Apple A1954

Apple iPad (6th Generation, 2018) Wi-Fi 128GB Instruction Manual

Model: A1954

1. Introduction

This manual provides essential information for the proper use and care of your Apple iPad (6th Generation, 2018) Wi-Fi 128GB. Please read this guide thoroughly to understand the device's functionalities and ensure optimal performance. This iPad is a versatile tablet designed for various tasks, including browsing the internet, consuming media, and running applications.

2. Product Overview

2.1 Key Features

- 9.7-inch Multi-Touch Retina Display with 2048 x 1536 resolution (264 ppi)
- Apple A10 Fusion SoC and M10 Coprocessor for efficient performance
- 802.11ac Wi-Fi and Bluetooth 4.1 for wireless connectivity
- Front 1.2MP FaceTime HD Camera and Rear 8MP Camera for photos and video calls
- Support for Apple Pencil (1st generation)
- Night Shift for comfortable viewing in low light
- Touch ID Sensor for secure authentication

2.2 Device Components

Familiarize yourself with the physical layout of your iPad:

Figure 2.2.1: Front view of the iPad, displaying the home screen with app icons such as FaceTime, Calendar, Photos, Camera, and Settings. The Home button with Touch ID is visible below the screen.

Figure 2.2.2: Front view of the iPad showing the lock screen with the current date and time. The device's side profile is partially visible, indicating its slim design.

Figure 2.2.3: Back view of the iPad in Space Gray, featuring the prominent Apple logo in the center and the rear camera lens located in the top left corner.

3. Setup

3.1 Initial Power On and Charging

1. **Charge the iPad:** Connect the included USB power adapter and Lightning to USB cable to your iPad and a power outlet. Allow the device to charge for at least 30 minutes before initial use.
2. **Power On:** Press and hold the Top button (located on the top right edge) until the Apple logo appears.

3.2 Setup Assistant

Follow the on-screen instructions to complete the initial setup:

1. **Select Language and Region:** Choose your preferred language and country or region.
2. **Quick Start:** If you have another iOS device, you can use Quick Start to set up your new iPad automatically.
3. **Connect to Wi-Fi:** Select your Wi-Fi network and enter the password.
4. **Data & Privacy:** Review Apple's Data & Privacy information.
5. **Touch ID:** Set up Touch ID for fingerprint authentication.
6. **Create a Passcode:** Set a 6-digit passcode for security.
7. **Transfer Apps & Data:** Choose to restore from iCloud Backup, Mac or PC, or set up as a new iPad.
8. **Apple ID:** Sign in with your Apple ID or create a new one. This is essential for downloading apps, using iCloud, and other Apple services.
9. **Siri, Screen Time, and Analytics:** Configure these features as desired.
10. **True Tone Display:** Enable or disable True Tone.
11. **Welcome to iPad:** Tap 'Get Started' to begin using your iPad.

4. Operating Your iPad

4.1 Basic Gestures

- **Tap:** Select an item or activate a button.
- **Swipe:** Scroll through content or navigate between screens.
- **Pinch:** Zoom in or out on photos, maps, or web pages.
- **Touch and Hold:** Access contextual menus or rearrange app icons.

4.2 Home Button and Touch ID

- **Single Press:** Return to the Home screen.
- **Double Press:** Open the App Switcher to view recently used apps.
- **Touch and Hold:** Activate Siri.
- **Touch ID:** Place your registered finger on the Home button to unlock your iPad or authorize purchases.

4.3 Control Center and Notification Center

- **Control Center:** Swipe down from the top-right corner of the screen to access quick settings like Wi-Fi, Bluetooth, brightness, and volume.
- **Notification Center:** Swipe down from the top-center of the screen to view recent notifications.

4.4 App Store and Applications

Access the App Store icon on your Home screen to browse, purchase, and download applications. Ensure you are signed in with your Apple ID.

5. Maintenance

5.1 Battery Care

- Avoid extreme temperatures.
- Keep the battery charged between 20% and 80% for optimal longevity.
- Perform a full charge cycle (0% to 100%) occasionally.

5.2 Cleaning Your iPad

Use a soft, lint-free cloth to clean your iPad. Avoid abrasive materials, aerosols, solvents, or ammonia-based cleaners. For the screen, a slightly damp cloth is sufficient. Do not submerge the device in any liquids.

5.3 Software Updates

Regularly check for and install iOS updates to ensure your iPad has the latest features, security patches, and

performance improvements. Go to **Settings > General > Software Update**.

5.4 Backup and Restore

Regularly back up your iPad to iCloud or a computer to prevent data loss. This can be done via **Settings > [Your Name] > iCloud > iCloud Backup** or by connecting to a computer and using Finder (macOS Catalina or later) or iTunes (macOS Mojave or earlier, or Windows).

6. Troubleshooting

6.1 Common Issues and Solutions

- **iPad is unresponsive or frozen:** Press and hold the Top button and the Home button simultaneously until the Apple logo appears.
- **Wi-Fi connectivity issues:** Go to **Settings > Wi-Fi**, turn Wi-Fi off and then on again. If the issue persists, try resetting network settings via **Settings > General > Transfer or Reset iPad > Reset > Reset Network Settings**.
- **Apps crashing or not responding:** Close the app from the App Switcher (double-press Home button and swipe up on the app) and reopen it. If the problem continues, try restarting your iPad.
- **Battery drains quickly:** Review battery usage in **Settings > Battery** to identify power-hungry apps. Adjust screen brightness, disable background app refresh for non-essential apps, and ensure your iPad is running the latest iOS version.
- **Touch ID not working:** Ensure your finger is clean and dry. Re-register your fingerprints in **Settings > Touch ID & Passcode**.

7. Specifications

Feature	Specification
Model Number	A1954
Display Size	9.7 Inches
Display Resolution	2048 x 1536 (Retina)
Processor	Apple A10 Fusion SoC
Storage Capacity	128 GB
Wireless Connectivity	802.11ac Wi-Fi, Bluetooth 4.1
Rear Camera	8 MP
Front Camera	1.2 MP FaceTime HD

Manage photos

The photos you take with Photo Booth are saved to the Camera Roll album or, if you use iCloud Photo Library, in the All Photos album in the Photos app on iPad.

Delete a photo. Select a thumbnail, then tap 🗑.

Share or copy a photo. Tap a thumbnail, tap ⍓, then tap a share option or choose Copy.

View photos in the Photos app. In the Photos app, tap Photos. Or tap Albums, tap All Photos (or Camera Roll if iCloud Photo Library is turned off), then tap a thumbnail. Swipe left or right to see the next or previous photo. See View photos and videos.

Share photos on all your devices. If you use iCloud Photo Library, you can share your photos with other devices (iOS 8.1 or later), Mac computers (OS X 10.10.3 or later), and on iCloud.com. You must be signed in using the same Apple ID. See iCloud Photo Library.

Upload photos to your computer. Connect iPad to your computer using the included USB cable.

- *Mac:* Select the photos to upload, then click the Import or Download button in Photos or other supported photo app on your computer.
- *PC:* Follow the instructions that came with your photo app.

If you delete the photos from iPad when you upload them to your computer, they're removed from Photos. You can use the Photos settings pane in iTunes to sync photos to the Photos app on iPad.

Note: You can use the Move to iOS app only when you first set up iPad. If you've already finished setup and want to use Move to iOS, you must erase your iOS device and start over, or move your data manually. See the Apple Support article Move content manually from your Android device to your iOS device.

Connect iPad to your computer

By connecting iPad to your computer, you can sync content from your computer using iTunes and back up with iTunes. You can also sync with iTunes wirelessly.

To use iPad with your computer, you need:

- A Mac with a USB 2.0 or 3.0 port, or a PC with a USB 2.0 port, and one of the following operating systems:
  - OS X 10.9 or later with iTunes 12.5 or later
  - Windows 7 or later with iTunes 12.5 or later
- iTunes, available from the iTunes download website

Connect iPad to your computer. Use the included Lightning to USB Cable.

Unless iPad is actively syncing with your computer, you can disconnect it at any time. Look at the top of the iTunes screen on your computer or on iPad to see if syncing is in progress. If you disconnect iPad while it's syncing, some data may not get synced until the next time you connect iPad to your computer.

Sync iPad

You can transfer information and files between iPad and your other iOS devices and Mac computers, using either iCloud or iTunes.

Summon Siri with the Home button. Press and hold the Home button, release the button, then make your request. Or, instead of waiting for Siri to notice that you've stopped talking, continue to hold down the Home button while you speak, then release it when you finish.

If you're using a headset, you can use the center or call button in place of the Home button. If you're using AirPods, double-tap an AirPod until Siri appears.

Find out what Siri can do. Ask Siri "What can you do?" or tap .

Make corrections. If Siri misunderstands you:

- *Clarify your request:* Tap , then rephrase your request.
- *Edit your request with text:* Above the response from Siri, tap "Tap to Edit," then use the onscreen keyboard.
- *Change a message before sending it:* Say "Change it."

Ask Siri to translate. (beta) Siri can translate a phrase from English to Chinese, Spanish, French, German, or Italian. Ask Siri "How do you say" followed by the phrase and language to which you want to translate. Siri speaks the translation out loud, which can help you with pronunciation.

Play the translation again.

Change the voice for Siri. (not available in all languages) Go to Settings > Siri & Search > Siri Voice. Choose a male or female voice for Siri or even change the accent.

Adjust the volume for Siri. Use the volume buttons while you're interacting with Siri. For voice feedback options, go to Settings > Siri & Search > Voice Feedback.

Prevent access to Siri when iPad is locked. Go to Settings > Siri & Search > Allow Siri When Locked.

Prevent Siri from responding when you don't want it to. Place your device face down.

Take a Live Photo. (on supported models) A Live Photo captures what happens just before and after you take your photo, along with the audio. Choose Photo, tap ◎ to turn on Live Photos (yellow is on), then tap the Shutter button. Live photos are marked with "Live" in the corner. You can edit Live Photos and add filters to them in the Photos app.

Live Photos works with the rear camera and the FaceTime camera.

Take Burst shots. (on supported models) With the camera in Photo or Square mode, touch and hold the Shutter button to take rapid-fire photos in bursts. Lift your finger to stop. The counter shows how many shots you've taken. To see the suggested shots and select the photos you want to keep, tap the burst thumbnail, then tap Select. The gray dots below the thumbnails mark the suggested photos. To copy a photo from the burst as a separate photo in Photos, tap the circle in the lower-right corner of the photo. To delete the burst of photos, tap the bursts thumbnail, then tap . To choose which burst photos to upload to your Photo Stream, go to Settings > Photos.

Take a selfie with Retina Flash. (on supported models) Use the Retina HD display as a flash for your selfies. Turn on the flash, switch to the FaceTime camera, then tap the Shutter button (the display flashes on exposure).

Take a panorama photo. (rear camera) Choose Pano, tap the Shutter button, then pan slowly in the direction of the arrow. To finish the pan, tap the button again. To pan in the other direction, first tap the arrow. To pan vertically, rotate iPad to landscape orientation. You can reverse the direction of a vertical pan, too.

Use the capture timer. Use the capture timer to give yourself time to be in the shot. First set up iPad where you want, then frame your shot. Tap , tap 3s or 10s, then tap the Shutter button.

Save a photo or video to Photos. Touch and hold the photo or video until a menu appears, then tap Save Image.

Mark up attachments. Use Markup to annotate an image or a PDF attachment. Touch and hold the attachment, then tap Markup (if it's an attachment you're sending) or "Markup and Reply" (if it's an attachment you've received), then use the drawing and annotation tools. See Use Markup. On supported models, you can annotate with Apple Pencil.

Tap to add text, shapes, and signatures, or use the Magnifier.

Select a drawing tool, the eraser, or the selection tool.

Tap to choose colors.

Open an attachment with another app. Touch and hold the attachment until a menu appears, then tap the app you want to use to open the attachment. Some attachments automatically show a banner with buttons you can use to open other apps.

See messages with attachments. Tap to turn on filtering, then tap "Filtered by" and turn on "Only Mail with Attachments." You can also use the Attachments mailbox, which shows messages with attachments from all accounts. To add it, tap Edit while viewing the Mailboxes list.

Add an attachment. See Write messages.

Send large attachments. Mail Drop lets you send files that exceed the maximum size allowed by your email account. Tap Send when you're ready to send a message with large attachments, then follow the onscreen instructions to use Mail Drop.

Apple Product Information Sheet

The products referenced herein are "articles" and "consumer products" and therefore are exempted from the 29 CFR 1910.1200 Hazard Communication Standard ("HCS") and the Occupational Safety and Health Act ("OSHA") Globally Harmonized System (GHS) of Classification and Labelling of Chemicals requirements within the United States of America requirements. This Product Information Sheet is provided only as a service to our customers and is not based upon any requirement or regulation.

Product: (Li-ion) ("Product")
Lithium ion single cell batteries ≤ 20Wh and Lithium ion multi-cell batteries ≤ 100Wh

(For purpose of transport regulations, a single cell battery is considered a "cell" and a multi cell battery is considered a "battery" for classification purposes)

Models: See specific products listed in this document under Apple Product Battery Information, manufactured after January 1, 2010.

Edition Date: July 9, 2019
Version: 19.06

GENERAL SAFETY
This product, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. The mixture is encapsulated in the product. Only if released due to use or processing of the product in a manner not in accordance with the product's directions for use may it present potential health and safety hazards.

FIRST AID
Ingestion: Ingestion of a Li-ion battery is highly unlikely in the workplace, as the contents of a Li-ion battery are mostly solid, and any free liquid (ester-based electrolyte) that might drip out of a damaged battery is limited to a few drops. However, care should be taken not to touch fingers to mouth while handling a damaged battery so as to avoid any ingestion of contents. Do not induce vomiting. Wash out mouth with water. Get medical attention following potential exposure or if feeling unwell.

Inhalation: Remove individual to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if individual is feeling unwell.

Skin contact: Flush contaminated skin with plenty of water. Remove contaminated clothing. Continue to rinse for at least 15 minutes. Get medical attention. Wash clothing before reuse.

Eye Contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists.

HANDLING & STORAGE
Handling – Do not expose product to excessive physical shock or vibration. Do not disassemble. Should an individual battery in the product become ruptured, do not allow contact with water.

Apple Lithium-Ion Battery Product Information Sheet

This document provides comprehensive safety, handling, storage, and transportation information for Apple's lithium-ion batteries, along with detailed specifications for various Apple products.
