Armitron 75/5597BKGPBK

Armitron Women's Genuine Crystal Accented Leather Strap Watch

MODEL: 75/5597BKGPBK USER MANUAL

Introduction

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your new Armitron Women's Genuine Crystal Accented Leather Strap Watch, Model 75/5597BKGPBK. Please read this guide thoroughly to ensure proper use and care of your timepiece.

Product Overview

Image: Front view of the Armitron Women's Genuine Crystal Accented Leather Strap Watch, featuring a black dial, gold-tone case, crystal-accented bezel, and black leather strap.

The Armitron 75/5597BKGPBK is a women's wrist watch designed for elegance and reliable timekeeping. It features a genuine crystal-accented bezel, a glossy black dial with gold-tone hands and markers, and a comfortable black leather strap. The watch is powered by a Japanese-quartz movement, ensuring accurate time.

Key Features:

- Bezel set with 64 clear genuine crystals.
- Mineral crystal lens for durability.
- Glossy black dial with gold-tone hands and markers.

- Black leather strap with a secure buckle closure.
- Reliable Japanese-quartz Movement.
- Case Diameter: 26.5mm.
- Water resistant to 30m (100ft).

Setup

Setting the Time:

1. Gently pull the crown (the small knob on the side of the watch case) outwards to the first position.
2. Rotate the crown clockwise or counter-clockwise to adjust the hour and minute hands to the correct time.
3. Once the time is set, push the crown back into its original position to engage the movement and start the watch.

Adjusting the Strap:

Image: A close-up view of the Armitron watch on a wrist, illustrating the black leather strap and buckle closure. The watch features a standard buckle closure on its leather strap. To adjust the fit, simply thread the strap through the buckle and secure it in the desired hole. Ensure the watch is snug but comfortable on your wrist, allowing for proper circulation.

Operating Your Watch

Basic Timekeeping:

Your Armitron watch is equipped with a reliable Japanese-quartz movement, which provides accurate

timekeeping with minimal maintenance. Once the time is set, the watch will continue to operate precisely until the battery requires replacement.

Water Resistance:

WATER RESISTANT CHART		
	NOT WATER RESISTANT	NOT WATER RESISTANT
	ACCIDENTAL SPLASHES	WATER RESISTANT TO 30M (100FT): In general, withstands splashes or brief immersion in water, but not suitable for swimming or bathing
	SWIMMING	WATER RESISTANT TO 50M (165FT): In general, suitable for short periods of recreational swimming, but not diving or snorkeling
	SNORKELING	WATER RESISTANT TO 100 M (330 FT): In general, suitable for swimming and snorkeling, but not scuba diving

Image: A water resistance chart illustrating different levels of water resistance and their corresponding activities. This watch is water resistant to 30 meters (100 feet). This rating indicates that the watch is suitable for everyday use and can withstand splashes or brief immersion in water. It is **not** suitable for swimming, bathing, showering, or any prolonged water activities. Exposure to hot water or steam should be avoided as it can compromise the watch's seals.

Water Resistance Guidelines

Rating	Description	Suitable Activities
Not Water Resistant	No protection against water.	Avoid all contact with water.
30M (100FT)	Withstands splashes or brief immersion.	Daily use, accidental splashes, rain. Not for swimming or bathing.
50M (165FT)	Suitable for short periods of recreational swimming.	Recreational swimming. Not for diving or snorkeling.
100M (330FT)	Suitable for swimming and snorkeling.	Swimming, snorkeling. Not for scuba diving.

Maintenance

Cleaning:

- Wipe the watch case and crystal with a soft, dry cloth to remove dust and fingerprints.
- For the leather strap, wipe with a slightly damp cloth and allow it to air dry completely. Avoid using

harsh chemicals or abrasive materials, which can damage the leather or watch finish.

Battery Replacement:

The watch is powered by a product-specific battery (included). When the watch stops running, it indicates that the battery needs to be replaced. It is recommended to have the battery replaced by a qualified watch technician to ensure the water resistance seal is maintained and to prevent damage to the internal components.

Storage:

Image: The black Armitron product box, suitable for storing the watch when not in use.

When not wearing your watch, store it in a cool, dry place away from direct sunlight and extreme temperatures. The original product box is ideal for protecting the watch from dust and scratches.

Troubleshooting

Problem	Possible Cause	Solution
Watch not running	Depleted battery.	Replace the battery (professional service recommended).
Time is incorrect	Crown pulled out; time was not set correctly.	Push the crown in completely. Reset the time as per 'Setting the Time' instructions.
Condensation inside crystal	Exposure to extreme temperature changes or compromised water resistance.	Seek professional service immediately to prevent internal damage.
Strap discomfort	Strap too tight or too loose.	Adjust the strap to a comfortable fit using the buckle.
