4. OPERATING AND DAILY USE

Pura Vida bracelets are designed for continuous wear and an active lifestyle. Their waterproof nature means you do not need to remove them for:

- Showering or bathing
- Swimming in fresh or saltwater

5. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Pura Vida bracelet, follow these simple care guidelines:

- **Cleaning:** If the bracelet becomes dirty, gently wash it with mild soap and lukewarm water. Avoid harsh chemicals or abrasive cleaners, as these can damage the wax coating and threads.
- **Drying:** After washing or prolonged exposure to water, allow the bracelet to air dry completely.
- **Charm Care:** The iron-coated copper charm is designed to be durable. If it appears dull, gently polish it with a soft, dry cloth.
- **Storage:** When not wearing your bracelet, store it in a dry place away from direct sunlight to prevent fading or damage.

6. TROUBLESHOOTING

While Pura Vida bracelets are designed for durability, minor issues can sometimes arise:

- **Bracelet feels too tight or too loose:** Re-adjust the slipknot as described in the "Setup and Adjustment" section. Ensure both knots are pulled evenly to achieve the desired fit.
- **Threads appear frayed:** Minor fraying can occur over extended wear. This is normal for wax-coated string bracelets and does not typically affect the bracelet's integrity. Avoid pulling on loose threads.
- **Charm appears discolored or tarnished:** The charm is iron-coated copper. Over time, some natural tarnishing may occur. Gently rub the charm with a soft, dry cloth to restore its luster.
