ROCCAT ROC-12-274

ROCCAT Vulcan TKL Mechanical PC Gaming Keyboard User Manual

Model: ROC-12-274

INTRODUCTION

This manual provides instructions for the ROCCAT Vulcan TKL Mechanical PC Gaming Keyboard, Model ROC-12-274. This tenkeyless keyboard features Titan Switch Mechanical technology, per-key AIMO RGB lighting, an anodized aluminum top plate, and a detachable USB-C cable. It is designed for PC use.

SETUP

- Unpack the Keyboard:** Carefully remove the keyboard and its detachable USB-C cable from the packaging.
- Connect to PC:** Insert the USB-C end of the cable into the port on the back of the keyboard. Connect the standard USB-A end of the cable to an available USB port on your PC.
- Driver Installation:** Your operating system should automatically detect and install the necessary drivers. For advanced customization and features, download and install the ROCCAT Swarm software from the official ROCCAT website.

OPERATING INSTRUCTIONS

Key Features

- **Titan Switch Mechanical:** Features linear actuation for responsive keystrokes.
- **Tenkeyless Form Factor:** Compact design without a numeric keypad, optimizing desk space.
- **AIMO Intelligent Lighting Engine:** Per-key RGB lighting with customizable effects and synchronization with compatible devices.
- **Mixer-Style Volume Dial:** Dedicated control for audio adjustments.
- **Detachable USB-C Cable:** Enhances portability and simplifies cable management.

Controls and Functions

The Vulcan TKL keyboard includes dedicated media controls and a volume dial for convenient access to audio functions. Function keys (F1-F12) can be combined with the **FN** key for secondary functions, which are typically indicated by icons on the keycaps.

- **Volume Dial:** Located on the top right, rotate to adjust system volume.
- **Media Keys:** Typically accessible via FN + F-keys for playback control (play/pause, skip track).
- **Game Mode:** Activates a mode that disables the Windows key and other potentially disruptive functions during gameplay. Refer to the ROCCAT Swarm software for configuration.

MAINTENANCE

- **Cleaning the Keyboard:**
 - Disconnect the keyboard from your PC before cleaning.
 - Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and aluminum top plate.
 - Avoid spraying liquids directly onto the keyboard.
 - Use compressed air to remove dust and debris from between the keycaps.
- **Cable Care:** Handle the detachable USB-C cable carefully to prevent damage to the connectors.

TROUBLESHOOTING

Issue	Possible Solution
Keyboard not responding	<ul style="list-style-type: none">• Ensure the USB-C cable is securely connected to both the keyboard and the PC.• Try connecting the keyboard to a different USB port on your PC.• Restart your computer.• Check if the keyboard is recognized in your PC's Device Manager.
Keys are not registering or double-typing	<ul style="list-style-type: none">• Ensure the keyboard is clean and free of debris under the keycaps.• Update the keyboard firmware using the ROCCAT Swarm software.• Reinstall the ROCCAT Swarm software.
RGB lighting not working or incorrect	<ul style="list-style-type: none">• Ensure ROCCAT Swarm software is running and updated.• Check lighting settings within the Swarm software.• Perform a factory reset of the keyboard (refer to Swarm software or ROCCAT support for instructions).
