SAFETY INFORMATION

- **Weight Limit:** Do not exceed the maximum weight capacity of 220 lbs (100 kg) on the desk surface. Overloading can compromise stability and cause damage.
- **Proper Assembly:** Ensure the desk is properly assembled following all instructions provided in this manual. Incorrect assembly can lead to instability and potential injury.
- **Sharp Edges:** Exercise caution around the corners of the desk to avoid accidental bumps or injuries.
- **Glass Panel Stability:** The tabletop panels are secured by suction cups. While generally stable, avoid pushing or sliding them forcefully to prevent displacement.
- **Placement:** Place the desk on a flat, stable, and level surface to prevent wobbling.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- L-Shaped Desk Components (P2 MDF panels, Iron Pipe frame sections)
- Assembly Hardware (screws, bolts, washers, suction cups)
- Instruction Manual

SETUP AND ASSEMBLY

Assembly typically requires two people for optimal ease and safety. Please follow these steps carefully.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
2. **Identify Parts:** Refer to the included parts diagram (if available) to identify each component of the desk frame and panels. Note that some frame supports may have different bore holes for specific alignment.
3. **Assemble Frame Sections:** Begin by connecting the metal frame sections using the provided screws and bolts. Ensure all connections are secure but do not fully tighten until the entire frame is assembled. The X-shape supports contribute to stability.

4. **Attach Adjustable Feet:** Screw the adjustable feet into the bottom of the frame legs. These can be adjusted later to level the desk on uneven surfaces.
5. **Place Tabletop Panels:** Carefully place the P2 MDF tabletop panels onto the assembled frame. The L-shaped design consists of three main panels.
6. **Secure Tabletop Panels:** The tabletop panels are secured using suction cups. Press the panels firmly onto the frame where the suction cups are located to create a secure hold.
7. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts. Do not overtighten.
8. **Level the Desk:** Adjust the feet as needed to ensure the desk is stable and does not wobble.

OPERATING AND USAGE

The Tangkula L-Shaped Computer Desk is designed for versatile use in various settings.

- **L-Shaped Configuration:** Utilize the L-shape to maximize corner space, providing ample room for multiple monitors, a laptop, and other office essentials.

MAINTENANCE

- **Cleaning:** Wipe the desk surface and frame with a damp cloth. For stubborn marks, a mild cleaning solution can be used, followed by drying with a clean cloth. Avoid abrasive cleaners.
- **Regular Checks:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals or solvents on the desk surfaces, as this may damage the finish.

TROUBLESHOOTING

- **Desk Wobbles:**
Ensure the desk is placed on a level surface. Adjust the individual feet at the bottom of the legs until the desk is stable.
- **Tabletop Panels Slide:**

The tabletop panels are held by suction cups. If they slide easily, ensure the suction cups are clean and free of dust, and press the panels firmly onto them to create a strong vacuum seal.

• **Assembly Difficulties:**

Review the assembly steps carefully. Ensure that frame components with specific bore holes are correctly aligned. If issues persist, refer to the diagrams or contact customer support.
