# Travelpro Platinum Elite International Carry-on 19-Inch Spinner Suitcase Instruction Manual

Model: 409186701

## INTRODUCTION AND OVERVIEW

---

The Travelpro Platinum Elite International Carry-on Spinner is designed for international travel, meeting most airline carry-on requirements. This softside luggage combines luxury styling with practical features for efficient and comfortable travel.

Key features include premium stain-resistant fabrics, genuine leather accents, chrome zippers, and an optional expansion for additional packing capacity. It also integrates a USB port for on-the-go charging and a dedicated power bank pocket compliant with FAA regulations.

The Travelpro Platinum Elite International Carry-on 19-Inch Spinner Suitcase in Shadow Black.

## FEATURES

---

- **PrecisionGlide System:** Patented system with magnetic self-aligning 360° dual spinner wheels, a 4-stop PowerScope extension handle, and a non-slip Contour Grip for effortless maneuverability.
- **USB A&C Ports:** External USB A&C ports with a dedicated power bank pocket (power bank not included) for convenient charging. Complies with FAA regulations.
- **DuraGuard Coating:** High-density nylon fabric with DuraGuard® coating resists stains and water.
- **Tapered Expansion:** Offers up to 2 inches of additional packing capacity while maintaining stability.
- **TSA-Compliant Lock:** Safeguards contents.
- **Deluxe Packing System:** Includes tie-down straps, accessory pockets, and a removable, quart-size wet pocket.

## SETUP

---

### Using the USB Charging Port

The suitcase features an external USB A&C port for charging your devices. A dedicated pocket is provided inside the suitcase to hold your power bank (not included). Ensure your power bank meets FAA regulations for carry-on and checked baggage.

1. Locate the dedicated power bank pocket inside the suitcase.
2. Place your compatible power bank into this pocket.
3. Connect the internal USB cable from the suitcase to your power bank.
4. To charge an external device, connect your device's charging cable to the external USB A or C port on the suitcase.

External USB port for convenient device charging.

### **Adjusting the PowerScope Extension Handle**

The PowerScope handle offers multiple height adjustments for comfortable maneuvering.

1. Press the button located on the top of the Contour Grip handle.
2. Extend the handle to your desired height. The handle has 4 stop adjustments.

3. Release the button to lock the handle in place.

The PowerScope extension handle provides multiple height settings.

## OPERATING INSTRUCTIONS

---

### Maneuvering with MagnaTrac Spinner Wheels

The eight MagnaTrac self-aligning spinner wheels are designed for smooth, 360-degree rotation and effortless rolling. They automatically align to track straight, reducing effort.

MagnaTrac self-aligning spinner wheels for smooth movement.

### Utilizing the Tapered Expansion

For additional packing space, the suitcase features a tapered 2-inch expansion. This design helps maintain the bag's center of gravity, reducing the likelihood of tipping.

1. Locate the expansion zipper around the perimeter of the suitcase.
2. Unzip the expansion zipper to extend the suitcase's depth by 2 inches.
3. To return to the original size, compress the sides of the suitcase and re-zip the expansion zipper.

#### Expansion

Tapered expansion design keeps the center of gravity low to help reduce tipping while providing up to 2" additional packing capacity.

The tapered expansion provides extra packing space.

### Packing System

The interior of the suitcase is equipped with a deluxe tie-down system, built-in accessory pockets, and a removable quart-size wet pocket to keep your belongings organized and secure.

Organized interior with tie-down system and pockets.

## TSA-Compliant Lock

The integrated TSA-compliant lock allows security authorities to inspect your luggage without damaging the lock. To set or reset the combination, refer to the small instruction card usually found with the lock or inside the suitcase.

## MAINTENANCE

---

### Fabric Care (DuraGuard Coating)

The DuraGuard coating provides resistance to stains and water. For general cleaning:

- Wipe the exterior fabric with a damp cloth and mild soap.
- Avoid harsh chemicals or abrasive cleaners, as these may damage the coating.
- Allow the suitcase to air dry completely before storing.

### Zipper Maintenance

To ensure smooth operation of the chrome zippers:

- Periodically clean zippers with a soft brush to remove any dirt or debris.
- Lubricate zippers with a silicone-based spray or zipper wax if they become stiff.
- Avoid overstuffing the suitcase, which can put excessive strain on zippers.

### Wheel and Handle Care

- Inspect wheels regularly for debris and remove any obstructions.
- Wipe the PowerScope handle clean with a damp cloth.
- Ensure the handle extends and retracts smoothly. Do not force it if it jams.

## TROUBLESHOOTING

---

### Suitcase Tipping Forward

If the suitcase tends to tip forward, especially when expanded or with items in the front pockets:

- Distribute weight evenly throughout the main compartment.
- Place heavier items towards the back and bottom of the suitcase.
- Avoid overfilling external front pockets with heavy items.

### Stiff or Jammed Zippers

If zippers are difficult to operate:

- Check for any fabric or debris caught in the zipper teeth. Carefully remove it.
- Apply a small amount of zipper lubricant (e.g., silicone spray, wax) to the teeth.
- If a zipper is broken, refer to the warranty information for repair options.

## Handle Not Extending/Retracting Smoothly

If the PowerScope handle is difficult to adjust:

- Ensure the release button is fully depressed when adjusting.
- Check for any obstructions in the handle mechanism.
- Avoid applying excessive force. If the issue persists, contact Travelpro customer support.

## SPECIFICATIONS

<b>Product Dimensions</b>	7.75 x 15 x 19 inches (Case Dimensions)
<b>Overall Dimensions (Includes wheels &amp; carry handles)</b>	21.75" x 15.75"x 7.75"
