Jslinter 40 Watt Appliance Oven Light Bulb Instruction Manual

Brand: Jslinter | Model: HY-18-01a

1. PRODUCT OVERVIEW

The Jslinter 40 Watt Appliance Oven Light Bulb is designed for reliable illumination in high-temperature environments. This incandescent bulb provides 415 lumens of warm white light (2700 Kelvin) and is built to withstand temperatures up to 300°C (570°F). Its durable construction ensures a long lifespan, making it suitable for various household appliances.

2. KEY FEATURES

- **High Temperature Resistance:** Rated to resist up to 300°C (570°F), ensuring durability in ovens and other hot appliances.
- **Optimal Brightness:** Provides 415 lumens of clear, warm white light (2700 Kelvin) for excellent visibility.
- **Standard Base:** Features an E26/E27 medium brass base for broad compatibility with various fixtures.
- **Long Lifespan:** Rated for approximately 1500 hours of use, reducing the frequency of replacements.
- **Safe Materials:** Lead and mercury-free, making it safe for household use and the environment.
- **Compact Size:** Each bulb measures 2.76 inches in length and 1.77 inches in diameter (G45 shape).

Brass Base
Excellent Heat Dissipation

Thickened Glass

Special Seal Silicone
300 °C High Temp Resistance

3. SETUP AND INSTALLATION

Replacing your appliance light bulb is a straightforward process. Always ensure the appliance is unplugged or the power supply is turned off before beginning installation to prevent electrical shock.

1. **Safety First:** Disconnect power to the appliance and allow the old bulb to cool completely if it was recently in use.

2. **Remove Old Bulb:** Carefully unscrew the old bulb from its socket. Some appliances may have a protective glass cover that needs to be removed first (often by unscrewing or twisting).
3. **Insert New Bulb:** Screw the new Jslinter 40 Watt Appliance Oven Light Bulb into the socket until it is snug. Do not overtighten.
4. **Replace Cover (if applicable):** Reattach any protective glass covers that were removed.
5. **Restore Power:** Reconnect power to the appliance and test the new bulb.

Video: Demonstrates the simple process of replacing an oven light bulb, including unscrewing the old bulb and installing the new Jslinter bulb.

4. OPERATING INSTRUCTIONS

The Jslinter 40 Watt Appliance Oven Light Bulb operates in conjunction with your appliance's existing light switch. Simply activate the light switch on your oven, refrigerator, or other compatible appliance to illuminate the interior. The bulb is designed for continuous use within the specified temperature ranges of your appliance.

5. MAINTENANCE

To ensure optimal performance and longevity of your Jsinter appliance bulb, follow these simple maintenance guidelines:

- **Cleaning:** If the bulb or its protective cover becomes dirty, ensure the appliance is unplugged and the bulb is cool before gently wiping with a soft, dry cloth. Avoid using abrasive cleaners or excessive moisture.
- **Regular Inspection:** Periodically check the bulb for any signs of wear or damage. While designed for durability, extreme conditions or impacts can affect its performance.
- **Replacement:** Replace the bulb when it burns out. Keep spare bulbs on hand for convenience, especially given the 4-pack offering.

6. TROUBLESHOOTING

If your Jsinter appliance light bulb is not functioning as expected, consider the following:

- **Bulb Not Lighting:**
 - Ensure the appliance is properly plugged in and receiving power.
 - Check if the appliance's light switch is in the "on" position.
 - Verify the bulb is screwed in securely into the socket.
 - The bulb may have reached the end of its lifespan and needs replacement.
- **Flickering Bulb:**
 - Ensure the bulb is screwed in tightly. A loose connection can cause flickering.
 - If flickering persists, the bulb may be faulty or nearing its end of life. Replace with a new bulb.
- **Dim Light:**
 - Check if the bulb or its protective cover is dirty and requires cleaning.
 - Ensure you are using the correct wattage bulb for your appliance.

7. SPECIFICATIONS

Attribute	Value
Brand	Jsinter
Model Number	HY-18-01a
Light Type	Incandescent
Wattage	40 Watts
Voltage	110v / 120v / 130v
Brightness	415 Lumens
Color Temperature	2700 Kelvin (Warm White)
High Temperature Resistance	Up to 300°C (570°F)
Bulb Base	E26 / E27 Medium Brass Base

Bulb Shape Size	G45 (Globe)
Dimensions (Each Bulb)	2.76 inches (Length) x 1.77 inches (Diameter)
Rated Lifespan	1500 Hours
Materials	Glass, Brass
Special Features	Oven bulb replacement, Lead Free Base
