Blackweb B07DV6KYH2

Blackweb RGB Programmable Gaming Mouse User Manual

Model: B07DV6KYH2

INTRODUCTION

Thank you for purchasing the Blackweb RGB Programmable Gaming Mouse. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new gaming mouse. Please read this manual thoroughly before use to ensure optimal performance and longevity of your device.

PACKAGE CONTENTS

Ensure all items are present in the package:

- Blackweb RGB Programmable Gaming Mouse
- Charging Cable (USB)
- User Manual (this document)

PRODUCT OVERVIEW

The Blackweb RGB Programmable Gaming Mouse is designed for enhanced gaming and everyday computer use. It features customizable RGB lighting, 7 programmable buttons, and an optical sensor for precise tracking.

Figure 1: Blackweb RGB Programmable Gaming Mouse

Key Features:

- 7 Programmable Buttons for custom commands and macros.
- 16.8 Million RGB Lighting Illuminations for personalized aesthetics.
- Adjustable DPI settings for precision control.
- Ergonomic design for comfortable extended use.
- USB Connectivity for reliable performance.

SETUP INSTRUCTIONS

1. **Connect the Mouse:** Plug the USB connector of the Blackweb RGB Programmable Gaming Mouse into an available USB port on your computer.

2. **Driver Installation:** Your operating system should automatically detect and install the necessary drivers. If prompted, follow the on-screen instructions. No additional software is typically required for basic functionality.

3. **Software Installation (Optional):** For advanced customization, including button programming and RGB lighting effects, download the Blackweb Gaming Software from the official Blackweb support website. Follow the installation instructions provided with the software.

4. **Test Functionality:** Move the mouse and click the left and right buttons to ensure it is working correctly.

OPERATING INSTRUCTIONS

DPI Adjustment

The mouse features a dedicated DPI button (usually located behind the scroll wheel) to cycle through different sensitivity levels. Press this button to instantly change the mouse's tracking speed to suit your preference or game requirements. The current DPI setting may be indicated by a change in the mouse's LED color (if supported by the model and software).

Programmable Buttons

The Blackweb RGB Programmable Gaming Mouse includes 7 programmable buttons. To customize these buttons:

1. Ensure the Blackweb Gaming Software is installed on your computer.

2. Launch the software.

3. Within the software interface, you can assign various functions, macros, or keyboard shortcuts to each of the 7 programmable buttons.

4. Save your settings to the mouse's onboard memory (if available) or to a profile on your computer.

RGB Lighting Control

The mouse features 16.8 million RGB lighting illuminations. To customize the lighting effects:

1. Open the Blackweb Gaming Software.

2. Navigate to the lighting or RGB settings section.

3. Choose from various lighting modes (e.g., static, breathing, spectrum cycling), colors, and brightness levels.

4. Apply your desired settings.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive cleaners.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking. Use a cotton swab if necessary.
- **Cable Management:** Avoid excessive bending or twisting of the USB cable to prevent damage.
- **Storage:** When not in use for extended periods, store the mouse in a clean, dry environment.

TROUBLESHOOTING

Problem	Possible Solution
Mouse is not responding.	- Ensure the USB cable is securely plugged into a working USB port. - Try plugging the mouse into a different USB port. - Restart your computer. - Check if the mouse works on another computer to rule out a system-specific issue.
Tracking is erratic or inaccurate.	- Clean the optical sensor on the underside of the mouse. - Ensure you are using the mouse on a suitable surface (e.g., a mouse pad, not a reflective or transparent surface). - Adjust the DPI settings using the DPI button.
RGB lighting is not working or incorrect.	- Ensure the Blackweb Gaming Software is installed and running. - Check the lighting settings within the software. - Restart the software or your computer.
Programmable buttons are not working.	- Verify that the Blackweb Gaming Software is installed and that button assignments have been saved. - Ensure the software is running in the background if required for your custom profiles. - Try resetting the button assignments within the software.
