# **dretec Digital Timer Water Proof Shower Timer Instruction Manual**

Model: T-565ACRDI

## **INTRODUCTION**

---

Thank you for purchasing the dretec Digital Timer. This versatile and waterproof timer is designed for various uses, including shower time, studying, exercising, and cooking. Its robust construction and intuitive interface make it an essential tool for effective time management.

## PRODUCT FEATURES

---

- **IPX7 Water Resistance:** Designed to withstand immersion in water up to 1 meter for over 30 minutes, making it safe for use in bathrooms and other wet environments.
- **Dual Functionality:** Operates as both a precise timer and a convenient clock.
- **Extensive Timing Range:** Capable of measuring time up to 99 minutes and 50 seconds.
- **Multiple Timer Modes:** Features standard count-up, count-down, and repeat functions.
- **Quick Adjustment Buttons:** Includes dedicated buttons for quick adjustments of 10 minutes, 1 minute, and 10 seconds.
- **Alarm with Auto-Off:** The alarm sounds for 15 seconds and automatically turns off for convenience.
- **User-Friendly Display:** Easy to operate with a wide, clear digital display.
- **Durable Construction:** Features a silver-colored, durable plated material.
- **Versatile Mounting Options:** Equipped with a strong magnetic back for attaching to metal surfaces, a retractable stand for tabletop use, and a hook for hanging.
- **Compact and Portable:** Its pocket-sized design allows for easy portability.
- **Long-Lasting Battery:** Powered by a lithium battery designed to last at least over one year.

## Waterproof

Since it is a waterproof timer, you can use it safely even in the bathroom.

## SETUP

---

### Battery Installation

The dretec Digital Timer comes with one CR2 lithium battery included. To install or replace the battery:

1. Locate the battery compartment on the back of the timer.
2. Use a small screwdriver or coin to open the battery cover.
3. Insert the CR2 battery, ensuring the correct polarity (+/-) as indicated inside the compartment.
4. Securely close the battery cover.

### Initial Power On

Once the battery is installed, the timer will automatically power on and display the current time or a default timer setting.

## OPERATING INSTRUCTIONS

---

### Timer Mode

To set the timer:

1. Press the **10MIN** button to add 10-minute increments.
2. Press the **1MIN** button to add 1-minute increments.
3. Press the **10SEC** button to add 10-second increments.
4. Press **START/STOP** to begin the countdown.
5. To pause the timer, press **START/STOP** again. Press it once more to resume.
6. To reset the timer to zero, press the **RESET** button.
7. When the timer reaches zero, the alarm will sound for 15 seconds and then automatically turn off.

## Clock Mode

To switch between Timer and Clock mode:

- Press the **CLOCK/TIMER** button located at the bottom of the control panel. The display will switch between showing the current time and the timer setting.

## Mounting Options

The dretec Digital Timer offers flexible placement options:

- **Magnetic Back:** Attach the timer to any metallic surface, such as a refrigerator or a shower wall.
- **Retractable Stand:** Pull out the integrated stand on the back for convenient tabletop use.
- **Strap Hole:** Utilize the small hole at the top to thread a string or hook for hanging the timer.

## MAINTENANCE

---

### Cleaning

To clean the timer, wipe it with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water beyond its IPX7 rating.

### Water Resistance

The timer is IPX7 waterproof, meaning it can be submerged in up to 1 meter of water for 30 minutes. Ensure the battery compartment is securely closed to maintain water resistance. Avoid prolonged submersion or exposure to high-pressure water jets.

### Battery Replacement

If the display becomes dim or the timer functions erratically, it may be time to replace the battery. Follow the battery installation steps in the "Setup" section.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Display is blank or dim.	Low or dead battery. Incorrect battery installation.	Replace the battery (CR2). Ensure the battery is inserted with correct polarity.
Buttons are unresponsive.	Internal malfunction or water damage.	Ensure the timer is dry. If the issue persists after drying and battery replacement, the unit may be faulty.
Alarm is not sounding.	Low battery. Speaker obstruction.	Replace the battery. Check for any debris blocking the speaker opening.
Timer not holding time accurately.	Low battery.	Replace the battery.

## SPECIFICATIONS

---
