CROC CROC2-RBBLO

CROC Led Black Titanium Flat Iron 1 Inch User Manual

Model: CROC2-RBBLO

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER:** Keep away from water. As with most electrical appliances, electrical parts are electrically live even when the switch is off.
- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- **WARNING:** To reduce the risk of burns, electrocution, fire, or injury to persons:
 - An appliance should never be left unattended when plugged in.
 - Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.

- Do not place the heated appliance directly on any surface while it is operating or cooling.

PRODUCT OVERVIEW

The CROC Led Black Titanium Flat Iron is designed for professional hair straightening. It features 1-inch titanium plates for efficient heat transfer and a smooth glide, ensuring consistent results. The LED display provides clear temperature indication, allowing precise control for various hair types.

Image: A detailed view of the flat iron's handle, highlighting the CROC LED branding and temperature control markings (e.g., 370F Medium, 330F Fine).

SETUP

1. **Unpack:** Carefully remove the flat iron from its packaging. Ensure all components are present and inspect the device for any visible damage.
2. **Power Connection:** Plug the power cord into a standard electrical outlet (120V AC, 60Hz for North America). Ensure the outlet is easily accessible.
3. **Surface Placement:** Place the flat iron on a heat-resistant, flat surface away from water or flammable materials.

OPERATING INSTRUCTIONS

Follow these steps for effective and safe use of your CROC Led Black Titanium Flat Iron:

1. **Prepare Hair:** Ensure hair is clean, dry, and free of tangles. Apply a heat protectant spray evenly throughout your hair.
2. **Power On:** Plug in the flat iron. Press and hold the power button (usually located on the handle) until the LED display illuminates.
3. **Select Temperature:** Use the temperature control buttons (often '+' and '-' or a dial) to select the desired heat setting. Refer to the guidelines below for recommended temperatures:
 - **Fine/Damaged Hair:** Lower temperatures (e.g., 330°F / 165°C)
 - **Medium/Normal Hair:** Mid-range temperatures (e.g., 370°F / 188°C)
 - **Thick/Coarse Hair:** Higher temperatures (e.g., 410°F / 210°C or above, if available)

Allow the iron to reach the selected temperature, indicated by the LED display.

4. **Section Hair:** Divide your hair into small, manageable sections (approximately 1-2 inches wide).
5. **Straighten:** Take one section of hair and place it between the heating plates, close to the roots. Gently close the plates and glide the flat iron slowly and steadily down the length of the hair, from roots to ends. Avoid holding the iron in one spot for too long.
6. **Repeat:** Repeat the process for all sections of hair until desired straightness is achieved. For best results, pass over each section only once or twice.
7. **Power Off:** Once finished, press and hold the power button to turn off the flat iron. Unplug the appliance from the electrical outlet.
8. **Cool Down:** Allow the flat iron to cool completely on a heat-resistant surface before storing.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your flat iron.

- **Cleaning:** Ensure the flat iron is unplugged and completely cool before cleaning. Wipe the titanium plates and exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals, as these can damage the plates or finish.
- **Storage:** Store the cooled flat iron in a dry, safe place, away from moisture and out of reach of children. Do not wrap the power cord tightly around the appliance, as this can cause damage to the cord.
- **Cord Care:** Regularly inspect the power cord for any signs of damage, such as fraying or cuts. If the cord is damaged, discontinue use and contact customer support.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flat iron does not turn on or heat up.	Not plugged in correctly, power outlet issue, or internal fault.	Ensure the power cord is securely plugged into a working electrical outlet. Try a different outlet. If the issue persists, contact customer support.
Hair is not straightening effectively.	Temperature setting too low, sections of hair too large, or hair is not fully dry.	Increase the temperature setting for your hair type. Work with smaller sections of hair. Ensure hair is completely dry before styling.
Flat iron is pulling hair.	Hair is tangled, or plates are not closing properly.	Ensure hair is thoroughly detangled before use. Check for any debris between the plates.

Problem	Possible Cause	Solution
Burning smell during use.	Product buildup on plates, or hair is burning due to excessive heat or prolonged contact.	Clean the plates thoroughly when cool. Reduce temperature or speed up the glide. Ensure heat protectant is used. If the smell persists, discontinue use.

SPECIFICATIONS

- **Model Number:** CROC2-RBBLO
- **Plate Material:** Titanium
- **Plate Size:** 1 Inch
- **Color:** Black
- **Product Dimensions:** 14 x 2.5 x 2.5 inches
- **Item Weight:** 1.57 Pounds
- **Manufacturer:** Turbolon
- **Product Benefits:** Straightening
