DBPOWER Portable DVD Player User Manual

Model: MK101

INTRODUCTION

Thank you for purchasing the DBPOWER Portable DVD Player. This manual provides detailed instructions on how to set up, operate, and maintain your device. Please read this manual thoroughly before using the product to ensure proper functionality and to maximize your viewing experience. This portable DVD player is designed for versatile entertainment on the go, featuring a swivel screen, long-lasting battery, and broad media compatibility.

PRODUCT FEATURES

- Extended Battery Life:** Equipped with a 2,500 mAh rechargeable lithium battery, providing up to 4 hours of continuous playback. Can also be powered by car charger or AC adapter.
- Wide Multimedia Support:** Compatible with CD, DVD, CD-R/RW, DVD -R/+R, DVD+RW/-RW, VCD, SVCD (not Blu-ray DVD). Region-free playback. Supports USB and SD cards up to 32GB for MP3/WMA/WAV, JPEG, MPEG2/AVI/DIVX files.
- Swivel Display Screen:** Features a 10.5-inch (1024x600 resolution) screen with 270-degree rotation and 180-degree flip, allowing for optimal viewing angles. Easily attachable to car headrests.
- Multiple Playback Options:** AV output for connecting to a TV for larger screen viewing. Two DVD players can be connected by an AV to AV cable for synchronized viewing.
- Break-Point Memory Function:** Automatically resumes playback from where you left off.

SETUP AND FIRST USE

- Initial Charging:** Before first use, fully charge the portable DVD player using the provided AC power adapter. Connect the adapter to the DC IN port on the player and plug it into a wall outlet. The charging indicator light will show the charging status.
- Power On/Off:** Slide the ON/OFF switch to the 'ON' position to power on the device. To power off, slide the switch to 'OFF'.
- Inserting a DVD:** Gently open the disc cover. Place the DVD disc onto the spindle with the label side facing up. Press down gently on the center of the disc until it clicks into place. Close the disc cover firmly.
- Adjusting the Screen:** The 10.5-inch screen can swivel 270 degrees and flip 180 degrees. Adjust the screen to your preferred viewing angle.
- Connecting to a TV (AV Output):** Use the provided AV cable to connect the player's AV OUT port to the AV IN ports (Yellow for Video, White for Left Audio, Red for Right Audio) on your television. Select the correct AV input on your TV to view the player's output.

OPERATING INSTRUCTIONS

Basic Playback

- **Play/Pause:** Press the **PLAY/PAUSE** button to start or pause playback.
- **Stop:** Press the **STOP** button to stop playback.
- **Skip Tracks/Chapters:** Use the **SKIP** buttons (*Previous/Next*) to navigate between tracks or chapters.
- **Fast Forward/Rewind:** Use the **FF/RW** buttons to fast forward or rewind through content.
- **Volume Control:** Adjust the volume using the **VOL+** and **VOL-** buttons.
- **Mute:** Press the **MUTE** button to silence the audio. Press again to unmute.
- **Break-Point Memory:** The player automatically remembers the last playback position. When you power on the device again, it will prompt you to resume from where you left off.

Using USB and SD Cards

- Insert a USB drive into the USB port or an SD card into the SD card slot.
- Press the **MODE** or **DVD/USB/SD** button to switch to USB or SD card mode.
- Navigate through your files using the directional buttons and press **OK** to select and play.

Connecting Two Players

To watch the same movie on two DBPOWER portable DVD players simultaneously:

1. Set one player to DVD mode to play the disc. Connect an AV cable to its AV OUT port.
2. Set the second player to AV mode. Connect the other end of the AV cable to its AV IN port.
3. The movie playing on the first player will now be displayed on the second player.

MEDIA COMPATIBILITY

Your DBPOWER Portable DVD Player supports a wide range of media formats:

- **Disc Formats:** CD, DVD, CD-R/RW, DVD -R/+R, DVD+RW/-RW, VCD, SVCD. (Note: Blu-ray DVDs are not supported).
- **Digital Media (USB/SD Card):** MP3, WMA, WAV (audio), JPEG (images), MPEG2, AVI, DIVX (video).
- The player is region-free, allowing playback of DVDs from any region.

Support multiple DVD formats

CHARGING AND BATTERY INFORMATION

The portable DVD player is equipped with a built-in 2,500 mAh rechargeable lithium battery, providing approximately 4-5 hours of playback time on a full charge.

- **Charging:** Use the provided AC power adapter for home charging or the car charger for in-vehicle charging.
- **Battery Maintenance:** To prolong battery life, it is recommended to charge the battery once per month if not in regular use and to unplug the charger once the battery is fully charged.

Image: A visual display of the charging accessories included: a car charger, a power adapter, and an icon representing the rechargeable lithium battery.

MAINTENANCE AND CARE

- Keep the device away from water, moisture, and direct sunlight.
- Clean the screen and exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Avoid dropping the device or subjecting it to strong impacts.
- When not in use for extended periods, store the player in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your DBPOWER Portable DVD Player, please refer to the following common solutions:

Problem	Possible Cause / Solution
Player does not power on.	Ensure the power switch is in the 'ON' position. Check if the battery is charged or if the power adapter is properly connected.
Disc does not play / "No Disc" error.	Ensure the disc is inserted correctly with the label side up. Check if the disc is clean and free of scratches. Verify the disc format is supported (not Blu-ray).
No sound.	Check the volume level and ensure the device is not muted. If using headphones, ensure they are properly plugged in. If connected to a TV, check the TV's volume and input settings.
Poor picture quality.	Ensure the disc is clean. Adjust the screen's brightness/contrast settings if available. If connected to a TV, check the AV cable connection.
USB/SD card not recognized.	Ensure the USB drive or SD card is properly inserted. Check if the file format is supported. The maximum supported capacity is 32GB.
