SKYBASIC Mx61

SKYBASIC Wifi Digital Microscope User Manual

Model: Mx61

1. INTRODUCTION

Thank you for purchasing the SKYBASIC Wifi Digital Microscope. This device is designed for detailed observation and analysis of microscopic objects, offering up to 1000x magnification. It is compatible with various operating systems, including iOS, Android, Windows, and MacOS, making it a versatile tool for educational, hobby, and light professional use. Please read this manual thoroughly before operation to ensure proper use and longevity of your device.

4. SETUP AND CONNECTION

The microscope can be connected to mobile phones (Android/iOS) via Wi-Fi or to computers (Windows/MacOS) via USB.

4.1 Mobile Phone Connection (Wi-Fi)

- Download the App:** Search for "Max-see" in Google Play Store (for Android) or Apple App Store (for iOS) and install it.
- Power On:** Long press the power button on the microscope to turn it on. The blue light will flash.
- Connect to Wi-Fi:** Go to your phone's Wi-Fi settings. Find and connect to the Wi-Fi network named "Max-see_xxxx" (where xxxx is a unique identifier).
- Open App:** Launch the "Max-see" app. It should automatically connect to the microscope and display the live view.
- Adjust Magnification and Light:** Use the focus wheel on the microscope to adjust magnification and focus. Rotate the LED light adjustment to control brightness.
