Arebos AR-HE-WWS9

AREBOS Workshop Trolley User Manual

Model: AR-HE-WWS9

Brand: AREBOS

1. Introduction

Thank you for choosing the AREBOS Workshop Trolley. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new workshop trolley. Please read this manual thoroughly before use and keep it for future reference.

Image 1.1: The AREBOS Workshop Trolley, showcasing its full configuration with the removable top chest and mobile bottom cabinet. All drawers are shown open, highlighting the extensive storage space available.

2. Safety Instructions

Always follow basic safety precautions when using this product to reduce the risk of injury or damage.

- Ensure the trolley is placed on a stable, level surface before loading or moving.
- Do not exceed the maximum weight capacity of 29 kg.
- Distribute weight evenly in drawers to prevent tipping.
- Lock drawers and engage parking brakes before moving the trolley.
- Keep hands and fingers clear of moving parts, especially when opening and closing drawers.
- Do not allow children to play with or climb on the workshop trolley.
- Use the locking mechanism to secure tools and prevent unauthorized access.

3. Package Contents

Verify that all components are present and undamaged upon unpacking.

- 1 x AREBOS Workshop Trolley (Bottom Cabinet)
- 1 x Removable Tool Chest (Top Unit)
- 4 x Wheels (2 fixed, 2 swivel with brakes)
- Drawer anti-slip mats
- Keys for locking mechanisms
- Assembly hardware (bolts, nuts, washers)
- User Manual

4. Assembly Instructions

Follow these steps to assemble your AREBOS Workshop Trolley.

1. **Attach Wheels:** Carefully lay the bottom cabinet on its side. Attach the four wheels to the designated mounting points on the bottom of the cabinet using the provided bolts and nuts. Ensure the two swivel wheels with brakes are installed on the same side for optimal maneuverability and stability.
2. **Install Handle:** Secure the side handle to the side of the bottom cabinet using the provided hardware. This handle aids in moving the trolley.
3. **Place Top Chest:** Once the bottom cabinet is upright and stable, carefully place the removable tool chest on top of the bottom cabinet. Ensure it is aligned correctly and sits securely.
4. **Insert Drawer Mats:** Place the anti-slip mats into each drawer to prevent tools from sliding and to protect the drawer surfaces.

Image 4.1: An exploded view diagram illustrating the various components and features of the workshop trolley, including the handle, ball-bearing drawers, lockable top compartment, anti-slip mats, and the wheel configuration with fixed and swivel wheels, two of which have parking brakes.

5. Setup

After assembly, prepare your workshop trolley for use.

- **Placement:** Choose a flat, stable area in your workshop or garage for the trolley.
- **Brake Engagement:** Engage the parking brakes on the swivel wheels to prevent unintended movement, especially when loading or accessing tools.
- **Loading Tools:** Begin organizing your tools into the drawers. Distribute heavier items in lower drawers to maintain stability.

Image 5.1: The AREBOS Workshop Trolley in a typical workshop environment, demonstrating its practical integration into a workspace.

6. Operating Instructions

6.1. Using the Drawers

The drawers are equipped with smooth ball-bearing slides for easy opening and closing.

- To open a drawer, gently pull the handle.
- To close, push the drawer firmly until it is fully seated.
- Avoid slamming drawers to prolong the life of the slides.

Image 6.1: A detailed view of the ball-bearing slide system, which ensures smooth and effortless opening and closing of the drawers.

6.2. Locking Mechanism

Both the top chest and the bottom cabinet feature locking mechanisms to secure your tools.

- Insert the key into the lock and turn to secure all drawers simultaneously.
- Ensure all drawers are fully closed before attempting to lock the unit.

Image 6.2: A close-up of the integrated locking system, which provides security for your valuable tools by locking all drawers with a single key.

6.3. Mobility

The trolley is designed for easy movement within your workspace.

- To move the trolley, release the parking brakes on the swivel wheels.
- Use the side handle to push or pull the trolley to your desired location.
- Once in position, engage the parking brakes to secure the trolley.

7. Maintenance

Regular maintenance will ensure the longevity and optimal performance of your workshop trolley.

- **Cleaning:** Wipe down the exterior with a damp cloth and mild detergent. Avoid abrasive cleaners.
- **Drawer Slides:** Periodically inspect and lubricate the ball-bearing slides with a silicone-based lubricant to maintain

smooth operation.

- **Wheels:** Check wheels for debris and ensure they rotate freely. Tighten any loose bolts on the wheel assemblies.
- **General Inspection:** Regularly check all bolts and fasteners for tightness and re-tighten as necessary.

8. Troubleshooting

Problem	Possible Cause	Solution
Drawers are stiff or difficult to open/close.	Lack of lubrication on slides; excessive weight; uneven weight distribution.	Lubricate ball-bearing slides. Reduce weight or redistribute contents evenly.
Trolley is unstable or tips easily.	Overloaded; uneven surface; heavy items in upper drawers.	Do not exceed weight capacity. Move to a level surface. Place heavier items in lower drawers.
Wheels do not roll smoothly or lock.	Debris in wheels; loose wheel bolts; brake mechanism issues.	Clean wheels. Tighten wheel bolts. Inspect brake mechanism for obstructions.
Unit cannot be locked.	Drawers not fully closed; key not fully inserted.	Ensure all drawers are completely closed. Insert key fully and try again.

9. Specifications

Feature	Detail
Brand	Arebos
Model Number	AR-HE-WWS9
Color	Black
Product Dimensions (L x W x H)	71 x 67 x 37 cm (27.95 x 26.38 x 14.57 inches)
Weight	28.5 Kilograms (62.83 lbs)
