Keurig Rinse

Keurig Rinse Pods Instruction Manual

For Keurig Classic/1.0 & 2.0 K-Cup Pod Coffee Makers

INTRODUCTION

Keurig Rinse Pods are designed to maintain the optimal performance and beverage quality of your Keurig K-Cup pod coffee maker. These pods provide a simple and effective method to reduce flavor carry-over between different beverages and to clean the K-Cup pod holder by removing residue and oils.

Regular use of Keurig Rinse Pods helps prevent the buildup of residues and oils that can affect beverage taste and potentially lead to clogs in your coffee maker. This manual outlines the proper procedures for using Keurig Rinse Pods to ensure your coffee maker remains clean and your beverages consistently taste their best.

Image: Six boxes of Keurig Rinse Pods, illustrating the product packaging. Each box contains 10 rinse pods.

COMPATIBILITY

Keurig Rinse Pods are compatible with all Keurig K-Cup pod coffee makers, including Keurig Classic/1.0 and 2.0 models. They are **not** compatible with the Keurig Vue system.

OPERATING INSTRUCTIONS

Follow these steps to use a Keurig Rinse Pod:

1. **Prepare the Pod:** Remove one Keurig Rinse Pod from its packaging.
2. **Insert the Pod:** Place the rinse pod into the K-Cup pod holder of your Keurig coffee maker, just as you would a regular K-Cup beverage pod.
3. **Close and Select:** Close the brewer lid. Select the "rinse" option if your brewer has one, or choose a small cup size (e.g., 8 oz).
4. **Start Brewing:** Press the brew button to initiate the rinse cycle.
5. **Discard Water:** Once the cycle is complete, discard the rinse water from the drip tray.
6. **Optional Fresh Water Rinse:** For best results, perform a fresh water cleansing brew using the 8 oz brew size immediately after the rinse pod cycle.

HOW TO USE

1. Use a Keurig® Rinse Pod and perform an 8oz rinsing brew

2. Perform a fresh water cleansing brew using the 8oz brew size

MAINTENANCE SCHEDULE

For optimal performance and taste, incorporate Keurig Rinse Pods into your regular cleaning routine:

- **Weekly Use:** Use one Keurig Rinse Pod once a week.
- **After Flavored Beverages:** It is also recommended to use a rinse pod any time after brewing a flavored coffee, cocoa, or tea to prevent flavor carry-over.

This practice ensures that residues and oils are regularly removed, maintaining the cleanliness of your K-Cup pod holder and the purity of your beverage flavors.

RINSE PODS

Use once a week, or
after brewing flavored
beverages
