Sunbeam SBCHPS

Sunbeam SBCHPS Heated Cat Mat Instruction Manual

Model: SBCHPS

INTRODUCTION

The Sunbeam SBCHPS Heated Cat Mat provides therapeutic warmth for your cat, ideal for use in covered outdoor areas such as garages, basements, sheds, and porches. This mat is designed to maintain a veterinarian-recommended temperature to soothe joints and muscles.

Please read these instructions carefully before using the product to ensure safe operation and optimal performance.

IMPORTANT SAFETY INFORMATION

- **Outdoor Use:** This mat is designed for covered outdoor use only. Do not expose directly to rain or snow.
- **Power Cord:** Ensure the power cord is protected from chewing. The mat features a chew-resistant cord.
- **Temperature Regulation:** The internal thermostat regulates the mat to approximately 102.5°F (39°C) when a pet is on it. The mat may feel cool to the touch when not in use.
- **Placement:** Place the mat on a flat, stable surface.
- **Supervision:** Monitor your pet's initial use of the mat.
- **Damage:** Do not use if the mat or power cord is damaged. Contact customer support for assistance.

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the heated cat mat from its packaging.
2. **Placement:** Choose a suitable covered outdoor location for the mat. Ensure the area is dry and protected from direct weather exposure.
3. **Power Connection:** Plug the power cord into a standard electrical outlet. Ensure the outlet is appropriate for outdoor use and protected from moisture.
4. **Initial Warm-up:** The mat will begin to warm up once plugged in. The heat activation is pressure-sensitive, meaning

it will reach its optimal temperature when your cat lies on it.

Image: An orange tabby cat sleeping on the Sunbeam Heated Cat Mat. The mat is designed for comfort and warmth in covered outdoor settings.

OPERATING INSTRUCTIONS

- **Automatic Heating:** The mat features an internal thermostat that activates and maintains a comfortable temperature of approximately 102.5°F (39°C) when your cat is resting on it.
- **Energy Efficiency:** The mat is designed to be energy-efficient, only reaching its full therapeutic temperature when pressure is applied. It may feel slightly warm or cool to the touch when not in use.
- **Continuous Use:** The mat can be left plugged in continuously during cold weather seasons.

CARE AND MAINTENANCE

- **Cleaning the Mat:** The mat cover is machine washable. Disconnect the power cord before removing the cover.

Wash on a gentle cycle with cold water. Tumble dry on low heat or air dry.

- **Cleaning the Heating Element:** The internal heating element should be wiped clean with a damp cloth. Do not submerge the heating element in water. Ensure it is completely dry before reattaching the cover and plugging it in.
- **Storage:** When not in use, unplug the mat and store it in a dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mat does not feel warm.	Mat is pressure-activated; no pet is on it. Not plugged in. Power outage.	Place your pet on the mat. Ensure the power cord is securely plugged into a working outlet. Check household circuit breaker.
Mat is too hot or too cold.	Incorrect placement. Malfunction.	Ensure the mat is in a covered outdoor area, not exposed to extreme cold or direct sunlight. If issues persist, discontinue use and contact customer support.
Power cord appears damaged.	Physical damage to the cord.	<i>Immediately unplug the mat.</i> Do not use a damaged cord. Contact customer support for replacement or repair options.
