SHIDU M800

SHIDU Voice Amplifier M800 User Manual

Model: M800 | Brand: SHIDU

1. Introduction

The SHIDU M800 Voice Amplifier is a powerful and portable audio solution designed to ensure your voice is heard clearly in various environments. With its robust 18W output, it can project sound effectively to audiences of over 150 people, covering an area of up to 15,000 square feet. Its IPX5 waterproof design makes it suitable for both indoor and outdoor use, protecting against splashes and impacts. The built-in 4400mAh rechargeable battery provides extended operation, making it ideal for long teaching sessions, guided tours, or public speaking events. Beyond voice amplification, the M800 also functions as a versatile Bluetooth speaker with recording capabilities.

2. What's in the Box

Please check the contents of your package to ensure all items are present:

- 1 x SHIDU Voice Amplifier
- 1 x Wired Microphone Headset
- 1 x Waistband
- 1 x Charging Cable (Note: Charger not included)
- 1 x AUX Cable
- 1 x User Manual

4. Operating Instructions

4.1 Voice Amplification Mode

Once the microphone is connected and the device is powered on, your voice will be amplified through the speaker. Adjust the volume using the dedicated volume controls on the device. To increase volume, long press the 'forward' button. To decrease volume, long press the 'backward' button. You will hear two beeps when the maximum volume is reached.

Figure 4.1: The SHIDU Voice Amplifier M800 provides clear voice projection for various audiences.

Avoiding Howling (Feedback)

To prevent howling, ensure the microphone is not too close to the main amplifier unit. Maintain a reasonable distance between the microphone and the speaker to avoid audio feedback.

Figure 4.2: Anti-howling technology ensures clear sound without feedback.

4.2 Recording Mode

The SHIDU M800 supports one-key recording. First, insert a USB flash drive or a Micro SD card into the corresponding port for storage. Then, short press the dedicated recording button (often marked with a microphone icon) to start recording. Short press it again to stop recording and play back the last recording. You can navigate through other recordings using the 'forward' and 'backward' buttons. All recordings are saved in a dedicated folder on your storage device.
