

## Keter 236758

# Keter 236758 Cantilever Organizer 22-inch Instruction Manual

## INTRODUCTION

---

The Keter 236758 Cantilever Organizer is designed for efficient storage and organization of small to medium-sized components. Featuring a multi-level cantilever system and 27 removable bins, this organizer provides easy access and secure storage for various accessories. Its robust construction, including a non-breakable polycarbonate lid and a heavy-duty metal handle, ensures durability and portability for both professionals and DIY enthusiasts.

## SETUP

---

Follow these steps for the initial setup of your Keter Cantilever Organizer:

1. **Unpacking:** Carefully remove the organizer from its packaging. Inspect for any shipping damage.
2. **Familiarize with Components:** The organizer consists of a main base, a cantilever tray, a clear polycarbonate lid, 27 removable bins (in two sizes), and a metal handle.
3. **Bin Placement:** The 27 removable bins are designed to fit into specific slots within the main base and the cantilever tray. Arrange them according to your organizational needs. Ensure each bin is seated correctly in its designated slot.

Image: Close-up of the two different sizes of removable bins, demonstrating their capacity for small items like wall plugs.

## OPERATING INSTRUCTIONS

---

Proper operation ensures the longevity and functionality of your organizer.

- 1. Opening the Organizer:** Release the two metal latches located on the front of the organizer. Gently lift the clear lid. The cantilever tray will automatically extend upwards, providing access to both levels of storage.
- 2. Accessing Removable Bins:** Once open, individual bins can be easily lifted out for use. To replace, simply slide them back into their respective slots until they are securely seated.
- 3. Closing the Organizer:** Push the cantilever tray downwards until it retracts into the main base. Lower the clear lid and secure both metal latches firmly. The heavy-duty metal handle, when upright, also acts as an additional locking mechanism, preventing accidental opening.
- 4. Transporting:** Use the heavy-duty metal handle with a soft grip for comfortable and secure transportation.

Ensure the organizer is fully closed and latched before lifting.

Regular maintenance will help preserve the condition and functionality of your organizer.

- **Cleaning:** Clean the organizer with a soft cloth, mild soap, and water. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the resin and polycarbonate materials.
- **Inspection:** Periodically check the metal latches, hinges, and the cantilever mechanism for any signs of wear or damage. Ensure they operate smoothly.
- **Storage:** Store the organizer in a dry place, away from direct sunlight and extreme temperatures, to prevent material degradation.

## TROUBLESHOOTING

---

Refer to the following common issues and their solutions:

- **Issue: Lid does not close properly.**  
**Solution:** Ensure all removable bins are correctly seated in their slots and no items are protruding above the bin edges or obstructing the closing mechanism. Verify that the cantilever arms are fully retracted into the base before attempting to close the lid.
- **Issue: Removable bins are difficult to remove or insert.**  
**Solution:** Check that the bins are aligned with their designated slots. Avoid overfilling bins, as this can cause them to jam or become difficult to handle. Ensure no debris is lodged in the bin slots.
- **Issue: Handle feels loose or unstable.**  
**Solution:** Inspect the handle's attachment points and the metal bar for any visible damage or loose connections. If the handle appears damaged or compromised, discontinue use and contact customer support for assistance.

## SPECIFICATIONS

---

Feature	Detail
Model Number	236758 (22 Inch Resin Cantilever Tool)
Brand	Keter
Material	Resin, Metal
Color	Black/Red
Water Resistance Level	Water-resistant
Number of Compartments	27 (removable bins)
Lid Material	Non-breakable Polycarbonate
Handle	Heavy-duty metal with soft grip
Design	Multi-level cantilever
Additional Features	Rear leg support
GTIN/UPC	731161026836

## WARRANTY INFORMATION

---

Keter products are manufactured to high-quality standards. For specific warranty details regarding your Keter 236758 Cantilever Organizer, please refer to the official Keter website or contact Keter customer service directly. It is recommended to keep your proof of purchase for any potential warranty claims.

## CUSTOMER SUPPORT

---
