SETUP

Package Contents

Verify that your package contains the following items:

- Voyager 5200 Bluetooth Headset

Charging the Headset

The headset requires approximately 7 hours for a full charge. A fully charged headset provides up to 7 hours of talk time and up to 9 days in standby mode.

1. Connect the charging cable to the headset's charging port.
2. Plug the other end of the cable into a USB power source.
3. The indicator light on the headset will show charging status.

Fitting the Headset

The Voyager 5200 is designed for stability and comfort across various ear shapes. It features an on-ear form factor.

1. Gently place the earpiece over your ear.
2. Adjust the boom microphone so it points towards your mouth.
3. Ensure the headset feels secure and comfortable for extended wear.

Pairing with a Device

The headset uses Bluetooth 4.2 for wireless communication and is compatible with smartphones, tablets, laptops, and desktops.

1. Turn on the headset.
2. Activate Bluetooth on your device (e.g., smartphone, tablet).
3. Select "Plantronics Voyager 5200" from the list of available Bluetooth devices.
4. Follow any on-screen prompts to complete the pairing process.

OPERATING

Making and Receiving Calls

Use the headset's controls to manage your calls. Specific button functions are detailed in the quick start guide included with your product.

Noise Cancellation and WindSmart Technology

The Voyager 5200 incorporates four microphones and proprietary DSP (Digital Signal Processing) to reduce background noise. Six layers of WindSmart technology detect wind direction and adapt to minimize wind noise, ensuring clear voice transmission, especially outdoors.

Voice Control with Alexa

The headset features built-in Alexa support. Tap the dedicated Alexa button and speak your command to check your schedule, manage your to-do list, or get news updates without needing to access your phone.

Battery Status

The headset provides voice alerts for battery levels (high, medium, low, recharge headset). Refer to the quick start guide for specific indicator light behaviors.

MAINTENANCE

Cleaning Your Headset

To maintain optimal performance and hygiene, regularly clean your headset. Use a soft, dry cloth to wipe down the surfaces. Avoid using abrasive cleaners or submerging the device in liquids.

Storage

When not in use, store the headset in a cool, dry place away from direct sunlight and extreme temperatures. If an optional charging case is available, utilize it for protection and convenient recharging.

TROUBLESHOOTING

Common Issues

- **Connectivity Problems:** Ensure the headset is charged and within range of your paired device. Re-pair the headset if connection issues persist.
- **Poor Sound Quality:** Check the microphone position and ensure it is clear of obstructions. Verify that the headset is securely fitted.
- **Battery Draining Quickly:** Reduce usage of high-power features. Ensure the headset is fully charged before use.
- **Headset Not Responding:** Try resetting the headset. Refer to the quick start guide for specific reset instructions.
