2. SAFETY INFORMATION

- **Age Recommendation:** This kit contains small parts and is recommended for individuals 14 years of age and older. Keep out of reach of young children to prevent choking hazards.
- **Tools:** Assembly requires the use of sharp tools such as scissors and possibly craft knives. Exercise caution when handling these tools.
- **Adhesives:** Silicone liquid glue is required for assembly (not included). Use in a well-ventilated area and follow the manufacturer's safety instructions for the adhesive.
- **Batteries:** Two AAA batteries are required for the LED lights (not included). Ensure correct polarity when inserting batteries. Do not mix old and new batteries or different types of batteries. Remove batteries if the product is not used for an extended period.
- **Electrical Components:** Handle LED light wiring carefully. Avoid short circuits.

3. PACKAGE CONTENTS

Before starting assembly, verify that all components are present. The kit includes various materials such as wood,

paper, and cloth pieces, along with LED lights and a music movement mechanism. Please note that silicone liquid glue, batteries (2x AAA), and scissors are **not included** and must be prepared separately.

Image 3.1: A selection of individual miniature components included in the kit.

Included Components:

- Pre-cut wooden pieces for structure and furniture
- Various paper cutouts for decorations and details
- Fabric pieces for upholstery and accents
- LED light components with wiring
- Music movement mechanism
- Dust cover panels
- Small decorative items (e.g., plants, ornaments)
- English instruction manual with detailed pictures

Items Not Included (Required for Assembly):

- Silicone liquid glue
- 2 x AAA batteries
- Scissors or craft knife

- Tweezers (recommended for small parts)

4. SETUP & ASSEMBLY

The assembly process involves cutting, gluing, and arranging various miniature components. The included English manual provides step-by-step guidance with colored pictures. Patience is key for successful assembly.

Image 4.1: Example of an instruction page detailing battery box wiring and dust cover assembly.

General Assembly Steps:

- Preparation:** Unpack all components and organize them. Refer to the instruction manual to identify parts. Prepare your workspace with necessary tools (glue, scissors, tweezers).
- Structural Assembly:** Begin by assembling the main wooden structure of the dollhouse. Follow the numbered steps in the manual to connect walls, floors, and ceilings using glue.
- Furniture & Decorations:** Assemble individual furniture pieces and decorative elements. These often involve small paper cutouts, fabric, and wooden parts.
- Electrical Wiring (LED Lights):**
 - Identify the LED light components and the battery box.
 - Connect the wires from the LED lights to the battery box as indicated in the manual. Ensure the positive and negative wires are correctly matched.

- Test the lights by inserting batteries into the battery box before permanently securing the wiring.
- Carefully route and secure the wires to conceal them within the dollhouse structure.

- 5. Music Movement:** Install the music movement mechanism according to the manual's instructions.
- 6. Final Placement:** Once all individual elements are assembled, place them within the dollhouse structure as depicted in the manual's finished product images.
- 7. Dust Cover Assembly:** Assemble the transparent dust cover panels. These typically involve folding and gluing the panels to create a protective enclosure.

5. OPERATING INSTRUCTIONS

LED Lights:

To activate the LED lights, ensure two AAA batteries are correctly inserted into the battery box. Locate the switch on the battery box and slide it to the 'ON' position. To turn off the lights, slide the switch to the 'OFF' position.

Music Movement:

The music movement mechanism is typically operated by a winding key. Gently turn the key clockwise until you

feel slight resistance. Do not overwind. The music will play for a short duration.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the dollhouse and its components. Avoid using water or cleaning solutions, as they may damage the materials.
- **Dust Cover:** Keep the dust cover in place when the dollhouse is not being actively viewed or handled to protect it from dust and environmental factors.
- **Battery Replacement:** If the LED lights dim or stop working, replace the AAA batteries in the battery box. Ensure proper polarity.
- **Storage:** Store the dollhouse in a stable, dry environment away from direct sunlight and extreme temperatures to prevent material degradation.

7. TROUBLESHOOTING

- **Lights Not Working:**
 - Check if batteries are inserted correctly with the right polarity.
 - Ensure batteries are fresh.
 - Verify all wire connections to the battery box are secure and not loose.
 - Inspect wires for any damage or breaks.
- **Missing Parts:**
 - Carefully re-check all packaging materials. Small parts can be easily overlooked.
 - If a part is genuinely missing, contact CUTEBEE customer support with your purchase details and a description of the missing component.
- **Difficulty Assembling:**
 - Refer to the English instruction manual's detailed pictures.
 - Search for "DIY dollhouse" assembly videos on platforms like YouTube for visual guidance.
 - Take breaks if you feel frustrated. Patience is crucial for miniature assembly.
- **Components Not Fitting:**
 - Ensure you are using the correct parts for the current step.
 - Some parts may require gentle sanding or trimming for a perfect fit.
