Diecast Masters 1:50 Scale Caterpillar D11T CD Carrydozer

Instruction Manual

INTRODUCTION

The Diecast Masters 1:50 Scale Caterpillar D11T CD Carrydozer is a meticulously crafted replica model designed for collectors and enthusiasts. This highly detailed model captures the essence of the real Caterpillar D11T CD Carrydozer, featuring authentic paint, decals, and functional components. This manual provides essential information for the proper handling, display, and care of your collectible model.

SETUP AND UNBOXING

Your Diecast Masters Caterpillar D11T CD Carrydozer model comes securely packaged in a premium collectible metal tin, designed to protect the model and serve as a display case. The model is nestled within a custom-fit foam insert to prevent movement during transit.

1. **Unpack the Tin:** Carefully open the outer shipping box and remove the metal collectible tin.
2. **Open the Tin:** Gently lift the lid of the metal tin.
3. **Remove Foam Insert:** The model is secured by a precision-cut foam insert. Carefully lift the foam insert to access the model.
4. **Extract Model:** Gently lift the model from the foam. Ensure all small parts are clear before removing.
5. **Inspect Model:** Before display, inspect the model for any loose components or transit damage.

OPERATING FEATURES AND ADJUSTMENTS

This 1:50 scale replica features several functional and adjustable components, allowing for dynamic display poses and showcasing the intricate engineering of the real machine. Handle all movable parts with care to avoid damage.

- **Front Dozing Carry Blade:** The large front blade is fully functional. It can be **raised** and **lowered**, and also **angled side-to-side**. Observe the detailed wear plate and visibility perforation.
- **Rear Ripper:** The prominent single-shank rear ripper can be **raised** and **lowered** to simulate working or transport positions.
- **Engine Access Panels:** The side engine maintenance access panels are designed to **open**, revealing internal details.
- **Folding Access Stairway:** The access stairway located on the side of the model can be **folded down** for operational display or **folded up** for transport.
- **Cab Interior and Operator Figure:** The cab roof is **removable**, allowing for the placement of the included operator figure inside the detailed cab interior.

DETAILS:

- ✓ 1:50 Scale
- ✓ Authentic Caterpillar Power Edge Trade dress, decals, and paint
- ✓ Detailed cab interior with operator, control station, and levers
- ✓ Cab roof can lift off to place operator figure inside
- ✓ Full-functioning front Carrydozer blade can be raised or lowered and angled side-to-side
- ✓ Large single-shank ripper can be raised or lowered

Figure 3: Detailed side view showcasing the movable blade, ripper, and cab features.

ADDITIONAL DETAILS

- ✓ Accurately scaled 36-foot-wide metal track shoes roll freely
- ✓ Bolt detailing on each track pad
- ✓ Access stairway can fold down or up out of service
- ✓ Numerous open doors, including side engine maintenance panels
- ✓ Detail parts: hydraulic lines, air cleaners, exhaust stacks
- ✓ Fire suppression equipment
- ✓ Mirrors, metal safety railings, and more.

Figure 4: Front view highlighting additional intricate details like hydraulic lines, air cleaners, and safety railings.

MAINTENANCE AND CARE

Proper maintenance and care will ensure the longevity and pristine condition of your Diecast Masters model. As a collectible item, gentle handling is paramount.

- **Cleaning:** Use a soft, lint-free cloth (e.g., microfiber) to gently wipe away dust from the model's surfaces. For more persistent dirt, slightly dampen the cloth with water, wipe the area, and immediately follow with a dry cloth. *Do not use abrasive cleaners, solvents, or harsh chemicals*, as these can damage the paint and plastic components.
- **Handling:** Always handle the model by its main body or sturdy sections. Avoid gripping delicate parts such as mirrors, handrails, antennas, or hydraulic lines, as these can bend or break under pressure.
- **Storage:** Store your model in a cool, dry environment, away from direct sunlight, extreme temperatures, and high humidity. Prolonged exposure to sunlight can cause paint fading. The original collectible metal tin with its custom foam insert provides excellent protection for long-term storage or transport.
- **Display:** When displaying, ensure the model is on a stable, level surface to prevent accidental falls.

TROUBLESHOOTING

While Diecast Masters models are built to high standards, minor issues can occasionally occur. Here are some common observations and recommended actions:

Issue	Possible Cause	Solution
Loose or Detached Small Part	Vibration during shipping, accidental impact, or rough handling.	Carefully identify the correct position for the part. For very small components, a tiny amount of model-safe adhesive (e.g., super glue gel) can be applied sparingly with a toothpick to reattach. Ensure proper alignment before applying adhesive.
Stiff Movable Component (Blade, Ripper)	Dust accumulation, tight tolerances from manufacturing.	Gently work the component back and forth to loosen it. Do not force movement. Avoid applying lubricants, as they can attract more dust or damage plastic parts.
Operator Figure Does Not Fit in Cab	Cab roof not fully removed, incorrect orientation of figure.	Ensure the cab roof is completely detached before attempting to place the operator figure. Orient the figure correctly to fit within the seat and controls.

If you encounter issues not listed here or require further assistance, please refer to the "Support and Contact" section.

SPECIFICATIONS

Attribute	Detail
Model Name	Caterpillar D11T CD Carrydozer
Scale	1:50
Item Model Number	DM85567
Product Dimensions (L x W x H)	8.9 x 5.28 x 3.98 inches
