BougeRV EV Charger Holster Dock

BougeRV EV Charger Holster Dock User Manual

Model: EV Charger Holster Dock

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of the BougeRV EV Charger Holster Dock. This product is designed to securely hold your Electric Vehicle (EV) charger connector when not in use, ensuring a tidy and organized charging area.

The holster is constructed from durable, injection-molded material and is compatible with all SAE J1772 type connectors. Its design facilitates easy insertion and removal of the charger nozzle.

Fits for SAE J1772 EV Charger

2. PACKAGE CONTENTS

- 1 x BougeRV EV Charger Holster Dock
- 4 x Mounting Screws

Figure 2: The BougeRV EV Charger Holster Dock and included mounting screws.

3. SETUP AND INSTALLATION

The BougeRV EV Charger Holster Dock is designed for quick and simple installation, suitable for both indoor and outdoor environments. Ensure the mounting surface is stable and appropriate for drilling.

Required Tools (Not Included):

- Drill
- Drill bit appropriate for mounting surface and screw size
- Screwdriver (Phillips head recommended)
- Pencil or marker

Installation Steps:

1. **Select Location:** Choose a convenient location near your EV charging station. Ensure there is enough space for the charger cable and that the holster will not obstruct pathways.

2. **Mark Drill Points:** Place the holster against the desired mounting surface. Use a pencil or marker to mark the four screw hole locations.
3. **Drill Pilot Holes:** Using an appropriate drill bit, carefully drill pilot holes at the marked locations. The depth and diameter of the pilot holes should be suitable for the provided mounting screws and the material of your mounting surface.
4. **Mount the Holster:** Align the holster with the pilot holes. Insert the four provided mounting screws and tighten them securely with a screwdriver. Do not overtighten to avoid damaging the holster or the mounting surface.

4. OPERATING INSTRUCTIONS

Using the BougeRV EV Charger Holster Dock is straightforward.

1. **Storing the Charger:** When your EV charger is not in use, align the SAE J1772 connector nozzle with the opening of the holster. Gently push the connector into the holster until it clicks or feels securely seated. The design allows for

easy engagement.

2. **Removing the Charger:** To retrieve your charger, simply pull the SAE J1772 connector firmly out of the holster.

5. MAINTENANCE

The BougeRV EV Charger Holster Dock requires minimal maintenance to ensure its longevity and proper function.

- **Cleaning:** Periodically wipe the holster with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the material.
- **Inspection:** Regularly inspect the holster for any signs of damage, such as cracks or loose mounting screws. If any damage is observed, ensure the holster is still securely mounted and functioning correctly.

6. TROUBLESHOOTING

If you encounter any issues with your BougeRV EV Charger Holster Dock, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Charger connector does not fit or is loose.	Incorrect connector type or improper insertion.	Ensure your EV charger uses an SAE J1772 connector. Verify the connector is aligned correctly before inserting.
Holster feels unstable after installation.	Loose mounting screws or unsuitable mounting surface.	Check and tighten all mounting screws. Ensure the holster is mounted on a solid, appropriate surface.

7. SPECIFICATIONS

Feature	Detail
Brand	BougeRV
Model	EV Charger Holster Dock
Compatibility	SAE J1772 EV Charger Connectors
Material	Injection-molded plastic
Color	Black (EV charger holder)
Number of Ports	1
Dimensions (Approximate)	2.83 inches (width) x 2.83 inches (height) x 0.31 inches (thickness of mounting plate)
ASIN	B07F119GBF
