LECHAT SDW12

LeChat Dare to WEAR Spectra Nail Polish (SDW12 Outer Space) User Manual

Model: SDW12 Outer Space

Introduction

This manual provides instructions for the proper application, care, and maintenance of LeChat Dare to WEAR Spectra Nail Polish, model SDW12 Outer Space. This product is a holographic, ultra-pigmented nail polish designed to create an intense solar flare effect.

Product Overview

The LeChat Dare to WEAR Spectra Nail Polish (SDW12 Outer Space) features a dark violet holographic glitter formulation. It is a regular nail polish, supplied in a 0.5 fl. oz (15mL) bottle. The unique holographic properties create a vibrant, multi-dimensional effect under direct light.

Application Instructions

1. **Prepare Nails:** Ensure nails are clean, dry, and free of any oils or previous polish. Gently push back cuticles and shape nails as desired.
2. **Apply Base Coat (Optional but Recommended):** For extended wear and to protect natural nails, apply a thin layer of base coat. Allow it to dry completely.
3. **Apply First Coat of Polish:** Shake the LeChat Dare to WEAR Spectra bottle gently to mix the holographic pigments. Apply a thin, even coat of polish to each nail, starting from the base and moving towards the tip.
4. **Apply Second Coat:** Once the first coat is dry to the touch, apply a second thin coat for enhanced color depth and holographic effect.
5. **Apply Top Coat (Optional but Recommended):** For added shine, protection, and longevity, apply a clear top coat. This will also help to smooth out any texture from the glitter.
6. **Allow to Dry:** Allow ample time for all layers to dry completely. Drying times may vary based on coat thickness and environmental conditions.

Maintenance and Care

- **Storage:** Store the nail polish bottle upright in a cool, dry place away from direct sunlight to prevent thickening or discoloration.

- **Prevent Thickening:** If the polish thickens over time, a few drops of nail polish thinner (not remover) can be added to restore consistency.
- **Removal:** Use a standard nail polish remover to gently remove the polish. For glitter polishes, soaking a cotton pad with remover and holding it on the nail for a few seconds before wiping can aid removal.
- **Cap Security:** Always ensure the bottle cap is tightly sealed after use to prevent air exposure and drying out.

Troubleshooting

Polish appears streaky or uneven:
Ensure nails are clean and dry before application. Apply thin, even coats. Allow each coat to dry sufficiently before applying the next. Two thin coats are generally better than one thick coat.

Polish chips quickly:
Proper nail preparation (clean, dry, buffed) is crucial. Using a base coat and a top coat can significantly extend wear time. Avoid excessive exposure to water or harsh chemicals without gloves.

Holographic effect is not prominent:
The holographic effect is most visible under direct light (e.g., sunlight, bright artificial light). Ensure the polish is fully dry, and consider applying a clear, glossy top coat to enhance the shine and holographic sparkle.

Specifications

Brand	LECHAT
Model	SDW12 Outer Space
Color	Dark Violet Holographic Glitter
Liquid Volume	0.5 Fluid Ounces (15mL)
Special Feature	Holographic
Item Form	Liquid
Finish Type	Shimmery
Manufacturer	LeChat Nail
Date First Available	June 22, 2018

Ingredients

The primary ingredient for this nail polish is Resin.

Safety Information

Statements regarding cosmetic products have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition. For external use only. Keep out of reach of children. Avoid contact with eyes. If irritation occurs, discontinue use.
