Artisan FX-ZR-MD-XL

Artisan Ninja FX Zero Mid X-Large Black Gaming Mouse Pad User Manual

Model: FX-ZR-MD-XL

1. INTRODUCTION

This manual provides essential information for the Artisan Ninja FX Zero Mid X-Large Black Gaming Mouse Pad. This model features a knitted polyester surface and a 3mm single-foamed special structure middle layer, designed to offer a balanced glide and precise stopping power. The pad's construction ensures excellent flatness and resistance to curling. Its non-slip sole provides secure placement without containing natural rubber. The surface is engineered for consistent performance, unaffected by hand moisture, and offers a light, smooth glide with controlled stopping due to its unique twisted yarn texture. This mouse pad is designed for ease of handling and is suitable for a wide range of users.

2. SETUP

- 1. Unpack:** Carefully remove the mouse pad from its packaging. Avoid bending or creasing the pad during removal.
- 2. Placement:** Place the mouse pad on a clean, flat, and stable surface. Ensure the area is free of debris that could affect the pad's flatness or the mouse's performance.
- 3. Orientation:** Position the mouse pad to best suit your ergonomic needs and desk setup. The non-slip sole will secure it in place.

3. OPERATING INSTRUCTIONS

The Artisan Ninja FX Zero mouse pad is designed for optimal mouse tracking and control.

- **Mouse Compatibility:** This mouse pad is compatible with most optical and laser gaming mice. For best performance, ensure your mouse's sensor is clean.
- **Surface Characteristics:** The knitted polyester surface provides a light and smooth glide while offering sufficient stopping power due to its slight irregularities. This balance is ideal for precise movements.
- **Environmental Factors:** The gliding performance is designed to be consistent and not significantly affected by sweat or moisture from hands.

4. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and consistent performance of your mouse pad.

- **Cleaning the Surface:**
 - For light dust and debris, use a lint roller or a soft, dry cloth to gently wipe the surface.
 - For deeper cleaning, lightly dampen a soft cloth with water and a small amount of mild soap. Gently wipe the surface. Avoid harsh chemicals or abrasive materials.
 - Ensure the mouse pad is completely dry before reuse. Do not machine wash or tumble dry.
- **Cleaning the Sole:** The non-slip sole can be wiped with a damp cloth to remove dust and restore its grip.

- **Storage:** When not in use for extended periods, store the mouse pad flat or rolled loosely to prevent creases.

5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Mouse glide feels inconsistent or sticky.	Accumulation of dust, debris, or skin oils on the mouse pad surface or mouse feet.	Clean the mouse pad surface as described in the Maintenance section. Also, ensure your mouse feet are clean and free of debris.
Mouse pad slides on the desk.	Dust or debris on the non-slip sole or the desk surface.	Wipe the underside of the mouse pad and the desk surface with a damp cloth to remove any particles. Ensure both surfaces are dry before repositioning.
Mouse tracking issues.	Dirty mouse sensor or uneven surface.	Clean your mouse's optical or laser sensor. Ensure the mouse pad is placed on a completely flat surface.

6. SPECIFICATIONS
