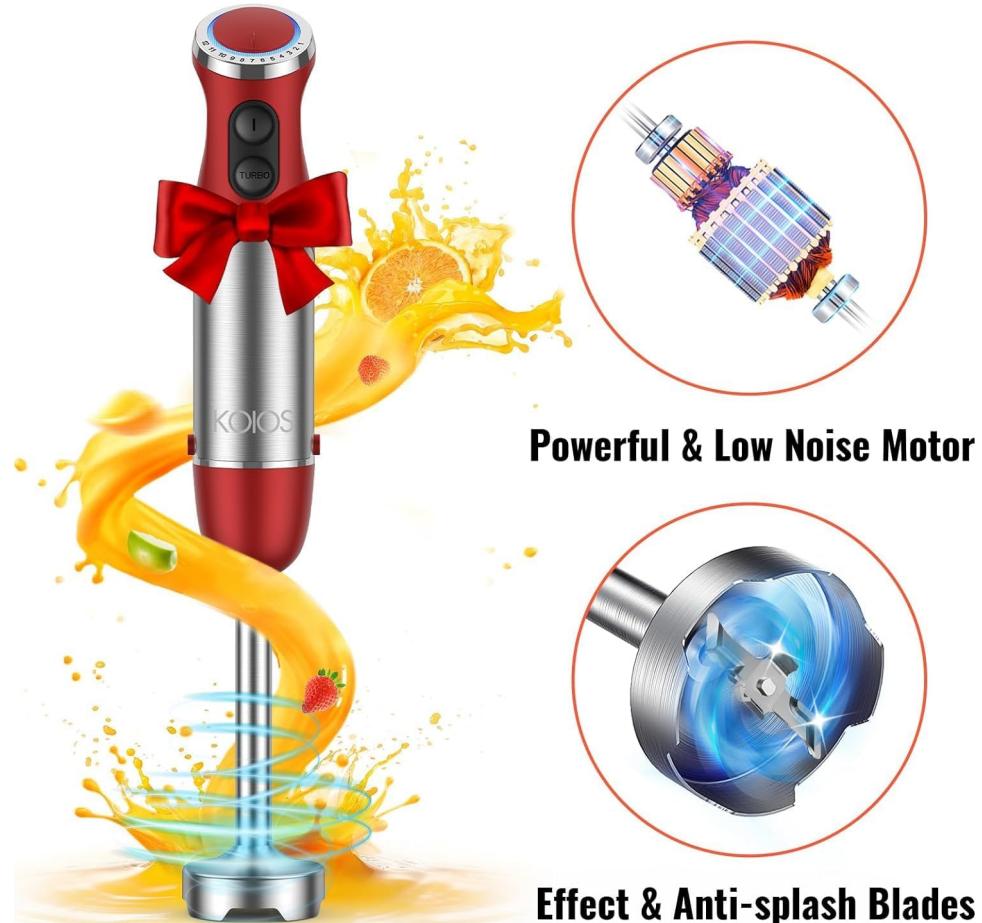

Diagram illustrating the multi-functional capabilities of the blender, including preparation of soups, juices, chopped nuts, meats, whisked eggs, and frothed milk.

SETUP

Before first use, wash all detachable parts (except the main motor unit) in warm soapy water, rinse thoroughly, and dry.

Assembling the Main Unit

The main motor unit is the core of your blender. To attach any accessory, align the accessory with the motor unit and twist or push until it clicks securely into place. Ensure the unit is unplugged before attaching or detaching accessories.

Visual guide demonstrating the easy click-on/click-off mechanism for attaching and detaching the various blender accessories.

OPERATING INSTRUCTIONS

General Operation

The main motor unit features a 12-speed dial at the top and two buttons on the handle: a standard ON button and a TURBO button for maximum power.

TURBO MODE OFFERS MORE POWER

12 Speeds Meet Your Multiple Needs

Detailed view of the blender's speed control dial (1-12) and the two operational buttons: standard power and Turbo.

Using the Immersion Blender Attachment

Attach the immersion blender shaft to the main motor unit. Submerge the stainless steel blade into your ingredients (soups, smoothies, etc.) in the 600ml beaker or another suitable container. Press the ON button to start blending. Use the speed dial to adjust intensity. For tougher ingredients, press and hold the TURBO button.

Easy to Use

Simple to Change Attachments

The immersion blender in use, demonstrating its powerful blending capability and anti-splash design, ideal for preparing smoothies directly in the beaker.

Using the Food Processor Attachment

Place the chopping blade inside the 500ml food processor bowl. Add ingredients like vegetables, nuts, or meat. Secure the food processor lid, then attach the main motor unit to the lid. Press the ON or TURBO button to chop.

Using the Whisk Attachment

Attach the whisk to the main motor unit. Use it for whipping cream, beating eggs, or mixing batters. Submerge the whisk into your ingredients and press the ON button. Adjust speed as needed.

Using the Milk Frother Attachment

Attach the milk frother to the main motor unit. Submerge the frother into milk (cold or warm) in a small container. Press the ON button to create foam for coffee or other beverages.

MAINTENANCE AND CLEANING

Always unplug the appliance before cleaning.

- **Main Motor Unit:** Wipe the motor unit with a damp cloth. Do not immerse it in water or any other liquid.
- **Attachments:** All detachable attachments (immersion blender shaft, food processor bowl, chopping blade, whisk, milk frother, mixing beaker) are dishwasher safe. Alternatively, they can be rinsed under tap water.

Storage

Store the blender and its accessories in a dry place. The compact design allows for easy storage in cabinets or by hanging the main unit.

The blender and its accessories are shown stored neatly, with the main unit hanging from a hook for convenient access.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------------------|-----------------------------------------------|------------------------------------------------------------------------------------------------------|
| Blender does not turn on. | Not plugged in; Power outlet malfunction. | Ensure appliance is securely plugged into a working outlet. |
| Attachments not securing properly. | Incorrect alignment; Debris in connection. | Align attachments correctly and ensure they click into place. Check for and remove any debris. |
| Motor overheats. | Continuous operation; Overloading. | Do not operate continuously for more than 1 minute. Allow to cool down before resuming. Reduce load. |
| Ineffective blending/chopping. | Insufficient liquid; Overfilling; Dull blade. | Add more liquid for blending. Do not overfill. Ensure blade is sharp (contact support if dull). |

For further assistance, please refer to the official user manual (PDF) or contact KOIOS customer support.
