SMALLRIG 2093-SR

SmallRig Wooden Side Handle (Model 2093-SR) Instruction Manual

Brand: SMALLRIG | Model: 2093-SR

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your SmallRig Wooden Side Handle (Model 2093-SR). Designed for camera rigs, this versatile handle enhances stability and provides multiple mounting options for accessories.

KEY FEATURES

- **Wide Compatibility:** Compatible with camera cages featuring two 1/4"-20 threaded holes spaced 18mm / 0.7in apart. Supports a maximum load of up to 15kg / 33lb.
- **Ergonomic Wooden Design:** Crafted from premium wood over an integrated aluminum alloy core, offering natural warmth, high strength, and a comfortable grip.
- **Adjustable Height:** Features a vertical adjustment range of 36mm / 1.42in for optimal grip positioning based on camera size. Includes a built-in magnetic hex wrench for easy adjustments.
- **Left/Right Hand Versatility:** The handle can be easily switched for left or right-hand use by reorienting the connecting part.
- **Multiple Mounting Points:** Equipped with two 1/4"-20 threaded holes, one 1/4"-20 locating hole, and a cold shoe interface for expanding accessories like microphones, flashes, magic arms, and monitor mounts.

WHAT'S IN THE BOX

- Side handle x 1
- Built-in Allen wrench (for adjustments)

Package

Side handle x 1

Specifications

ID

HSN2093D

Product Dimensions:

105.0 x 74.3 x 66.0mm / 4.1 x 2.9 x 2.6

Net Weight:

200.0 ± 5.0g / 7.1 ± 0.2oz

Material(s):

Wood, Aluminum Alloy

SETUP AND INSTALLATION

1. Attaching the Handle to Your Camera Cage

The SmallRig Wooden Side Handle attaches securely to camera cages with two 1/4"-20 threaded holes spaced 18mm (0.7") apart.

1. Align the two 1/4"-20 thumbscrews on the handle's connecting part with the corresponding threaded holes on your camera cage.
2. Hand-tighten the thumbscrews until the handle is snug against the cage.
3. For a final secure fit, use the built-in magnetic Allen wrench (located at the bottom of the handle) to fully tighten the thumbscrews.

Engineered for Everyone

Offers equal comfort for left or right-handed creators with different hand sizes Install dual handles for added control

2. Adjusting Handle Height

The handle's vertical position can be adjusted by up to 36mm (1.42in) to suit your camera setup and personal preference.

1. Locate the two hex screws on the side of the handle's connecting part.
2. Use the built-in Allen wrench to loosen these screws.
3. Slide the handle up or down to your desired height.
4. Tighten the hex screws firmly with the Allen wrench to secure the handle in place.

Customizable Adapter Height

Various Mounting Points

Image: An illustration showing how to loosen side screws to reposition the handle adapter for perfect balance, with a diagram indicating the 36mm adjustment range.

3. Switching for Left or Right Hand Use

The handle can be configured for either left or right-hand operation.

1. Unscrew the connecting part from the wooden handle using the Allen wrench.
2. Flip the connecting part 180 degrees.
3. Reattach the connecting part to the wooden handle and tighten the screws.
4. Attach the reconfigured handle to your camera cage as described in step 1.

Recommended Attachments

OPERATING INSTRUCTIONS

Once installed, the SmallRig Wooden Side Handle provides a stable and comfortable grip for your camera rig, improving handheld shooting and offering versatile accessory mounting.

1. Enhanced Handheld Stability

Grip the wooden handle firmly to achieve greater stability during handheld video recording or photography. The ergonomic design ensures a comfortable and secure hold, reducing camera shake.

Lightweight Yet Sturdy

Natural wood and aluminum alloy construction ensure durability without extra weight

2. Mounting Accessories

Utilize the various mounting points on the top of the handle to attach additional camera accessories:

- **Cold Shoe:** Slide in accessories such as microphones, LED lights, or wireless receivers.
- **1/4"-20 Threaded Holes:** Attach monitor mounts, magic arms, or other threaded accessories.
- **1/4"-20 Locating Hole:** Provides an anti-twist mounting point for compatible accessories.

Easy Assembly

Securely mounts with two 1/4"-20 thumbscrews and can be fully secured with the included Allen wrench

*Compatible with cages that have two 1/4"-20 threaded holes spaced 18mm (0.7") apart on the side

MAINTENANCE

- **Cleaning:** Wipe the wooden handle with a soft, dry cloth. For the metal parts, use a slightly damp cloth if necessary, then dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the handle in a dry, cool place away from direct sunlight and extreme temperatures to prevent wood warping or cracking.

- **Tightness Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten with the Allen wrench as needed.

TROUBLESHOOTING

- **Handle feels loose:** Ensure both 1/4"-20 thumbscrews are fully tightened using the built-in Allen wrench. Check that the handle's connecting part is correctly aligned with the cage's threaded holes.
- **Difficulty adjusting height:** Loosen the hex screws on the side of the connecting part sufficiently before attempting to slide the handle. Ensure no debris is obstructing the sliding mechanism.
- **Accessories not fitting cold shoe/threads:** Verify that your accessory has a standard cold shoe mount or 1/4"-20 thread. Ensure no foreign objects are blocking the mounting points.

SPECIFICATIONS

Brand	SMALLRIG
Model Name	2093-SR
Product Dimensions	2.05"D x 3.03"W x 4.13"H
Item Weight	200 Grams
Maximum Weight Recommendation	15kg / 33lbs
