

Tenergy TRAP-001

Tenergy Renair Air Purifier H13 HEPA Replacement Filter User Manual

INTRODUCTION

This manual provides essential instructions for the proper installation and maintenance of your Tenergy H13 Grade HEPA Replacement Filter for the Tenergy Renair Air Purifier. Adhering to these guidelines will ensure optimal performance and longevity of your air purification system.

PRODUCT OVERVIEW

The Tenergy H13 Grade HEPA Replacement Filter is designed specifically for the Tenergy Renair Air Purifier. It features an advanced 3-step filtration system to effectively clean the air in your environment.

- **Preliminary Pre-filter:** Captures larger particles such as pet hair and dust.
- **True HEPA Filter:** Traps 99.97% of airborne particles as small as 0.3 microns, including pollen, dust mites, and other allergens.
- **Activated Carbon Filter:** Absorbs odors from cooking, pets, smoke, and volatile organic compounds (VOCs).

Replacement Filter H13 Grade HEPA

For Tenenergy Air Purifier

FILTER REPLACEMENT INSTRUCTIONS

Follow these steps to replace the filter in your Tenenergy Renair Air Purifier:

Image: A four-step diagram illustrating the filter replacement process for the Tenenergy Renair Air Purifier.

1. **Remove the Cover:** Gently twist the bottom cover of the air purifier counter-clockwise to unlock it. Lift the cover to reveal the old filter.
2. **Take Out the Old Filter:** Carefully grasp the old filter and pull it upwards to remove it from the air purifier. Dispose of the used filter responsibly.
3. **Insert the New Filter:** Unpack the new Tenenergy H13 HEPA Replacement Filter. Align the new filter with the base of the air purifier and gently push it down into place. Ensure it sits securely.
4. **Close and Lock the Cover:** Place the bottom cover back onto the air purifier, aligning the locking indicators. Twist the cover clockwise until it locks securely into position.

After replacing the filter, it is recommended to reset the filter replacement indicator on your air purifier, if applicable, according to your air purifier's main instruction manual.

OPERATING THE AIR PURIFIER (FILTER'S ROLE)

The H13 HEPA filter is crucial for the effective operation of your Tenergy Renair Air Purifier. Once installed, the air purifier will draw in air, passing it through the multi-layer filtration system to remove pollutants and provide cleaner air.

MAINTENANCE

To maintain optimal air purification performance, it is recommended to replace the Tenergy H13 Grade HEPA Replacement Filter every **6 months**. This timeframe may vary depending on the frequency of usage and the air quality in your environment. A dirty filter can reduce the efficiency of the air purifier and impact air quality.

TROUBLESHOOTING

If you experience any issues after replacing the filter, consider the following:

- **Reduced Airflow:** Ensure the filter is correctly seated and the bottom cover is securely locked. Check for any obstructions around the air intake or outlet.
- **Filter Indicator Light Remains On:** Refer to your Tenergy Renair Air Purifier's main manual for instructions on how to reset the filter replacement indicator after installing a new filter.
- **Unusual Odors:** If new odors are present, ensure the new filter is properly installed and not damaged. If the issue persists, contact customer support.

SPECIFICATIONS

Model Number	TRAP-001
MERV Rating	13
Compatible Devices	Tenergy Renair Air Purifier
Material Type	Fiberglass
Item Weight	0.43 Kilograms (15.2 ounces)
Package Dimensions	8.15 x 6.93 x 6.81 inches
