1. INTRODUCTION

This manual provides essential information for the proper installation, usage, and maintenance of your SignMission OSHA Safety First Sign. Designed for durability and clear communication, this sign helps ensure safety and compliance in various environments. Please read these instructions carefully to maximize the effectiveness and lifespan of your sign.

2. PRODUCT OVERVIEW

The SignMission OSHA Safety First Sign is a rigid plastic sign designed to clearly display emergency contact information. It features a prominent "SAFETY FIRST" header in green, followed by "IN CASE OF EMERGENCY CALL 911".

Key Features:

- **Durable Construction:** Made from commercial-grade rigid plastic, suitable for both indoor and outdoor use.
- **OSHA & ANSI Compliant:** Designed to meet safety signage standards.
- **High Visibility:** Clear text and contrasting colors ensure readability.
- **Weather Resistant:** Built to withstand various environmental conditions.

3. SETUP & INSTALLATION

Proper installation ensures the sign is visible and effective. This sign is designed for wall mounting.

Installation Steps:

- 1. Choose Location:** Select a prominent location where the sign will be easily visible to all personnel and visitors. Ensure it is not obstructed by objects or other signage. Consider eye-level placement for optimal visibility.
- 2. Prepare Surface:** The mounting surface should be clean, dry, and smooth for secure attachment.
- 3. Mounting Options:**
 - **Screws/Nails:** The sign features pre-drilled holes (4-corner holes) for easy mounting with screws or nails. Use appropriate hardware for your wall material (e.g., wood screws for wood, anchors for drywall/concrete).
 - **Adhesive:** For smooth, non-porous surfaces, industrial-strength double-sided adhesive tape can be used. Ensure the adhesive is rated for the sign's weight and environmental conditions.
- 4. Secure Attachment:** Ensure the sign is securely fastened to prevent it from falling or being dislodged.

4. USAGE

Once installed, the SignMission OSHA Safety First Sign serves as a passive but critical safety communication tool. Its primary function is to provide immediate and clear instructions in case of an emergency.

Effective Placement:

- Place in areas where emergencies are most likely to occur or where emergency contact information is crucial.
- Ensure it is visible from all common approach angles.
- Avoid placing it behind doors, equipment, or other obstructions.

Regularly inspect the sign to ensure it remains visible and undamaged.

5. MAINTENANCE

The SignMission OSHA Safety First Sign is designed for low maintenance. Regular cleaning will help maintain its

visibility and extend its lifespan.

Cleaning Instructions:

1. **Frequency:** Clean the sign periodically, or as needed, to remove dust, dirt, and grime.
2. **Materials:** Use a soft cloth or sponge with mild soap and water. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the sign's surface and graphics.
3. **Process:** Gently wipe the surface of the sign. Rinse with clean water and allow to air dry or wipe dry with a clean, soft cloth.

Durability Features:

- **UV Protection:** The sign is designed with UV protection to resist fading from sun exposure.
- **Waterproof & Rustproof:** Suitable for outdoor environments without degradation from moisture.
- **Graffiti Resistant Laminate:** Some signs may feature a laminate that allows for easy removal of graffiti.

Image 5.1: Visual representation of the sign's print and material quality, highlighting features like long-lasting color, UV protection, sharp print, extreme durability, premium quality, and rust-proof properties.

Image 5.2: Illustration demonstrating the sign's resistance to water, rust, and dust, ensuring durability in various conditions.

6. TROUBLESHOOTING

Most issues with safety signs relate to visibility or physical damage. Here are common concerns and their solutions:

Problem	Possible Cause	Solution
Sign is not easily visible.	Poor placement, obstruction, or insufficient lighting.	Relocate the sign to a more prominent position. Remove any obstructions. Ensure adequate lighting in the area.
Sign appears dirty or faded.	Accumulation of dust/grime, or prolonged exposure to extreme elements without cleaning.	Clean the sign as per maintenance instructions. While designed for UV resistance, extreme, prolonged exposure can eventually cause some fading over many years; consider replacement if severely faded.
Sign is loose or has fallen.	Improper installation or damaged mounting hardware.	Re-secure the sign using appropriate mounting hardware. Inspect for damage to the sign or mounting surface.
Physical damage (cracks, bends).	Impact, vandalism, or extreme environmental stress.	Assess the damage. If readability is compromised, replace the sign immediately to maintain safety compliance.

7. SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	SignMission
Model Number	OS-SF-P-1014-L-10662
Material	Rigid Plastic
Dimensions	14" X 10" (Product Dimensions: 10"L x 14"W)
