Setup Instructions

1. **Unfolding the Stand:** Gently pull the two support legs located at the bottom rear of the holder outwards until they lock into place. These legs provide stability for the stand.
2. **Adjusting the Angle:** Locate the metal support bar at the back of the holder. Lift the main panel and position the support bar into one of the 7 available grooves on the base. Each groove corresponds to a different viewing angle. Select the angle that best suits your comfort and task.

Operating Instructions

1. **Placing Documents/Books:** Open the top clip and place your document, book, or tablet onto the main panel. Ensure the item rests securely on the bottom ledge. Close the top clip to hold the item firmly in place.
2. **Using the Removable Line Guide:** The holder comes with a clear, removable line guide. To use it, slide it onto either side edge of the main panel. Position it to highlight the line of text you are currently reading, aiding focus and reducing eye strain.
3. **Adjusting the Document Clip:** An additional adjustable clip is provided. This clip can be moved along the side edges of the holder to secure specific sections of a document or to hold multiple pages together.

Maintenance

- **Cleaning:** Wipe the holder with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by drying thoroughly. Avoid abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Storage:** When not in use, fold the support legs and the main panel flat for compact storage. Store in a dry place away from extreme temperatures.

Troubleshooting

- **Holder is unstable:** Ensure both support legs are fully extended and locked into place. Verify that the metal support bar is securely seated in one of the grooves.
- **Document slips:** Make sure the top clip is firmly holding the document. For thicker items, ensure they are properly seated on the bottom ledge.
- **Difficulty adjusting angle:** Check that the metal support bar is not obstructed and can move freely between the grooves. Apply gentle pressure when adjusting.
