OXO 11256700

OXO Good Grips Herb and Kale Stripping Comb

Model: 11256700

INTRODUCTION

This manual provides instructions for the safe and effective use of your OXO Good Grips Herb and Kale Stripping Comb. This tool is designed to simplify the process of removing leaves from herb stems and kale ribs, making food preparation quicker and easier.

The OXO Good Grips Herb and Kale Stripping Comb shown with fresh parsley, thyme, rosemary, and kale, illustrating its intended use for various greens.

KEY FEATURES

- Quickly and efficiently strips herbs from their stems with a simple pull.
- Comb shape allows stripping leaves from multiple stems at one time.
- Suitable for a variety of herbs including parsley, cilantro, thyme, rosemary, and oregano.
- Features four different hole sizes for stripping kale and other leafy greens.
- Flat side designed for pushing and gathering herbs, and shaped for a comfortable grip at any angle.

Comfortable grip and simple storage

The comb features a comfortable grip and a practical design for easy handling and storage.

INITIAL SETUP

Before first use, wash the Herb and Kale Stripping Comb with warm, soapy water. Rinse thoroughly and dry completely. This ensures the tool is clean and ready for food contact.

OPERATING INSTRUCTIONS

Stripping Herbs

1. Hold the herb stripper firmly in one hand.
2. Insert the stem of the herb into one of the smaller comb teeth, ensuring the leaves are on the side opposite your hand.
3. Pull the stem through the comb teeth. The leaves will be stripped off and collected below.
4. Repeat for additional herb stems.

Demonstration of stripping thyme and rosemary using the comb side of the tool.

Quickly strips parsley, cilantro, thyme and other herbs

The comb efficiently strips leaves from various herbs like parsley, cilantro, and thyme.

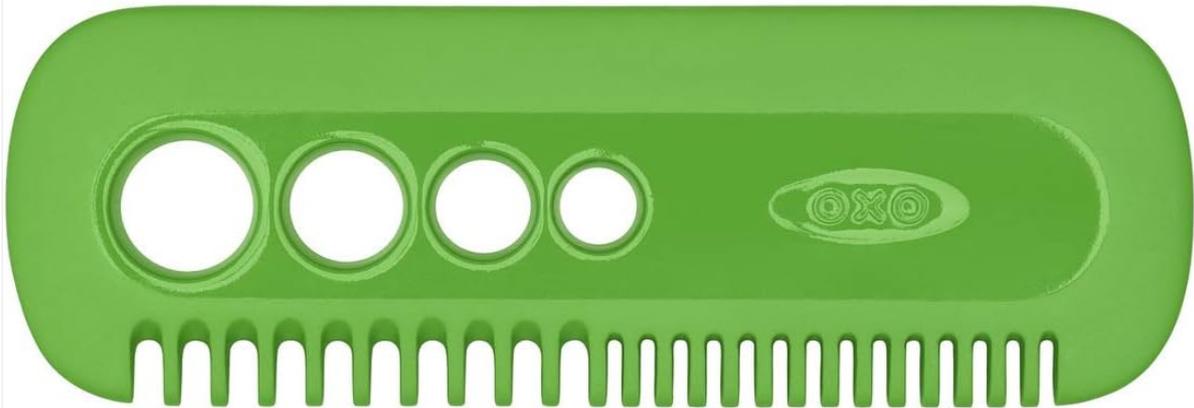

Stripping Kale and Leafy Greens

1. Select the appropriate hole size on the stripper that matches the thickness of the kale rib or leafy green stem.
2. Insert the stem through the chosen hole.
3. Pull the stem through the hole. The leaves will be separated from the tough rib.
4. Discard the stripped rib and prepare the leaves as desired.

Using one of the larger holes to effectively strip kale leaves from their tough central rib.

Four hole sizes strip kale and other leafy greens

The four distinct hole sizes are designed to accommodate various thicknesses of kale and other leafy green stems.

Gathering Herbs

After stripping, use the flat side of the comb to easily push and gather the separated herbs on your cutting board, preparing them for chopping or other uses.

The flat edge of the tool is useful for gathering stripped or chopped herbs on a cutting surface.

Flat side perfect for pushing and gathering herbs

The flat side provides a convenient surface for collecting and moving herbs.

CARE AND CLEANING

The OXO Good Grips Herb and Kale Stripping Comb is dishwasher safe, making cleanup simple. For best results and to prolong the life of the product, wash immediately after each use. Hand washing with warm, soapy water is also suitable.

TROUBLESHOOTING

This product is a simple manual tool and typically does not require extensive troubleshooting. If you encounter any issues, ensure the tool is clean and used as directed in the operating instructions. For further assistance, please contact OXO customer support.
