Fjords Fjords-Std-Havana

Fjords Ulstein Swing Relaxer Recliner Manual

Model: Fjords-Std-Havana

INTRODUCTION

Thank you for choosing the Fjords Ulstein Swing Relaxer Recliner. This manual provides essential information for the proper setup, operation, and maintenance of your new ergonomic reclining chair. Designed with Norwegian craftsmanship, the Ulstein model offers continuous support and comfort through its unique features.

Please read this manual thoroughly before assembly and use to ensure safe and optimal performance of your recliner.

SAFETY INFORMATION

- Ensure all components are securely assembled before use.
- Keep hands and feet clear of moving parts during reclining and swiveling operations.
- Do not allow children to play on or around the recliner unsupervised.
- Avoid placing excessive weight on the footrest when extended, as this may cause instability.
- The recliner is designed for indoor use only.

PACKAGE CONTENTS

Your Fjords Ulstein Swing Relaxer Recliner package should include the following components:

- Recliner Chair (main body)
- Chair Base (swivel mechanism)
- Ottoman (separate footrest, if applicable to your model)
- Assembly Hardware (bolts, washers, Allen key, if required)

Inspect all parts for damage before assembly. If any components are missing or damaged, please contact customer support.

SETUP

The Fjords Ulstein Swing Relaxer Recliner is designed for straightforward assembly. While specific steps may vary slightly, the general process involves attaching the chair body to its base.

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging materials until assembly is complete.
2. **Base Placement:** Place the chair base on a flat, stable surface where the recliner will be used. Ensure sufficient space for full recline and swivel.
3. **Chair Attachment:** Align the chair body with the central spindle or mounting points on the base. Gently lower the chair onto the base, ensuring a secure connection. Some models may require securing with bolts; refer to any included diagrams for precise instructions.
4. **Ottoman (if separate):** If your model includes a separate ottoman, it typically does not require assembly.
5. **Final Check:** Once assembled, gently test the swivel and recline functions to ensure smooth operation and stability.

STOCKED COLORS:
Manual, both sizes*:
Motorized, both sizes**:
NL 120 Havana, NL 121 Sandel,
NL 128 Cappuccino

Swing Relaxer:
W: 32 1/2", 33 1/2"
H: 39 1/2", 40 1/2" D: 34", 34 1/2"
SH: 18", 18 3/4" SD: 20", 20 3/4"

Black Base is standard on all swing relaxers, no finish options.
* Manual version is 360 swivel and comes with a glide lock.
** Motorized version is 170 degree swivel. Glide lock is not compatible for motorized version.
All swing relaxers can be special ordered without swivel option. They will still glide, lock, and recline.

OPERATING INSTRUCTIONS

The Fjords Ulstein Swing Relaxer is designed for intuitive operation, adapting to your body's movements for optimal comfort.

Reclining Function

The recliner features continuous back adjustment. To recline, simply lean back gently. The chair's unique gliding mountings allow the weight of your body to determine and maintain the desired reclining position. To return to an upright position, lean forward.

Integrated Footrest

The Ulstein model includes an integrated footrest. To extend the footrest, apply gentle pressure with your legs. To retract it, push down with your legs until it locks into place. Some users may find it takes a moment to familiarize themselves with the locking mechanism; ensure it clicks securely.

Swivel Function

Your recliner is equipped with a 360-degree swivel function, allowing you to easily change your orientation without moving the entire chair. Simply rotate the chair to your desired direction.

Active Release System (Neck Support)

The Fjords Active Release System provides optimal neck support. This integrated mechanism can be adjusted with a single movement to customize your sitting experience. Consult any specific diagrams for your model to locate and operate this adjustment.

MAINTENANCE

Proper care and maintenance will extend the life and appearance of your Fjords Ulstein Recliner.

Leather Care

- **Cleaning:** For general cleaning, wipe the leather with a soft, damp cloth. For spills, immediately blot with a clean, dry cloth. Avoid rubbing.
- **Spot Wash:** For specific stains, use a mild leather cleaner designed for genuine leather. Test on an inconspicuous area first.
- **Avoid:** Do not use harsh chemicals, abrasive cleaners, or excessive water, as these can damage the leather. Keep the recliner away from direct sunlight and heat sources to prevent drying and cracking.

General Care

- Regularly check all bolts and connections to ensure they remain tight.
- Vacuum crevices and under cushions periodically to remove dust and debris.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Footrest does not lock into place.	Mechanism not fully engaged.	Ensure you apply firm, consistent pressure with your legs until you hear or feel the footrest click into its locked position. Practice extending and retracting a few times.
Recliner feels unstable or wobbly.	Loose connections or uneven floor.	Check all assembly bolts and tighten if necessary. Ensure the recliner is on a flat, level surface.
Difficulty reclining or returning upright.	Mechanism obstruction or lack of lubrication.	Inspect the reclining mechanism for any obstructions. If the movement is stiff, a small amount of silicone-based lubricant may be applied to pivot points (avoid contact with leather).
