# Costzon Baby Safety Gate 6-Panel Fireplace Fence Instruction Manual

Brand: Costzon | Model: 0167618

## PRODUCT OVERVIEW

---

The Costzon Baby Safety Gate is a versatile 6-panel barrier designed to create a secure environment for babies and pets. Constructed from durable steel and nylon plastic, this gate can be configured into various shapes to suit different spaces, including play areas, room entrances, and fireplace surrounds. Its foldable design allows for convenient storage and portability.

## SETUP AND INSTALLATION

The Costzon Baby Safety Gate features a simple and quick assembly process. The panels are designed for easy connection and adjustment. For enhanced stability, the gate can be mounted to a wall or banister using the provided hardware.

- **Panel Connection:** Panels connect using adjustable joints. Loosen the knob, slide panels together, and tighten to secure the desired angle.
- **Wall Mounting:** The gate includes hardware for wall mounting. Drill the provided anchors and screws into the wall or banister at appropriate points to secure the gate.
- **Important Note:** The panel with the door should be placed in a middle position, not on the edge, for optimal functionality and safety.

## OPERATING INSTRUCTIONS

The gate is designed for ease of use while ensuring safety. Its flexible panel system allows for various configurations to adapt to your specific needs.

- **Gate Operation:** To open the gate, you must simultaneously pull back a safety feature and lift the gate. This two-step process ensures secure closure against accidental openings by children or pets.
- **Adjustable Shape:** Panels can be adjusted to form multiple shapes, such as a straight line, L-shape, U-shape, or a hexagonal playpen. Simply adjust the angle between panels and tighten the connectors.
- **Foldable Design:** For storage or transport, the gate can be easily folded into a compact size, minimizing space requirements.

## MAINTENANCE

---

To ensure the longevity and safe operation of your Costzon Baby Safety Gate, regular maintenance is recommended.

- **Cleaning:** Wipe down the metal and plastic surfaces with a damp cloth and mild soap. Avoid abrasive cleaners that may damage the finish.
- **Joint Inspection:** Periodically check all panel connectors and locking mechanisms to ensure they are securely tightened and functioning correctly.
- **Hardware Check:** If wall-mounted, regularly inspect the mounting hardware for any signs of loosening or wear. Retighten screws as needed.

## TROUBLESHOOTING

---

If you encounter any issues with your baby safety gate, please refer to the following common solutions:

- **Damaged Plastic Accessories:** If any plastic accessories are damaged during transportation or use, please contact Costzon customer service for a free replacement.
- **Gate Latch Malfunction (Fireplace Use):** If using the gate near a heat source like a fireplace, ensure sufficient distance to prevent plastic components from warping or melting. A review indicates that the gate latch may melt if exposed to extreme heat, causing it to stick. For fireplace use, consider an all-metal guard if heat exposure is significant.
- **Gate Instability:** Ensure all panel connectors are fully tightened. If wall-mounted, verify that the mounting hardware is securely fastened to the wall or banister.

## SPECIFICATIONS

<b>Brand</b>	Costzon
<b>Model Number</b>	0167618
<b>Material</b>	Steel + Nylon Plastic
<b>Color</b>	Black
<b>Product Dimensions</b>	48 x 48 x 29 inches (Configurable)
<b>Item Weight</b>	26.5 pounds
<b>Mounting Type</b>	Pressure Mount (with optional wall mounts)
<b>Age Range</b>	Baby (6 to 24 months recommended)

## WARRANTY AND SUPPORT

For any inquiries regarding product warranty, replacement parts, or technical support, please contact Costzon customer service directly. Refer to the contact information provided with your product packaging or visit the official Costzon website. As noted in the installation instructions, if plastic accessories are damaged during transportation, contact us for free replacement.
