## SENXINGYAN SINOIDEAS004

# SENXINGYAN 8-inch Digital Calendar Day Clock User Manual

Model: SINOIDEAS004 | Brand: SENXINGYAN

## INTRODUCTION

The SENXINGYAN 8-inch Digital Calendar Day Clock is an advanced timekeeping device designed for clarity and ease of use. Its large, high-resolution display clearly shows the time, full day of the week, month, and date without confusing abbreviations. This clock is particularly beneficial for individuals with visual impairments, memory loss, or Alzheimer's, as well as children learning to tell time. It features programmable medication reminders and multiple language options to enhance daily living.

## IMPORTANT SAFETY INFORMATION

- Always use the provided power adapter. Using an incorrect adapter may damage the device or pose a safety risk.
- Do not expose the clock to water or excessive moisture. This product is not waterproof.
- Avoid dropping the device or subjecting it to strong impacts.
- Do not attempt to disassemble or repair the clock yourself. Refer all servicing to qualified personnel.
- Keep out of reach of small children to prevent accidental damage or injury.
- Place the clock on a stable, flat surface or mount securely to a wall.

## PACKAGE CONTENTS

- 1 x SENXINGYAN 8-inch Digital Calendar Day Clock
- 1 x Power Adapter
- 1 x User Manual

## PRODUCT OVERVIEW

### Front View

The front of the clock features an 8-inch high-definition LCD display, designed for maximum readability. The screen shows the current time, day of the week, and full date in large, bold characters. A small light sensor is located at the bottom center of the bezel for automatic brightness adjustment.

#### **Rear View**

The rear of the clock houses the control buttons for settings adjustments, the power input port (5V===1000mA), and a USB port labeled 'USB Upgrading ONLY' for potential software updates. It also includes a foldable kickstand for tabletop use and integrated holes for wall mounting.

## SETUP GUIDE

1. **Unpack:** Carefully remove the clock and all accessories from the packaging.
2. **Connect Power:** Insert the small end of the power adapter cable into the 'DC IN' port on the back of the clock. Plug the other end of the adapter into a standard electrical outlet. The clock will power on automatically.
3. **Placement:** Place the clock on a stable desk or shelf using the integrated kickstand, or mount it securely to a wall using appropriate hardware (not included) and the mounting holes on the back.

## OPERATING INSTRUCTIONS

### Initial Power-On

Upon connecting to power, the clock will display the default time and date. You may need to adjust these settings to your local time zone and preferences.

### Setting Time and Date

Use the control buttons located on the back of the clock to navigate through the settings menu. Typically, there are 'Menu', 'Up', 'Down', and 'Enter' buttons. Follow the on-screen prompts to set the correct year, month, day, hour, and minute.

## Language Settings

The clock supports 7 different language options: German, English, Spanish, French, Italian, Polish, and Dutch. Access the language setting in the menu to select your preferred display language.

## Display Modes (12h/24h)

You can switch between 12-hour (with AM/PM indicator) and 24-hour time formats through the settings menu to suit your preference.

## Medication Reminders

The clock allows you to program up to 8 customizable medication reminders. Navigate to the 'Alarm' or 'Reminder' section in the settings. Set the desired time for each reminder, and the clock will display a message (e.g., "TIME TO TAKE YOUR MEDICINE") and sound an alarm.

This image illustrates the practical application of the medication reminder feature, showing how the clock can assist users in remembering to take their medication.

## Brightness Adjustment

The clock features an automatic dimming function that adjusts the display brightness based on ambient light conditions, ensuring optimal visibility day and night. This can also be manually adjusted in the settings.

This image demonstrates the clock's clear display in a typical home environment, emphasizing its readability and integration into daily life.

## CARE AND MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the display and casing. Do not use abrasive cleaners, solvents, or spray directly onto the clock.
- **Storage:** If storing the clock for an extended period, disconnect it from power and store it in a cool, dry place.
- **Environment:** Avoid placing the clock in direct sunlight, near heat sources, or in areas with extreme temperatures or humidity.

## TROUBLESHOOTING

| Problem                           | Possible Cause   | Solution   |
|-----------------------------------|--|--|
| No display / Clock not turning on | Power adapter not connected or faulty outlet.                  | Ensure the power adapter is securely plugged into the clock and a working electrical outlet. Try a different outlet.   |
| Incorrect time or date displayed  | Time/date not set correctly or power interruption.             | Access the settings menu using the buttons on the back and manually set the correct time and date.                     |
| Alarm not sounding                | Alarm not enabled, volume too low, or incorrect time set.      | Check alarm settings to ensure it is enabled and set to the correct time. Verify the volume level in the settings.     |
| Display too dim or too bright     | Automatic dimming feature active or manual brightness setting. | Adjust the brightness settings in the menu. Ensure the light sensor is not obstructed if automatic dimming is desired. |
