Knup KP-2039

Knup KP-2039 Mini Bluetooth Keyboard with Touchpad and Laser User Manual

Model: KP-2039

1. Introduction

Thank you for purchasing the Knup KP-2039 Mini Bluetooth Keyboard with Touchpad and Laser. This compact and versatile device is designed to enhance your control over various smart devices, including mobile phones, PCs, smart TVs, and more. It combines a full QWERTY keyboard, a multi-touch touchpad, and a laser pointer into a single, portable unit, offering convenience for presentations, media control, and general navigation.

2. Setup

2.1 Unboxing and Charging

Upon opening the package, ensure you have the Knup KP-2039 Mini Bluetooth Keyboard and a USB charging cable. Before initial use, fully charge the device. Connect the micro-USB end of the charging cable to the keyboard's charging port and the USB-A end to a compatible USB power source (e.g., computer USB port, USB wall adapter).

2.2 Bluetooth Pairing

Follow these steps to pair your keyboard with a Bluetooth-enabled device:

1. Turn on the keyboard by sliding the power switch to the 'ON' position. The indicator light will illuminate.
2. Press and hold the **Fn** key and the **Bluetooth icon key** (usually F1 or a dedicated Bluetooth button) simultaneously for a few seconds until the Bluetooth indicator light starts blinking, indicating pairing mode.
3. On your host device (e.g., smartphone, PC, smart TV), navigate to the Bluetooth settings.

4. Scan for available Bluetooth devices. You should see "KP-2039" or a similar name appear in the list.
5. Select "KP-2039" to initiate the pairing process. If prompted, enter the displayed pairing code on the keyboard and press **Enter**.
6. Once successfully paired, the Bluetooth indicator light on the keyboard will stop blinking and remain solid or turn off, depending on the model.

2.3 Laser Pointer Activation

To activate the integrated laser pointer, locate the dedicated laser button (often on the side or top of the keyboard). Press and hold this button to emit the laser beam. Release the button to turn it off. **Warning: Do not point the laser beam directly at eyes or reflective surfaces.**

3. Operating Instructions

3.1 Keyboard Functions

The keyboard features a full QWERTY layout. Type as you would on a standard keyboard. Many keys have secondary functions accessible by holding the **Fn** key and pressing the desired key.

- **Fn + F1 (PrntScrn)**: Print Screen function.
- **Fn + F2-F4**: Volume control (Mute, Volume Down, Volume Up).
- **Fn + F5-F7**: Media playback control (Previous Track, Play/Pause, Next Track).
- **Fn + F8**: Backlight control (if applicable, cycles through colors or on/off).
- **Ctrl + Alt + Del**: Performs the standard Ctrl+Alt+Del command on compatible systems.

3.2 Touchpad Functions

The integrated touchpad supports various gestures for navigation:

- **Single Finger Tap**: Left-click.
- **Two Finger Tap**: Right-click.
- **Two Finger Scroll**: Drag two fingers up or down to scroll vertically.
- **Single Finger Drag**: Move the cursor.

3.3 Backlight Control

If your model features a backlight, press **Fn + F8** to cycle through backlight colors or to turn the backlight on/off. This feature is useful in low-light environments.

4. Maintenance

- **Cleaning**: Use a soft, dry cloth to clean the keyboard and touchpad surfaces. For stubborn dirt, slightly dampen the cloth with water or a mild electronic cleaner. Avoid excessive moisture.
- **Storage**: Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care**: To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in constant use.
- **Avoid Liquids**: Do not expose the keyboard to liquids, as this can cause damage to internal components.

5. Troubleshooting

Problem	Possible Solution
Keyboard does not turn on.	Ensure the battery is charged. Connect the keyboard to a power source using the USB cable.
Cannot pair via Bluetooth.	• Ensure the keyboard is in pairing mode (Bluetooth indicator blinking). • Check that Bluetooth is enabled on your host device. • Move the keyboard closer to the host device. • Remove previous pairings of the keyboard from your host device and try again. • Restart both the keyboard and the host device.

Problem	Possible Solution
Keys or touchpad are unresponsive.	• Ensure the keyboard is fully charged. • Check Bluetooth connection. If disconnected, re-pair. • Restart the keyboard.
Backlight not working.	Press **Fn + F8** to cycle through backlight modes or turn it on. Ensure the battery has sufficient charge.
Laser pointer not working.	Ensure the laser button is being pressed and held. Check battery level.
