Robern PM2440T77 Profiles Mirror, Polished Nickel Instruction Manual

Model: PM2440T77

INTRODUCTION

Thank you for choosing the Robern PM2440T77 Profiles Mirror. This manual provides essential information for the safe installation, operation, and maintenance of your new mirror. Please read these instructions thoroughly before beginning installation and retain them for future reference.

IMPORTANT SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- **Heavy Item:** This mirror weighs approximately 41.8 pounds (19 kg). Always use proper lifting techniques and seek assistance when moving or installing to prevent injury.
- **Secure Mounting:** Ensure the mirror is securely mounted to a structural element of the wall (e.g., wall studs or blocking) capable of supporting its weight. Do not mount to drywall alone.
- **Professional Installation:** If you are unsure about proper installation methods or wall structure, consult a qualified professional installer.
- **Glass Handling:** Handle the mirror glass with care to avoid chips or breakage. Wear appropriate protective gloves.
- **Proposition 65 Warning:** This product may expose you to chemicals known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Robern PM2440T77 Profiles Mirror (1)
- Installation Hardware Kit (1) - *Contents may vary, refer to packaging for specifics.*
- Instruction Manual (1)

SETUP AND INSTALLATION

This mirror is designed for wall-mounted installation. Follow these steps carefully:

1. **Choose Location:** Select a suitable wall location, ensuring it is free from electrical wires, plumbing, or other obstructions. Consider the mirror's dimensions (39.25"L x 0.75"W) and desired height.
2. **Identify Mounting Points:** Use a stud finder to locate wall studs. The mirror must be mounted to at least one stud for secure installation. If studs are not available at desired points, consider using appropriate wall anchors for your wall type (e.g., toggle bolts for drywall, masonry anchors for brick/concrete).
3. **Mark Drill Holes:** Hold the mirror against the wall at the desired height and use a pencil to mark the locations for the mounting hardware. Ensure the marks are level.
4. **Drill Pilot Holes:** Drill pilot holes at the marked locations. The drill bit size will depend on the type of mounting hardware being used (refer to hardware kit instructions).
5. **Install Mounting Hardware:** Insert the appropriate wall anchors (if used) and then screw in the mounting brackets or screws provided in the hardware kit. Ensure they are firmly secured.
6. **Hang Mirror:** With assistance, carefully lift the mirror and align its hanging mechanism with the installed wall brackets/screws. Gently lower the mirror into place, ensuring it is seated securely and level.
7. **Final Check:** Lightly tug on the mirror to confirm it is stable and does not wobble.

USAGE AND PLACEMENT

The Robern Profiles Mirror is designed for indoor use as a decorative and functional wall-mounted mirror. While primarily intended for portrait orientation, multiple units can be ganged together or connected to a Profiles medicine cabinet for extended visual impact.

- **Environment:** Avoid placing the mirror in areas of extreme humidity or direct, prolonged sunlight, which can affect the mirror's longevity and finish.
- **Stability:** Once installed, avoid applying excessive force or hanging heavy objects from the mirror frame.

MAINTENANCE AND CLEANING

Regular cleaning will help maintain the appearance of your Robern mirror:

- **Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping behind the glass. Wipe gently until clean and streak-free.
- **Frame:** For the Polished Nickel frame, wipe with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or polishing compounds, as these can damage the finish. Dry immediately with a clean, soft cloth.
- **Avoid:** Do not use ammonia-based cleaners, acidic cleaners, or scouring pads on any part of the mirror.

TROUBLESHOOTING

Refer to the following common issues and solutions:

- **Mirror appears crooked after installation:**
 - Ensure mounting points were marked and drilled level.
 - Adjust the hanging mechanism if possible, or re-level the mounting hardware.
- **Mirror feels unstable or wobbly:**
 - Verify that the mounting hardware is securely fastened to wall studs or appropriate anchors.
 - Ensure the mirror is fully seated on its mounting points.
 - If unsure, remove the mirror and re-install, or consult a professional.
- **Streaks or smudges on mirror surface:**
 - Use a clean, lint-free microfiber cloth.
 - Apply glass cleaner to the cloth, not directly to the mirror.
 - Ensure the cleaner is non-abrasive and ammonia-free.

SPECIFICATIONS

Brand	Robern
Model Number	PM2440T77
Color	Polished Nickel
Material	Anodized Aluminium/Mirror
Product Dimensions	39.25"L x 0.75"W (39.3"L x 0.8"W)
Item Weight	41.8 Pounds (19 kg)
