## Dynamic DY-6000U

# Dynamic DY-6000U Domestic Vehicle Retainer Assortment Kit

User Manual

## INTRODUCTION

The Dynamic DY-6000U Domestic Vehicle Retainer Assortment Kit is designed to provide professional installers with a readily available and organized collection of popular small service parts for domestic vehicles. This kit aims to improve efficiency and reduce downtime by ensuring common retainers are always on hand. It features a comprehensive selection of professional-grade quality retainers suitable for various applications.

This manual provides essential information for the proper use, maintenance, and identification of components within your DY-6000U kit.

## PRODUCT OVERVIEW

Figure 1: Packaging of the Dynamic DY-6000U Domestic Retainer Assortment Kit. This image displays the kit's branding, model number, and a general overview of its purpose as a domestic retainer assortment.

The DY-6000U kit includes a variety of retainers commonly used in domestic vehicle applications. Each retainer type is organized for easy identification and access, ensuring that the correct part is always available when needed.

### What's in the Box:

- One (1) Dynamic DY-6000U Domestic Vehicle Retainer Assortment Kit, containing various types of automotive clips and fasteners.

### SETUP AND ORGANIZATION

The DY-6000U kit is designed for immediate use and organized storage. No complex setup is required. Upon receiving the kit, ensure all components are present and in good condition.

1. **Unpack:** Carefully remove the assortment kit from its packaging.
2. **Inspect:** Verify that all compartments are intact and that the retainers are securely stored within their designated sections.
3. **Placement:** Store the kit in a clean, dry, and easily accessible location within your workshop or service bay. The clear lid allows for quick visual inventory.

### OPERATING AND APPLICATION

This assortment kit provides a range of retainers for various domestic vehicle applications, including trim panels, bumper fascias, hood insulation, and more. Always refer to the vehicle manufacturer's service manual for specific retainer types and installation procedures.

Figure 2: Detailed view of the retainer types included in the DY-6000U kit, showing individual part numbers and quantities for reordering.

### Identifying and Using Retainers:

- Each compartment in the kit is labeled with the retainer's specific re-order part number (e.g., DYN-6001-10) and a description (e.g., Door Trim Panel Retainer GM).
- Match the retainer from the kit to the specific application and original part being replaced.
- Ensure the retainer's dimensions and design are compatible with the mounting hole and panel thickness.
- Install retainers using appropriate tools and techniques to prevent damage to the retainer or vehicle components.

### Reordering Individual Retainers:

To replenish specific retainer types, use the re-order part numbers provided on the kit's internal labels and in the table below. These numbers correspond to individual packs of 10 retainers.

#### Individual Retainer Part Numbers and UPCs

Re-order Part #	Description	UPC	Quantity per Pack
DYN-6001-10	Door Trim Panel Retainer GM	<a href="#">0701845702899</a>	10

## MAINTENANCE

Proper maintenance of your retainer assortment kit ensures longevity and continued organization.

- Cleaning:** Periodically wipe down the exterior of the kit with a clean, damp cloth to remove dust and grime. Avoid harsh chemicals that may damage the plastic.
- Organization:** Always return unused retainers to their correct compartments to maintain order and facilitate quick identification.
- Storage:** Store the kit in a climate-controlled environment to prevent material degradation of the plastic retainers over time.

## TROUBLESHOOTING

While the DY-6000U kit is straightforward, here are some common issues and their resolutions:

- Issue:** Cannot find the correct retainer for an application.  
**Solution:** Double-check the vehicle manufacturer's specifications. Compare the shape, size, and mounting mechanism of the required retainer with those in the kit. If not present, it may be a specialized retainer not included in this general assortment.
- Issue:** Retainers are mixed up in compartments.

**Solution:** Carefully sort the retainers back into their designated compartments using the visual guides and part numbers printed on the kit's internal labels.

- **Issue:** Kit lid does not close securely.

**Solution:** Ensure no retainers are protruding from their compartments or lodged in the sealing edges. Clear any debris that might be preventing a proper seal.

## SPECIFICATIONS

Attribute	Detail
Model Number	DY-6000U
Brand	Dynamic
Item Weight	2 pounds
Product Dimensions	13 x 2.5 x 9 inches
Country of Origin	China
Fit Type	Universal Fit (for domestic vehicles)
Quality	Professional Grade Quality
