BLAVOR PN-W05

BLAVOR Solar Charger Power Bank 10,000mAh User Manual

Model: PN-W05

INTRODUCTION

This user manual provides detailed instructions for the operation and maintenance of your BLAVOR Solar Charger Power Bank 10,000mAh. Please read this manual thoroughly before using the product to ensure proper function and longevity. This portable power bank is designed for outdoor enthusiasts, offering reliable power with solar charging capabilities, fast charging, and a durable, waterproof design.

WHAT'S IN THE BOX

- Wireless Solar Charger
- Compass Carabiner
- USB A to USB C Cable
- User Manual

PRODUCT FEATURES

Compact and Robust Design

The BLAVOR Solar Charger Power Bank features a compact and robust design, making it ideal for portability. It includes a solar panel on one side and a wireless charging pad on the other, along with dual flashlights and a compass carabiner for outdoor use. Its durable construction is designed to withstand various environmental conditions.

Qi Wireless Charging

Experience hassle-free and cable-free charging with the integrated Qi wireless charging feature. Simply place your compatible device on the designated charging area to begin charging wirelessly. This feature is certified for reliable performance.

Qi CERTIFIED WIRELESS CHARGING

Hassle free & Cable Free

20W PD Fast Charging

20W PD Fast Charging

The power bank supports 20W Power Delivery (PD) fast charging via its USB-C port, allowing you to charge compatible devices up to 65% in just 30 minutes. This significantly reduces charging time compared to standard charging methods, ensuring your devices are ready when you need them.

Versatile USB-C Input/Output

Equipped with a versatile USB-C port that functions as both an input and an output, this power bank is compatible with a wide range of modern devices. This dual functionality simplifies charging and recharging processes.

BLAVOR ALWAYS INSISTS ON THE AUTHENTICITY

Real Rated 10000 mAh & Multi-Outputs

Multi-Output Charging

The power bank supports simultaneous charging of up to three devices through its USB-C input/output, USB-A output, and wireless charging area. This allows you to power multiple gadgets efficiently.

Durable and Outdoor-Ready

Constructed with flame-retardant ABS and PC materials, the power bank is designed for durability. It is IPX5 waterproof, dustproof, and shockproof, making it suitable for various outdoor conditions. The rubber skin-feel oil coating provides a comfortable grip and enhanced protection.

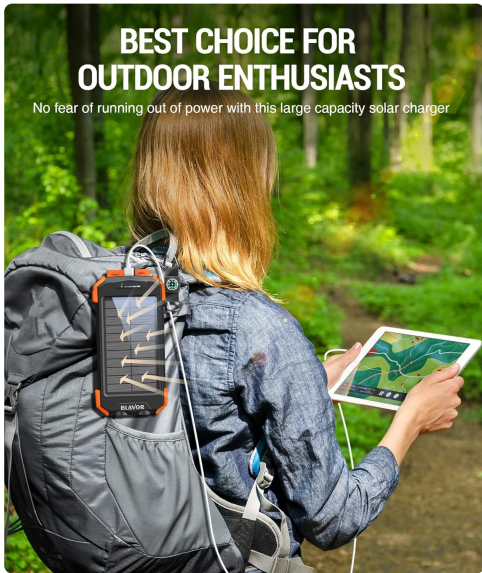

Dual Bright LED Flashlight

Equipped with dual super bright LED flashlights, the power bank provides illumination for up to 100 hours on a full charge, reaching up to 164 feet. This feature is essential for outdoor activities and emergency situations. To activate, press the power button for 3 seconds.

Travel Ready and Airline Approved

The BLAVOR Solar Charger Power Bank is designed to be travel-friendly and is airline approved, allowing you to carry it on flights. Its compact size and robust features make it an ideal companion for any journey, from daily commutes to extensive outdoor adventures.

Ideal for Outdoor Enthusiasts

With its solar charging capability, durable construction, and integrated flashlight, this power bank is an excellent choice for outdoor enthusiasts. It ensures you have power for your devices even when off-grid, making it perfect for camping, hiking, and other adventures.

Official Product Video: Solar Charger Power Bank Overview

Your browser does not support the video tag.

This video provides a comprehensive overview of the BLAVOR Solar Charger Power Bank, demonstrating its features and how it can be used in various scenarios. It highlights the product's design, charging capabilities, and suitability for outdoor activities.

SETUP

Initial Charging

Before first use, fully charge the power bank using a wall adapter and the provided USB A to USB C cable. This ensures the internal battery is conditioned for optimal performance. The LED indicators will show charging progress and battery level.

Attaching the Compass Carabiner

Attach the included compass carabiner to the designated loop on the power bank. This allows for easy attachment to backpacks or gear, and provides a basic directional tool for outdoor activities.

OPERATING INSTRUCTIONS

Charging Devices (Wired)

1. Connect your device to the power bank using a compatible USB cable (USB-A or USB-C port).
2. The power bank will automatically begin charging your device.
3. Monitor the LED indicators on the power bank to check its remaining battery level.

Charging Devices (Wireless)

1. Ensure your device supports Qi wireless charging.
2. Place your device centrally on the wireless charging pad of the power bank.
3. The device should indicate that it is charging. Adjust its position if charging does not start immediately.

Recharging the Power Bank (Wall Charger)

1. Connect the provided USB A to USB C cable to the USB-C input/output port on the power bank.
2. Plug the other end of the cable into a USB wall adapter (not included).
3. The LED indicators will flash to show charging status. All four LEDs will be solid when fully charged.

Recharging the Power Bank (Solar)

1. Place the power bank with its solar panel facing direct sunlight.
2. The solar charging indicator (green LED) will illuminate when solar charging is active.
3. Solar charging is primarily for emergency use and maintaining charge, not as a primary charging method due to its slower speed. For faster charging, use a wall adapter.

Using the LED Flashlight

1. To turn on the flashlight, press and hold the power button for approximately 3 seconds.
2. Press the power button once more to cycle through modes (steady light, SOS flashing, strobe).
3. To turn off the flashlight, press and hold the power button for 3 seconds again.

MAINTENANCE

- Keep the power bank away from extreme temperatures, direct heat, and open flames.
- Avoid dropping or subjecting the device to severe impacts.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- While IPX5 waterproof, avoid submerging the device in water. Ensure port covers are securely closed to prevent water ingress.
- Store in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging from power bank.	Low power bank battery; incorrect cable; device not compatible; loose connection.	Recharge power bank; use correct cable; ensure device compatibility; check connections.
Power bank not recharging.	Faulty cable/adaptor; solar panel not in direct sunlight; damaged port.	Try a different cable/adaptor; ensure direct sunlight for solar charging; contact support if port is damaged.
Wireless charging not working.	Device not Qi-compatible; improper placement; foreign objects between device and pad.	Verify Qi compatibility; reposition device; remove any obstructions.

Problem	Possible Cause	Solution
Flashlight not turning on.	Insufficient battery; incorrect button press.	Recharge power bank; press and hold power button for 3 seconds.

SPECIFICATIONS

Feature	Detail
Model Number	PN-W05
Battery Capacity	10,000mAh
Product Dimensions	5.9 x 3.1 x 0.8 inches
Item Weight	9.3 ounces
Charging Ports	USB-A Output, USB-C Input/Output
Wireless Charging	Qi Wireless (Certified ID 3533)
Fast Charging	20W Power Delivery (PD)
Waterproof Rating	IPX5
Flashlight	Dual LED, up to 164 feet, 100 hours
Battery Type	Lithium-cobalt
Manufacturer	BLAVOR
Country of Origin	China
