Aesfee AF-802

Aesfee LED Lighted Makeup Vanity Mirror (Model AF-802) User Manual

Model: AF-802 | Brand: Aesfee

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Aesfee LED Lighted Makeup Vanity Mirror. Please read this manual thoroughly before operating the device and retain it for future reference.

PRODUCT FEATURES

- **Double-Sided Mirror:** Features 1x magnification for regular makeup application and 7x magnification for detailed tasks.
- **360° Swivel Design:** Allows for easy rotation to switch between magnification levels and adjust viewing angles.
- **LED Lighting:** Equipped with 21 energy-efficient LEDs providing natural daylight illumination.
- **Dimmable Touch Screen:** Offers three adjustable brightness levels controlled by a sensitive touch sensor.
- **Rechargeable Battery:** Built-in 2000mAh lithium battery provides extended cordless operation.
- **USB Charging:** Conveniently recharges via a Micro USB port.

SETUP

Charging the Mirror

Before first use, fully charge the mirror. The mirror is powered by a built-in 2000mAh lithium battery.

1. Locate the Micro USB charging port on the side of the mirror frame.
2. Connect the provided USB cable to the mirror's charging port and to any standard DC 5V/1A power source (e.g., wall charger, power bank, laptop).
3. The touch button will indicate the charging status: **Red** for charging, **Blue** for fully charged.
4. A full charge typically takes 4-5 hours and provides approximately 280 minutes of working time at maximum brightness.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Adjustment

The mirror features a multi-function touch screen button for controlling the LED lights.

1. To turn the LED lights **ON**, lightly touch the bulb icon on the mirror surface.
2. To adjust the brightness, touch the bulb icon repeatedly to cycle through the three brightness levels (Primary, Medium, Enhanced).
3. To turn the LED lights **OFF**, continue touching the bulb icon until the lights extinguish.

Brighter Natural Light & 3 Light Settings

High-quality 21 LEDs supply brighter natural light and 3 levels of brightness can be adjusted to suit different makeup occasions

Primary

Medium

Enhanced

Image: The mirror offers three distinct brightness settings to suit various lighting conditions and makeup needs.

Using Magnification and Rotation

The mirror is double-sided and designed for versatile use.

- The **1x mirror** provides a standard, true-to-life reflection suitable for general makeup application.
- The **7x magnified mirror** allows for precise detailing, such as applying eyeliner, mascara, or plucking eyebrows.
- To switch between the 1x and 7x mirrors, simply rotate the mirror head 360 degrees. The sturdy metal rotating shaft ensures smooth and stable adjustment.

1x & 7x Magnification Double-Sided Mirror

1x Normal

7x Magnification

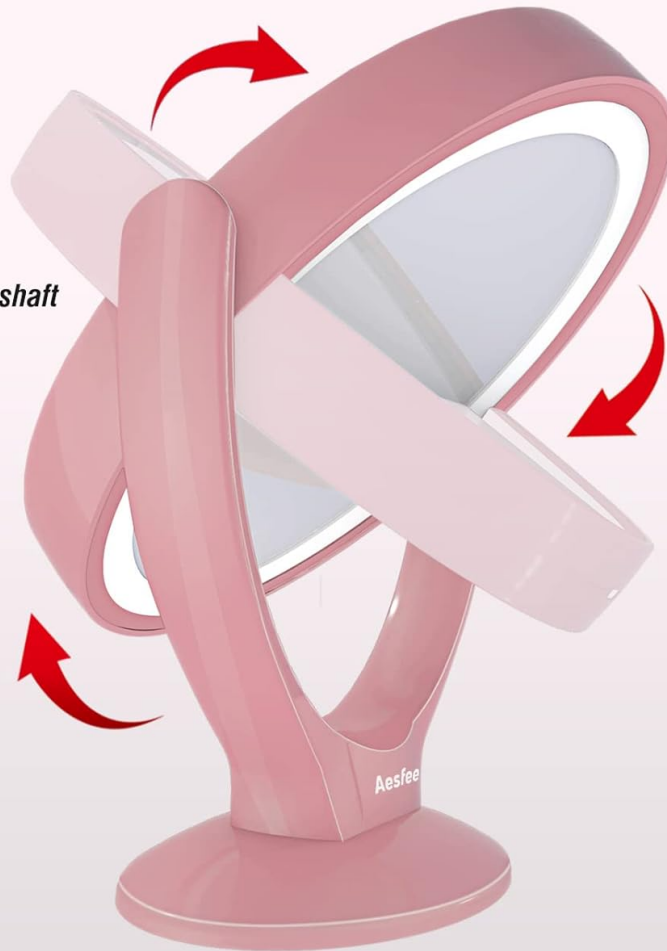

Please keep 15cm away from the 7x magnification mirror for best reflection

Image: The mirror features both 1x normal and 7x magnified sides for versatile use. For optimal reflection with the 7x magnification, maintain a distance of approximately 15 cm (6 inches) from the mirror.

Double-Sided Mirror 360° Rotation

Metal rotating shaft

Adjust the angle of the mirror to achieve perfect reflection, double-sided mirror normal and 7x magnification can be easily changed to make your makeup easier

Image: The mirror head can be rotated 360 degrees on its stand, allowing easy switching between the 1x and 7x magnification sides.

Important Usage Tip for 7x Magnification

When using the 7x magnifying mirror, it is crucial to maintain a distance of approximately **15 cm (6 inches)** from the mirror for a clear and undistorted reflection. Moving too close or too far may result in a blurry image.

MAINTENANCE

Cleaning

- Ensure the mirror is turned off and unplugged before cleaning.
- Wipe the mirror surface with a soft, lint-free cloth. For stubborn spots, a small amount of glass cleaner can be applied to the cloth (not directly to the mirror).
- Clean the mirror frame and base with a soft, damp cloth. Avoid abrasive cleaners or solvents.

Storage

Store the mirror in a cool, dry place away from direct sunlight and excessive humidity. When traveling, consider using protective packaging to prevent scratches or damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights do not turn on.	Battery is depleted.	Charge the mirror using the provided USB cable. Ensure the charging indicator turns red.
Lights are dim or flickering.	Low battery or incorrect brightness setting.	Recharge the mirror. Tap the touch button to cycle through brightness levels.
7x magnification appears blurry.	Incorrect viewing distance.	Maintain a distance of approximately 15 cm (6 inches) from the 7x magnified mirror.
Touch button is unresponsive.	Temporary software glitch or low battery.	Ensure the mirror is charged. Try restarting by fully discharging and then recharging.

SPECIFICATIONS

Feature	Detail
Model Number	AF-802
Magnification	1x / 7x
Battery Capacity	2000mAh Lithium Battery
Charge Time	4 - 5 hours
Running Time (Max Brightness)	Up to 280 minutes
Input	DC 5V/1A
Material	60% Glass, 40% Plastic
Product Dimensions	8.86"L x 5.12"W (Mirror size: 5" wide x 6" high; 9" tall with base)
Item Weight	1.43 pounds (650 Grams)
Special Features	2-Sided, 360 Degree Rotation, Adjustable Brightness, Lighted, Touch Sensor
