Corona AC 7220

Corona AC 7220 Leather Pruner Scabbard Holster User Manual

Model: AC 7220

1. PRODUCT OVERVIEW

The Corona AC 7220 Leather Pruner Scabbard Holster is a durable accessory designed to provide convenient and secure storage for your hand pruners or folding saws. Crafted from top-grain leather, it ensures your tools are protected and easily accessible during gardening tasks. This scabbard features robust construction with stitching and rivets for enhanced longevity, along with versatile attachment options for your belt.

2. FEATURES

- **Top-Grain Leather Construction:** Made from high-quality leather for durability and a classic appearance.
- **Stitched and Riveted:** Reinforced construction ensures long-lasting performance and resistance to wear.
- **Versatile Belt Attachment:** Includes both a sturdy metal belt clip and integrated leather loops for secure fastening to your belt.
- **Universal Design:** Accommodates most standard hand pruners and folding saws up to 8 inches in length.

- **Pouch Depth:** Approximately 5 inches, providing ample space for tool blades.
- **Heavy Waxed Thread:** Secure stitching with durable thread enhances structural integrity.
- **Overall Length:** Approximately 9-1/4 inches.

3. SETUP

The Corona AC 7220 scabbard offers two methods for attachment to your belt:

1. **Using the Belt Clip:** Slide the metal clip over your belt or waistband. Ensure the clip is fully engaged and feels secure.
2. **Using the Belt Loops:** Thread your belt through the two leather loops located at the top of the scabbard. This method provides a more permanent and stable attachment.

Always verify that the scabbard is firmly attached to your belt before inserting any tools to prevent accidental detachment during movement.

4. OPERATION

To use the scabbard:

1. **Insert Tool:** Carefully slide your hand pruners or folding saw into the scabbard with the cutting edge or blade facing downwards.
2. **Secure Placement:** Ensure the tool is fully seated within the scabbard's pouch. The snug fit helps to hold the tool in place and prevents it from shifting or falling out during activity.
3. **Removal:** To retrieve your tool, simply pull it upwards from the scabbard. The design allows for easy one-handed access.

5. MAINTENANCE

Proper care will extend the life of your leather scabbard:

- **Cleaning:** Wipe the leather surface with a clean, damp cloth to remove dirt and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Conditioning:** Periodically apply a high-quality leather conditioner or protectant, especially if the scabbard is frequently exposed to moisture or direct sunlight. This helps to keep the leather supple and prevents drying or cracking.
- **Drying:** If the scabbard becomes wet, allow it to air dry naturally at room temperature. Do not use direct heat sources like hair dryers or radiators, as this can damage the leather.
- **Storage:** Store the scabbard in a cool, dry place away from extreme temperatures and humidity when not in use.

6. TROUBLESHOOTING

- **Tool Fits Too Tightly:** New leather may be stiff. With regular use, the leather will naturally stretch and conform to the shape of your tool, providing an easier fit.
- **Scabbard Feels Loose on Belt:** Ensure the belt clip is fully engaged, or consider using the integrated belt loops for a more secure and stable attachment, especially during active tasks.

7. SPECIFICATIONS

Model Number	AC 7220
Material	Top-Grain Leather
Color	Leather (Natural)
Product Dimensions (L x W x H)	10.8" x 3.8" x 1.2" (27.4 cm x 9.7 cm x 3.0 cm)
