EagleTec KG060-BR

EagleTec KG060-BR Low Profile Mechanical Gaming Keyboard User Manual

Model: KG060-BR

1. INTRODUCTION

This manual provides instructions for the EagleTec KG060-BR Low Profile Mechanical Gaming Keyboard. This 87-key compact keyboard features blue LED backlighting, mechanical switches, and a durable aluminum-ABS construction. It is designed for use with personal computers for both typing and gaming.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- EagleTec KG060-BR Mechanical Gaming Keyboard
- USB Cable

3. SETUP

To set up your EagleTec KG060-BR keyboard:

1. Connect the provided USB cable to the USB-C port on the back of the keyboard.
2. Plug the other end of the USB cable into an available USB port on your computer.
3. The keyboard is plug-and-play and should be automatically recognized by your operating system. No additional drivers are typically required.

4. OPERATING INSTRUCTIONS

4.1. Basic Key Functions

The keyboard features a standard 87-key layout. All keys function as labeled for standard input.

4.2. Backlighting Control

The KG060-BR keyboard features blue LED backlighting with various effects and brightness levels. Use the following key combinations to adjust the backlighting:

- **Fn + Ins:** Cycle through 18 different backlighting effects.
- **Fn + Up Arrow:** Increase backlighting brightness.
- **Fn + Down Arrow:** Decrease backlighting brightness.
- **Fn + Left/Right Arrow:** Adjust the speed of dynamic backlighting effects.

4.3. Multimedia Keys

The keyboard includes 12 multimedia function keys accessible via the Fn key:

- **Fn + F1-F12:** Access various multimedia and system functions (e.g., volume control, media playback, web browser, email). Refer to the keycap legends for specific functions.

4.4. Gaming Features

- **N-Key Rollover (Anti-Ghosting):** All 87 keys support N-Key Rollover, allowing multiple key presses to be registered simultaneously without conflict, which is beneficial for gaming.
- **Swappable WASD/Arrow Keys:** The WASD keys can be swapped with the arrow keys for user preference. Consult the keyboard's specific key combination for this function, typically Fn + W.

5. MAINTENANCE

5.1. Cleaning

To clean your keyboard:

- Disconnect the keyboard from your computer.
- Use a soft, damp cloth to wipe the surface of the keyboard. Avoid excessive moisture.
- For cleaning between keycaps, use compressed air or a small brush.
- The keyboard features a splash-proof design, but it is not waterproof. Avoid submerging it in liquids.

Image 5.1: The keyboard surface with water droplets, illustrating its splash-proof design.

5.2. Keycap Removal (Optional)

Keycaps can be carefully removed for deeper cleaning or replacement. Use a keycap puller tool (not included) to gently pull keycaps straight up. When reattaching, align the keycap with the switch stem and press down firmly.

6. TROUBLESHOOTING

If you encounter issues with your keyboard, try the following steps:

- **Keyboard Not Responding:**

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try connecting the keyboard to a different USB port on your computer.
- Test the keyboard on another computer to determine if the issue is with the keyboard or the computer system.

- **Backlighting Not Working:**

- Ensure the backlighting is not turned off or set to the lowest brightness level (use Fn + Up Arrow to increase brightness).
- Cycle through different backlighting effects using Fn + Ins.

- **Specific Keys Not Working:**

- Check for any physical obstructions under the keycap.
- If the issue persists, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Number	KG060-BR
