

Marvel SMH4000

Marvel Spiderman Kids Digital Wristwatch SMH4000 Instruction Manual

Model: SPD4564

INTRODUCTION

This manual provides comprehensive instructions for the Marvel Spiderman Kids Digital Wristwatch, model SPD4564. This timepiece is designed for children and features a vibrant Spiderman-themed digital display, a light-up function, and a comfortable, adjustable strap. Please read this manual carefully to ensure proper use and maintenance of your watch.

SETUP AND INITIAL USE

1. Battery Activation

The watch comes with a pre-installed battery. If the display is not active, gently pull out any plastic tab from the side of the watch crown or button area. This tab prevents battery drain during storage.

2. Setting the Time

1. Locate the button(s) on the side of the watch case. Typically, there is one main button for setting.
2. Press the button once to display the time.
3. To enter setting mode, press and hold the button for approximately 3-5 seconds until the hour digit starts flashing.
4. While the hour digit is flashing, press the button repeatedly to advance the hour.
5. Once the correct hour is set, press and hold the button again for 3-5 seconds until the minute digits start flashing.
6. Press the button repeatedly to advance the minutes.
7. After setting the minutes, press and hold the button one last time for 3-5 seconds to exit setting mode. The time will now be set.

Note: The exact button functions may vary slightly. Refer to the watch's physical buttons for specific indicators if available.

OPERATING INSTRUCTIONS

1. Displaying Time

Press the main button once to illuminate the digital display and show the current time. The display will typically remain active for a few seconds before turning off to conserve battery life.

2. Light-Up Function

This watch features a flashing light-up function. To activate it, press the designated light button (often a separate button or a secondary press of the main button). The watch will illuminate with flashing lights, adding a fun visual effect. The lights will automatically turn off after a short period.

MAINTENANCE AND CARE

- **Cleaning:** Wipe the watch with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Water Resistance:** This watch is generally splash-resistant but not waterproof. Avoid submerging it in water, showering, or swimming while wearing it.
- **Temperature:** Avoid exposing the watch to extreme temperatures, both hot and cold, as this can affect battery life and display performance.
- **Impact:** While designed for children, avoid dropping the watch or subjecting it to strong impacts, which can damage internal components.

- **Battery Replacement:** When the display dims or stops working, the battery may need replacement. This typically requires a small screwdriver and a compatible watch battery (e.g., SR626SW or similar button cell). It is recommended to have battery replacement performed by a qualified technician to ensure proper sealing and function.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch display is blank.	Battery tab not removed, or battery is depleted.	Ensure battery tab is removed. If still blank, replace the battery.
Time is incorrect.	Time was not set correctly or reset.	Follow the "Setting the Time" instructions in the Setup section.
Light-up function not working.	Low battery or button malfunction.	Replace the battery. If the issue persists, contact support.
