

## HUANUO HNTT-B

# HUANUO Adjustable TV Tray Table User Manual

Model: HNTT-B

## 1. PRODUCT OVERVIEW

The HUANUO Adjustable TV Tray Table is designed for versatile use in various home settings. It functions as a TV dinner tray, a bed table, a movable workstation, or a snack tray, adapting to different user needs and environments.

### Key Features

- **Multifunctional Design:** Suitable for dining, working, reading, or leisure activities.
- **Adjustable Height:** Offers 6 height settings, ranging from 21.53 inches to 28.74 inches, to accommodate various seating arrangements.
- **Adjustable Tilt Angle:** Features 3 tilt angles, including flat, one angle downwards, and one angle upwards, for ergonomic comfort.
- **Enhanced Stability:** Includes an additional base rod to improve the table's stability during use.
- **Compact Storage:** Designed to fold into a compact size for convenient storage when not in use.
- **Integrated Cupholder:** A built-in cupholder provides a secure place for beverages.

## 2. SAFETY INFORMATION

---

**Caution:** This product features adjustable height and tilt mechanisms that may create pinch points. Always exercise caution when adjusting the table to prevent injury. Do not exceed the recommended weight limit for the tabletop. Ensure all components are properly assembled according to the provided instructions before use.

## 3. SETUP INSTRUCTIONS

---

### 3.1 Unpacking

Carefully remove all components from the packaging. Verify that all parts listed in the assembly guide are

present and undamaged. Retain packaging materials until assembly is complete.

### 3.2 Assembly

The TV tray table is designed for quick assembly, typically within 5 minutes. Refer to the included assembly guide for detailed, step-by-step instructions. A screwdriver may be required for certain connections.

1. Attach the tabletop to the main support frame.
2. Connect the leg assemblies to the main support frame.
3. Insert the stabilizing rod between the leg assemblies to ensure structural integrity.
4. Ensure all screws and fasteners are securely tightened.

## 4. OPERATING INSTRUCTIONS

### 4.1 Adjusting Height

The table offers 6 height settings. To adjust the height, locate the adjustment pins on the vertical support legs. Press the pins inward and slide the legs to the desired height. Ensure the pins securely lock into place at the chosen setting before use.

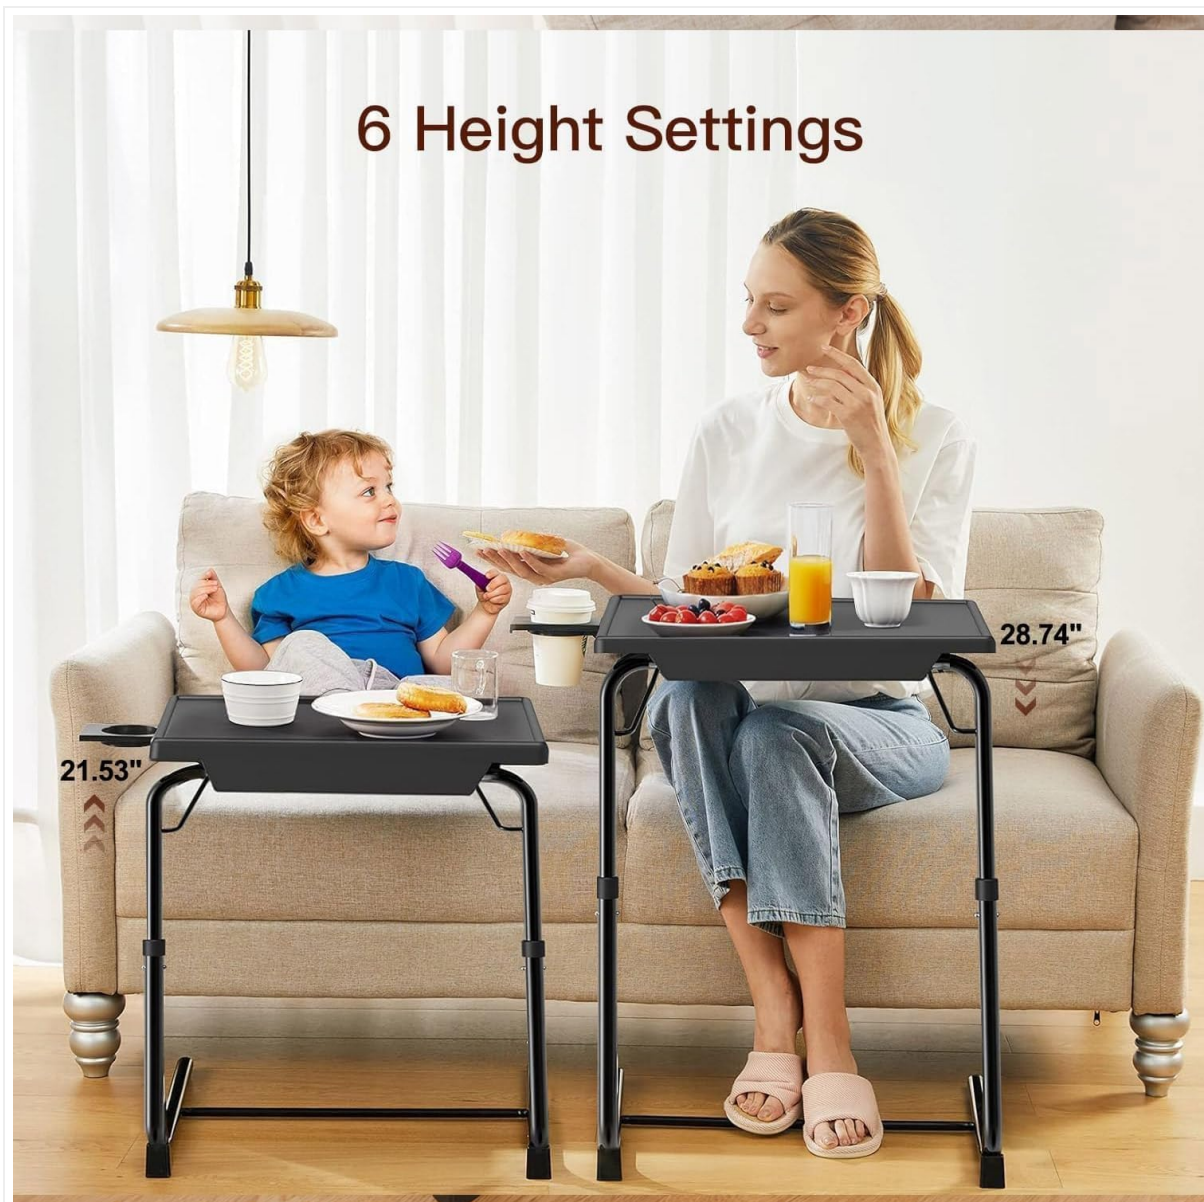

Figure 2: Illustration of the 6 adjustable height settings.

## 4.2 Adjusting Tilt Angle

The tabletop can be adjusted to 3 different tilt angles: flat, one angle downwards, and one angle upwards. To change the tilt, lift the tabletop slightly and adjust the support bar underneath to engage with the desired notch. Ensure the tabletop is securely seated in the chosen angle.

3 Tilt Angles

Figure 3: Demonstration of the 3 tilt angle adjustments.

## 4.3 Using the Built-in Cupholder

The table includes a built-in cupholder for convenience. This cupholder can be extended for use or retracted for a flush surface. To extend, gently pull the cupholder tray outwards. To retract, push it back into its housing until it is flush with the tabletop edge.

Figure 4: The built-in cupholder in extended and retracted positions.

#### 4.4 Folding and Storage

For compact storage, the table can be folded. First, remove the stabilizing rod by unscrewing it. Then, collapse the leg assemblies and fold the tabletop flat. This allows the table to be stored next to a couch or in a closet, minimizing space requirements.

## Easy to Fold & Store

Foldable for storage, next to a wall or under a couch.

Figure 5: The table folded for easy storage.

## 5. MAINTENANCE

---

### 5.1 Cleaning

To clean the table, wipe surfaces with a soft, damp cloth. For stubborn stains, a mild soap solution can be used. Avoid abrasive cleaners or harsh chemicals, as these may damage the finish.

### 5.2 Storage

When not in use, fold the table as described in Section 4.4 and store it in a dry, cool place away from direct sunlight and extreme temperatures. Ensure it is stored in a stable position to prevent accidental falls.

## 6. TROUBLESHOOTING

---

### 6.1 Table Not Level After Assembly

If the table tray appears uneven or not level after assembly, it may be due to the tilt bar being installed incorrectly. To correct this, remove the tilt bar and reassemble it in the reverse orientation. This should allow the table to sit flat and level.

### 6.2 Stability Concerns

If the table feels unstable, ensure that the stabilizing rod is correctly installed and all connections, including the height adjustment pins, are fully engaged and secure. Verify that the table is placed on a flat, even surface.

## 7. SPECIFICATIONS

| Feature                        | Detail                           |
|--------------------------------|----------------------------------|
| Brand                          | HUANUO                           |
