# Juwel NovoLux LED 60 Aquarium Light Instruction Manual

## INTRODUCTION

Thank you for choosing the Juwel NovoLux LED 60 Aquarium Light. This product is designed to provide accent lighting for your aquarium, enhancing the visual appeal of your aquatic environment. It features a simple installation process with supplied suction pads and energy-efficient LED technology. Please read this manual thoroughly before installation and operation to ensure proper use and longevity of your product.

The image displays the Juwel NovoLux LED 60 aquarium light in its retail packaging. The packaging highlights the product name, 'NovoLux LED 60 WHITE', its 8-watt power consumption, and features images of fish and aquatic plants, indicating its use for aquarium lighting. The light unit itself is visible on the right side of the package.

## SAFETY INSTRUCTIONS

- Read all instructions carefully before use.
- This product is designed for indoor use only.
- Always disconnect the power supply before performing any maintenance, cleaning, or installation tasks.
- Ensure your hands are dry when handling the power plug.
- The light unit is waterproof, but the power supply and electrical connections must be kept dry and away from water.
- Do not operate the light if any part of it is damaged, especially the cable or plug. Contact customer

support for assistance.

- Keep out of reach of children.
- Do not attempt to modify or repair the unit yourself. Refer all servicing to qualified personnel.

## PACKAGE CONTENTS

Please check the package contents to ensure all items are present:

- Juwel NovoLux LED 60 Light Unit
- Power Supply (integrated or separate, depending on model variant)
- Suction Pads (for mounting)
- Instruction Manual (this document)

## SETUP

Follow these steps to set up your Juwel NovoLux LED 60 aquarium light:

1. **Unpack the Light:** Carefully remove the NovoLux LED 60 light unit and all accessories from the packaging. Inspect for any signs of damage.
2. **Choose Placement:** Determine the desired location for the light within your aquarium. The light is designed for accent lighting and can be positioned to highlight specific areas.
3. **Attach Suction Pads:** Securely attach the provided suction pads to the light unit. Ensure they are firmly seated.
4. **Mount the Light:** With the aquarium water level appropriate, press the suction pads firmly against the clean inner glass surface of your aquarium to mount the light. Ensure the light is stable and securely attached.
5. **Connect Power:** Route the power cable safely, ensuring it does not create a tripping hazard and is not pinched. Connect the power plug to a suitable electrical outlet. Ensure a drip loop is formed to prevent water from running along the cord to the outlet.

## OPERATING INSTRUCTIONS

The Juwel NovoLux LED 60 features a simple touch control for operation.

- **Turning On/Off:** Once connected to power, gently touch the designated area on the light unit (if applicable, or refer to specific power switch on cable) to turn the light on or off.
- **Usage:** This LED light is intended for accent lighting. It can be used to highlight fish, plants, or decorations within your aquarium.

## MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Juwel NovoLux LED 60 light.

- **Cleaning:** Periodically clean the exterior of the light unit to remove algae or mineral deposits. **Always disconnect the power supply before cleaning.** Use a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the unit.
- **Inspection:** Regularly inspect the power cable and plug for any signs of damage. Check the suction pads for secure attachment.

- **Water Contact:** While the light unit is waterproof, ensure that the power connections and plug remain dry.

## TROUBLESHOOTING

If you encounter issues with your NovoLux LED 60, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power supply; loose connection; faulty outlet; damaged unit.	Check if the power plug is securely inserted into a working outlet. Ensure the power switch (if any) is on. Inspect the cable for damage. If issues persist, contact customer support.
Light is dim or flickers.	Power fluctuation; unit malfunction; dirt/algae on light surface.	Ensure stable power supply. Disconnect and reconnect power. Clean the light surface. If problem continues, contact customer support.
Light unit detaches from glass.	Suction pads are dirty or worn; glass surface is not clean.	Clean the suction pads and the glass surface thoroughly. Re-attach the light firmly. Replace suction pads if they are worn out.

## SPECIFICATIONS

**Brand:** Juwel

**Model:** NovoLux LED 60

**Item Model Number:** 535514

**Light Source Type:** LED

**Wattage:** 8 watts

**Color:** White

**Material:** Plastic

**Special Feature:** Mountable, LED

**Control Method:** Touch

**Water Resistance Level:** Waterproof

**Included Components:** Suction Pads

**Package Dimensions:** 4.33 x 0.79 x 0.39 inches

**Item Weight:** 3.52 ounces

**Indoor/Outdoor Usage:** Indoor

**Specific Uses For Product:** Aquarium
