Dorman 55034

Dorman 55034 Passenger Side Door Mirror Glass Instruction Manual

For Chevrolet Cruze and Cruze Limited Models

1. PRODUCT OVERVIEW

This manual provides instructions for the installation and maintenance of the Dorman 55034 Passenger Side Door Mirror Glass. This product is designed as a direct replacement for the original mirror glass on specific Chevrolet vehicles, ensuring a precise fit and function.

Image 1.1: Front view of the Dorman 55034 passenger side door mirror glass.

2. SAFETY PRECAUTIONS

- Always wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Handle the mirror glass with care to prevent breakage and injury.
- Ensure the vehicle is parked on a level surface with the engine off and parking brake engaged before beginning work.
- If you are unsure about any step, consult a qualified automotive technician.

3. PACKAGE CONTENTS

The Dorman 55034 package includes:

- 1 x Dorman 55034 Passenger Side Door Mirror Glass

4. VEHICLE COMPATIBILITY

This door mirror glass is compatible with the passenger side of the following Chevrolet models:

- **Chevrolet Cruze:** 2011, 2012, 2013, 2014, 2015, 2016
- **Chevrolet Cruze Limited:** 2016

To ensure precise fitment for your vehicle, it is recommended to verify compatibility using your vehicle's make, model, and trim level.

5. INSTALLATION GUIDE

5.1. Tools Required

- Protective gloves
- Safety glasses
- Plastic pry tool (optional, for careful removal)

5.2. Step-by-Step Installation

Follow these steps to replace your existing passenger side door mirror glass:

1. **Prepare the Vehicle:** Ensure the vehicle is off and the parking brake is engaged.
2. **Remove Existing Mirror Glass:**
 - Carefully position the existing mirror glass to expose the edges.
 - Using a plastic pry tool or your fingers, gently pry the old mirror glass away from the mirror housing. Start from the outer edges and work your way around. Be cautious as the glass may break.
 - Once the glass is loose, disconnect any electrical connectors (e.g., for heating elements) attached to the back of the mirror glass.
3. **Inspect Mirror Housing:** Clean any debris from the mirror housing and inspect the mounting clips or motor assembly for damage.
4. **Connect New Mirror Glass:**
 - Connect any electrical connectors from the vehicle's wiring harness to the corresponding terminals on the back of the new Dorman 55034 mirror glass.

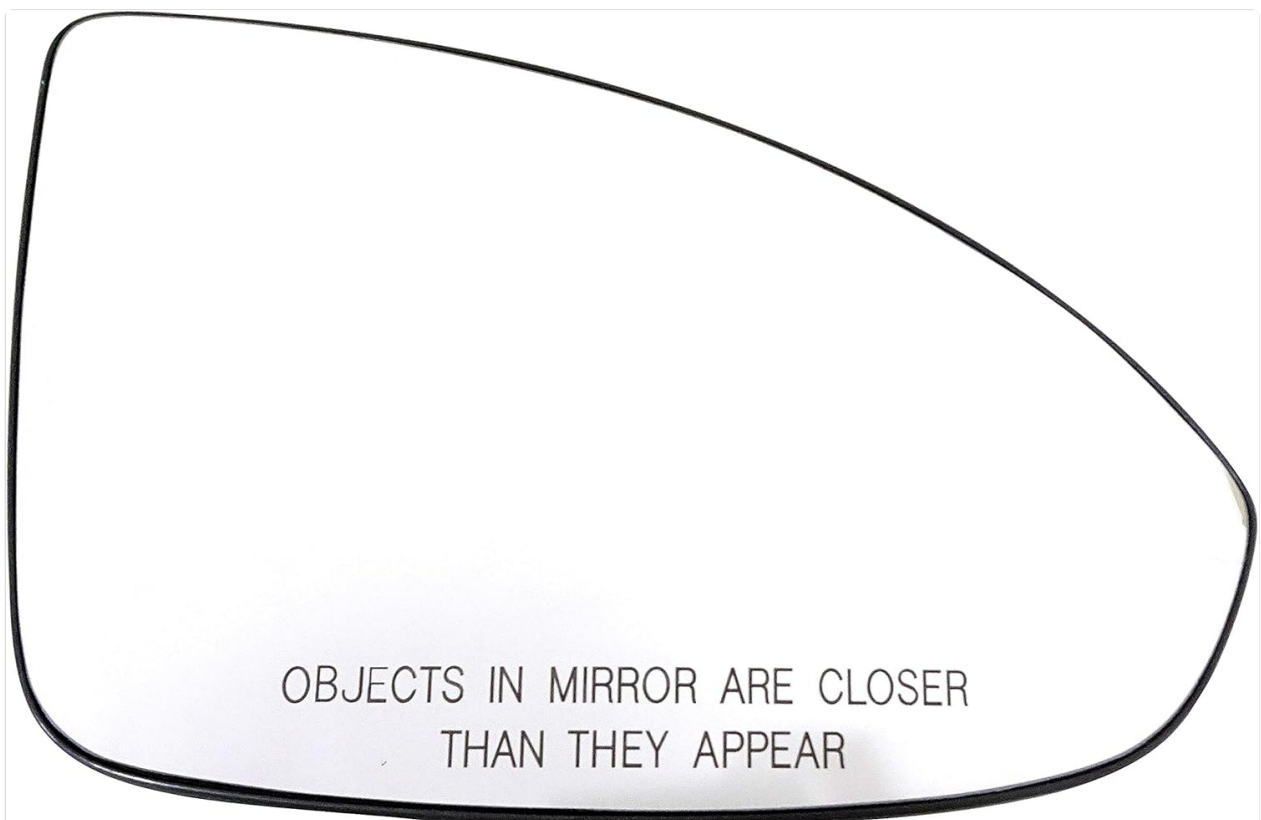

Image 5.1: Rear view of the Dorman 55034 mirror glass, highlighting mounting points and electrical connections.

5. Install New Mirror Glass:

- Align the new mirror glass with the mirror housing.
- Apply even pressure to the center of the mirror glass until it snaps securely into place. Ensure all mounting clips are engaged.

6. Test Functionality: Turn on the vehicle and test the mirror's adjustment (if power-adjustable) and heating function (if applicable) to ensure proper operation.

6. OPERATION AND USE

The Dorman 55034 mirror glass functions as a standard passenger side exterior mirror. It provides a clear reflection for safe driving. As with all convex passenger side mirrors, objects viewed in the mirror are closer than they appear. Always exercise caution and perform head checks when changing lanes or maneuvering.

7. CARE AND MAINTENANCE

- **Cleaning:** Clean the mirror surface with a soft cloth and a non-abrasive glass cleaner. Avoid harsh chemicals that may damage the mirror coating.
- **Inspection:** Periodically inspect the mirror glass for cracks, chips, or looseness. Replace immediately if damage is observed to maintain visibility and safety.

8. TROUBLESHOOTING

- **Mirror is loose after installation:** Ensure all mounting clips are fully engaged. Re-apply pressure to the center of the mirror until it clicks into place.
- **Power adjustment or heating not working:** Verify that all electrical connectors are securely attached. Check vehicle fuses related to mirror functions.
- **Distorted view:** Confirm that the correct mirror glass (Dorman 55034) was installed and that it is designed for the passenger side, which typically features a convex lens.

9. PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Dorman
Model Number	55034
Auto Part Position	Left (Passenger Side)
Item Dimensions (L x W x H)	10 x 7 x 2 inches
Item Weight	7.36 ounces
Mounting Type	Door Mount
Lens Curvature Description	Convex
Fit Type	Vehicle Specific Fit
OEM Part Number	30248; 95215097

10. WARRANTY AND CUSTOMER SUPPORT

Dorman products are manufactured to high-quality standards. For specific warranty information and terms, please refer to the official Dorman website or contact Dorman customer support directly. Keep your purchase

receipt for warranty claims.

For further assistance or technical support, please visit the official Dorman website or contact their customer service department.
