# ARTISAN Raiden FX MID Mouse Pad (XL) Instruction Manual

Model: FX-RD-MD-XL

## 1. INTRODUCTION

Thank you for choosing the ARTISAN Raiden FX MID Mouse Pad. This high-performance mouse pad is designed for precision and speed, featuring a densely knitted fabric surface and a unique foam middle layer. The FX series incorporates lock processing on the edges to prevent fraying and enhance durability. This manual provides essential information for the proper use and care of your mouse pad.

The ARTISAN Raiden FX MID Mouse Pad offers a quick and smooth glide, making it suitable for various applications, including gaming. Its specialized non-slip base ensures stability during use.

## 2. SETUP

- Unpack the Mouse Pad:** Carefully remove the ARTISAN Raiden FX MID Mouse Pad from its packaging.
- Prepare the Surface:** Ensure your desk or chosen surface is clean, dry, and free of dust or debris. This helps the non-slip base adhere effectively.
- Position the Mouse Pad:** Place the mouse pad flat on your desired surface. The unique sucker structure on the sole provides excellent slip prevention, ensuring the pad remains stable during use.

Image: The underside of the ARTISAN Raiden FX MID Mouse Pad, illustrating its non-slip base. The pad is shown partially lifted to reveal the textured rubber backing designed for stability.

4. **Flattening:** Due to packaging, the mouse pad may have a slight curl initially. Its design is resistant to curling, and it should flatten out quickly with use.

### 3. OPERATING INSTRUCTIONS

The ARTISAN Raiden FX MID Mouse Pad is designed for immediate use. Simply place your computer mouse on the surface of the pad.

- **Surface Characteristics:** The densely knitted polyester surface provides a silky, light, and fast glide. This allows for quick initial movements and smooth tracking.

Image: A detailed close-up of the ARTISAN Raiden FX MID Mouse Pad surface, highlighting the fine texture of the knitted fabric and the brand logo in the corner. The edges show the lock processing.

- **Consistent Performance:** The pad's excellent flatness ensures a consistent glide across the entire surface, preventing disturbances in mouse movement and enabling accurate tracking.
- **Hardness:** This specific model features a 'MID' hardness, offering a balanced feel between softness and firmness.

## 4. MAINTENANCE

Proper maintenance will extend the lifespan and maintain the performance of your ARTISAN Raiden FX MID Mouse Pad.

- **Regular Cleaning:** The mouse pad surface can accumulate dust and grime over time, which may affect glide performance. It is recommended to clean the pad regularly, perhaps once every few weeks or as needed.
- **Cleaning Method:**
  - Use a microfiber cloth dampened with plain water.
  - Gently wipe the surface of the mouse pad. Avoid harsh scrubbing or abrasive materials.

- Do not use strong chemical cleaners, as these may damage the surface material.
- Allow the mouse pad to air dry completely before reuse. Do not expose to direct sunlight or high heat.
- **Avoid Contaminants:** Try to avoid eating or placing dirty/dust-prone objects directly on the mouse pad, as grime can build up quickly and affect performance.
- **Storage:** When not in use for extended periods, store the mouse pad flat or rolled loosely to prevent creases.

## 5. TROUBLESHOOTING

- **Mouse Pad is Slipping:**

Ensure the surface beneath the mouse pad is clean and dry. The non-slip base relies on a clean contact surface for optimal grip. If the issue persists, gently clean the underside of the mouse pad with a damp cloth and allow it to dry.

- **Reduced Glide Performance:**

This is often due to accumulated dust, skin oils, or grime on the surface. Refer to the [Maintenance](#) section for cleaning instructions. Regular cleaning is crucial for maintaining optimal glide.

- **Uneven Surface or Curling:**

While the ARTISAN Raiden is designed to be resistant to curling, if it appears uneven, try placing heavy, flat objects on it overnight to help it flatten completely. Ensure it is stored flat when not in use.

## 6. SPECIFICATIONS

<b>Model Number</b>	FX-RD-MD-XL
<b>Dimensions (XL)</b>	490mm (W) x 420mm (L) x 3mm (H)
<b>Surface Material</b>	Knitted cloth (Polyester)
<b>Middle Layer</b>	3mm Single foamed foam of special structure
<b>Hardness</b>	MID
<b>Color</b>	Coffee Brown
<b>Special Features</b>	Edge lock sewing, Non-slip base, Resistant to curl
